12 **DEPARTMENT OF MANAGEMENT AND BUDGET**

13 Sec. 401. (1) A contract shall not be let for new construction of  
14 a self-liquidating project estimated to cost more than \$1,000,000.00  
15 unless the project is authorized by the JCOS. The request for  
16 authorization shall be initially submitted for review to the JCOS and  
17 the department. A nonstate-funded project request shall include a  
18 complete use and financing statement as defined by a policy agreed to  
19 by the department and adopted by the JCOS. The use and financing  
20 statement for a self-liquidating or self-supporting project shall  
21 contain the estimated total construction cost and all associated  
22 estimated operating costs including a statement of anticipated  
23 revenues. As used in this section, "new construction" includes land or  
24 property acquisition, remodeling and additions, and maintenance  
25 projects.

26 (2) A self-liquidating project that is constructed in violation of  
27 this section shall not receive state appropriations for purposes of  
28 operating the project or support for future infrastructure  
29 enhancements which are necessitated, in part or in total, by the  
30 construction of this project.

(3) A state agency, including the department of military affairs, shall not let a contract for a direct federally funded capital outlay construction or major maintenance project that is estimated to cost more than \$1,000,000.00 and is to be constructed on state-owned lands unless the project is approved by the department and by the JCOS. As used in this subsection, "direct federally funded" refers to a project for which federal payments are made directly to the construction vendor and not to the state of Michigan.

(4) Universities, community colleges and state agencies shall report to the department and to the JCOS on a quarterly basis, all projects costing between \$500,000.00 and \$1,000,000.00.

Sec. 402. (1) A statement of a proposed facility's operating cost shall be included with the facility's schematic plans and with the facility's preliminary plans when the plans are presented to JCOS for approval.

(2) Except as otherwise expressly provided, the schematic and preliminary planning costs for a project costing \$1,000,000.00 or more, whether authorized as a specific planning project or as a line item project, shall be allocated only from the lump-sum planning account.

(3) Total authorized cost for projects contained in section 101 may be adjusted, by concurrent resolution, at the time of approval of preliminary plans by JCOS.

Sec. 403. (1) In carrying out this act and other acts containing appropriations for preliminary studies and planning, repair, maintenance, remodeling and additions, fire protection, occupational safety and health act requirements, or new construction, the department may obtain appropriated operating funds for professional services and

1 administration of projects. Money may also be transferred from  
2 appropriations made in this act to the department for the  
3 administration of a special maintenance, remodeling and addition,  
4 demolition, fire protection, or occupational safety and health act  
5 project. A transfer for this purpose shall not exceed 5% of the amount  
6 appropriated for each lump-sum appropriation and is available for three  
7 complete fiscal years from the beginning of this act's fiscal year.  
8 After three complete fiscal years, any unused balance shall lapse.  
9 Money may also be used for administration of projects from line item  
10 construction projects for which the department is an agent, but these  
11 transfers shall not exceed 1.5% of the amount appropriated for each  
12 individual project. Any unused balance from these projects shall not  
13 lapse at the end of each fiscal year, but shall carry over into  
14 succeeding fiscal years to be used for the purpose authorized. The  
15 department shall submit to the house and senate appropriations  
16 committees, JCOS, and the house and senate fiscal agencies a report of  
17 these transfers at the end of each fiscal year.

19 management and budget act, Act No. 431 of the Public Acts of 1984,  
20 being section 18.1244 of the Michigan Compiled Laws, an expenditure  
21 shall not be made for salaries and wages from any appropriation in this  
22 act.

23 Sec. 404. A state agency or community college shall take steps  
24 necessary to make available federal and other money indicated in this  
25 act, to make available federal or other money that may become available  
26 for the purposes for which appropriations are made in this act, and to  
27 use any part or all the appropriations to meet matching requirements  
28 that are considered to be in the best interest of this state. However,  
29 the purpose, scope, and total estimated cost of a project shall not be  
30 altered to meet the matching requirements.

1       Sec. 405. (1) The director shall allocate lump-sum appropriations  
2 made in this act for remodeling and addition, special maintenance,  
3 major special maintenance, energy conservation, demolition, ICF/MR, air  
4 conditioning, and fire protection projects. The director shall  
5 allocate lump sums, in order of program priority and need of the  
6 various state agencies or as otherwise based on actual building  
7 inspection reports by regulatory agencies. The director may award or  
8 approve the award of suitable professional services and construction  
9 contracts to study, plan, construct, and equip the projects authorized.  
10 Construction contracts approved by the director shall be awarded to the  
11 lowest acceptable bidders after being advertised publicly. A project  
12 authorized from a lump-sum appropriation has three fiscal years from  
13 the beginning of this act's fiscal year for the award of contracts  
14 after which any unencumbered balance of the appropriation or of any  
15 allocations made to a project from the appropriation shall revert to  
16 the general fund. For purposes of this subsection, a balance for a  
17 project shall not be considered encumbered unless the project is bid.

18       (2) Any remaining balances from allocations made in this section  
19 lapse to the general fund pursuant to the lapsing of lump sums as  
20 provided in the management and budget act, Act No. 431 of the Public  
21 Acts of 1984, being sections 18.1101 to 18.1594 of the Michigan  
22 Compiled Laws.

23       (3) All audits by the auditor general's office shall include a  
24 statement as to the compliance with allocations or distributions  
25 according to the formula cited in subsection (1).

26       (4) Before August 15, 1997, the department shall submit a report to  
27 the JCOS and the house and senate fiscal agencies indicating the total  
28 cost and status of all lump-sum projects funded under this act and any  
29 previous act that have been designated as proposed, designed, bid,  
30 under construction, or completed within the current fiscal year.

1       (5) A planning project or construction project appropriated for the  
2 airport program shall be considered the same as a capital outlay  
3 account and shall be subject to the requirements and restrictions  
4 stated in this act relative to all capital outlay accounts for  
5 construction unless otherwise expressly provided. This subsection does  
6 not apply to an operating account otherwise established by law.

7       Sec. 406. (1) The department shall provide the JCOS and the fiscal  
8 agencies with reports as considered necessary relative to the status of  
9 each planning or construction project financed by the state building  
10 authority, by this act, or by previous acts.

11       (2) Before August 15, 1997, the department shall report to the JCOS  
12 and the house and senate fiscal agencies for each construction project  
13 other than lump sums all of the following:

14       (a) The appropriation number and name of each construction project.

15       (b) The balance remaining in each account.

16       (c) The date of the last expenditure from the project.

17       (d) The anticipated date of occupancy if the project is under  
18 construction.

19       (e) The appropriation history for the project.

20       (f) The professional service contractor.

21       (g) The amount of a project financed with federal funds.

22       (h) The amount of a project financed through the state building  
23 authority.

24       (i) The total authorized cost for the project and the state  
25 authorized share if different than the total.

26       (3) Before August 15, 1997, the department shall report the  
27 following for each project by a state agency, that is authorized for  
28 planning but is not yet authorized for construction:

29       (a) The name of the project and appropriation number.

30       (b) Whether a program statement is approved.

1 (c) Whether schematics are approved by the department.

2 (d) Whether preliminary plans are approved by the department.

3 (e) The name of the professional service contractor.

4 (4) As used in this section, "project" includes appropriation line  
5 items made for purchase of real estate.

6 Sec. 407. (1) This section applies only to projects for community  
7 colleges.

8 (2) State support is directed towards the remodeling and additions,  
9 special maintenance, or construction of certain community college  
10 buildings. The community college shall obtain or provide for site  
11 acquisition and initial main utility installation to operate the  
12 facility. Funding shall be comprised of local and state shares, and  
13 the state share shall include 50% of any federal money awarded for  
14 projects appropriated in this act.

15 (3) The director shall not recommend to the board the release of  
16 any planning appropriation, except campus master plans, until the  
17 community college has submitted a program statement for the project to  
18 the director and to the JCOS and until the program statement is  
19 approved by the director. After the program statement is approved and  
20 the planning appropriation is released, the community college shall  
21 submit to the director for concurrence by the state the name of the  
22 firm proposed to provide professional services.

23 (4) Upon completion of the final planning documents for the  
24 project, and before bidding, the community college shall submit final  
25 planning documents to the department for its review, approval, and  
26 certification that the purpose and scope described in the final  
27 planning documents do in fact correlate with and reflect the approved  
28 preliminary planning documents.

29 (5) An expenditure under this act is authorized when the release of  
30 the appropriation is approved by the board upon the recommendation of

1 the director. The director may recommend to the board the release of  
2 any appropriation in section 101 only after the director is assured  
3 that the legal entity operating the community college to which the  
4 appropriation is made has complied with this act and has matched the  
5 amounts appropriated as required by this act, and the director has  
6 received a certified report of the advertised competitive bids for the  
7 project and the proposed budget based on the amounts of the lowest  
8 acceptable bids. A release of funds in section 201 shall not exceed  
9 50% of the total cost of planning and construction of any project, or  
10 of any campus master plan, not including lump-sum remodeling and  
11 additions and special maintenance. Further planning and construction  
12 of a project authorized by this act shall be in accordance with the  
13 purpose and scope as defined and delineated in the approved program  
14 statements and preliminary planning documents. This act is applicable  
15 to all projects for which planning appropriations were made in previous  
16 acts.

17 (6) The community college shall take the steps necessary to secure  
18 available federal construction and equipment money for projects funded  
19 for construction in this act if an application was not previously made.  
20 If there is a reasonable expectation that a prior year unfunded  
21 application may receive federal money in a subsequent year, the college  
22 shall take whatever action necessary to keep the application active.  
23 If federal money is received, the state share shall be adjusted  
24 accordingly as provided by this act.

25 (7) Not more than 50% of a capital outlay project, not including a  
26 lump-sum special maintenance project or remodeling and addition  
27 project, for a community college shall be appropriated from state and  
28 federal funds.

29 Sec. 408. If matching revenues are restricted in an amount less  
30 than the appropriations contained in this act, the state funds of the

1 appropriation shall be reduced in proportion to the amount of matching  
2 revenue received.

3       Sec. 409. (1) Subject to the provisions of section 242 of the  
4 management and budget act, Act No. 431 of the Public Acts of 1984,  
5 being section 18.1242 of the Michigan Compiled Laws, the department,  
6 upon the approval of the state building authority, may expend from the  
7 general fund of the state an amount to meet the cash flow requirements  
8 of those state building authority projects solely for lease to a state  
9 agency identified in section 101 and for which state building  
10 authority bonds or notes have not been issued, and for the sole  
11 acquisition by the state building authority of equipment and  
12 furnishings for lease to a state agency as permitted by Act No. 183 of  
13 the Public Acts of 1964, being sections 830.411 to 830.425 of the  
14 Michigan Compiled Laws, for which bond or note issuance is authorized  
15 pursuant to a legislative concurrent resolution effective in the  
16 fiscal year ending September 30, 1997. Any such general fund advances  
17 for which state building authority bonds have not been issued shall  
18 bear an interest cost to the state building authority at a rate not to  
19 exceed that earned by the state treasurer's common cash fund during  
20 the period in which the advances are outstanding and are repaid to the  
21 general fund of the state.

22       (2) Upon sale of bonds or notes for the projects identified in  
23 this act or equipment authorized pursuant to concurrent resolution the  
24 state building authority shall credit the general fund of the state an  
25 amount equal to that expended from the general fund plus interest, if  
26 any, as defined in this section.

27       (3) For state building authority projects for which bonds or notes  
28 have been issued, the state treasurer, upon the request of the state  
29 building authority, shall make advances without interest from the  
30 general fund as necessary to meet cash flow requirements for the

1 projects which advances shall be reimbursed by the state building  
2 authority when the investments earmarked for the financing of the  
3 projects mature.

4 (4) In the event that any project identified in section 102 is  
5 terminated after final design is complete, advances made on behalf of  
6 the state building authority for the costs of final design will be  
7 repaid to the general fund.

8 (5) Before December 1, 1997, and each quarter thereafter, the  
9 department shall provide a report to the JCOS on the status of any  
10 consent order outlining the problem statement, the administrative  
11 activities to correct the problem, the total estimated costs as  
12 compared to any established total authorized cost, and the current and  
13 future funding obligations and sources. Any change in the purpose and  
14 scope of a consent order requires JCOS approval as required by section  
15 246 of the management and budget act, Act No. 431 of the Public Acts of  
16 1984, being section 18.1246 of the Michigan Compiled Laws.

17 Sec. 410. (1) Before proceeding with final planning and  
18 construction for projects at community colleges and universities  
19 included in an appropriations act, the community college or university  
20 must sign an agreement with the department of management and budget  
21 that includes the following provisions:

22 (a) The university or community college agrees to construct the  
23 project within the total authorized cost established by the legislature  
24 pursuant to Act No. 431 of the Public Acts of 1984, being section of  
25 the Michigan Compiled Laws, and an appropriations act.

26 (b) The design and program scope of the project will not deviate  
27 from the design and program scope represented in the program statement  
28 approved by the department of management and budget.

29 (c) A capital outlay project included for a university or community  
30 college in an appropriations act will be managed by the department of

1 management and budget-office of facilities unless a university or  
2 community college demonstrates the ability and institutional resources  
3 to provide those same project management services in an effective  
4 manner.

5 (2) If the department of management and budget determines that a  
6 university or community college will manage a construction project at  
7 that institution, the department of management and budget retains the  
8 authority and responsibility normally associated with the prudent  
9 maintenance of the public's financial and policy interests relative to  
10 the state-financed construction projects.

11 Sec. 411. State building authority funding to finance construction  
12 or renovation of a facility which collects revenue in excess of funds  
13 required for the operation of that facility shall not be released to a  
14 university or community college unless the institution agrees to  
15 reimburse such excess revenue to the state building authority.  
16 Revenue shall include any state appropriations and facility opening  
17 funds and any other state aid and any indirect cost reimbursement and  
18 any other revenue generated by the activities of the facility. These  
19 excess amounts shall be credited to the general fund to offset rent  
20 obligations associated with the retirement of bonds issued for that  
21 facility. The auditor general will annually identify and present an  
22 audit of those facilities that meet this definition. Costs associated  
23 with the administration of the audit shall be charged against funds  
24 recovered pursuant to this section.

25 Sec. 412. (1) The department may expend from the lump-sum special  
26 maintenance account amounts necessary to demolish any building that is  
27 specifically authorized by law to be demolished.

28 (2) Before July 15, 1997, each state agency, community college, and  
29 university shall report to the department the status of and planned  
30 schedule for demolition projects already authorized but not yet

1 started, the estimated cost of the projects, and the anticipated  
2 sources of financing of the projects.

3 Sec. 413. (1) If a capital outlay appropriation is contained in a  
4 public act that was not reviewed by the JCOS during the legislative  
5 process, the director shall notify the JCOS of an allotment of that  
6 capital outlay appropriation not later than 60 days before the  
7 allotment.

8 (2) For the purposes of this section, "capital outlay  
9 appropriation" means an appropriation that provides for the  
10 construction, renovation, or repair of a capital facility or  
11 acquisition or development of land and that is normally reviewed by the  
12 JCOS.

13 Sec. 414. From a capital outlay appropriation authorizing the  
14 completion of final plans and start of construction, or an  
15 appropriation to complete plans and construction, the department shall  
16 reimburse the lump-sum planning account an amount equal to the  
17 releases made from the lump-sum planning account for studies,  
18 schematic plans, or preliminary plans for that project, after the JCOS  
19 has approved the project for final planning and start or completion of  
20 construction.

21 Sec. 415. The appropriation in section 101 for state building  
22 authority rent may also be expended for one or more of the following  
23 purposes:

24 (a) Payment of the required premiums for insurance on facilities  
25 owned by the state building authority.

26 (b) Payment of costs that may be incurred as the result of any  
27 deductible provisions in the insurance policies purchased in accordance  
28 with subdivision (a).

29 (c) To the extent the amount appropriated in section 101 for state  
30 building authority rent is insufficient for payment of amounts required

1 by subdivision (b), there is appropriated from the general fund of the  
2 state the amount necessary to satisfy those deductible provisions.

3 Sec. 416. The department shall provide the JCOS and the house and  
4 senate fiscal agencies a report, 15 days after the reporting date,  
5 relative to the status of construction projects associated with state  
6 building authority bonds on March 31, 1997, and September 30, 1997, or  
7 30 days after a refinancing or restructuring bond issue is sold. The  
8 report shall include, but is not limited to, the following:

9 (a) A list of all completed construction projects for which state  
10 building authority bonds have been sold, and which bonds are currently  
11 active.

12 (b) A list of all projects under construction for which sale of  
13 state building authority bonds are pending.

14 (c) A list of all projects authorized for construction or  
15 identified in an appropriations act for which approval of  
16 schematic/preliminary plans or total authorized cost is pending that  
17 have state building authority bonds identified as a source of  
18 financing.

19 Sec. 417. It is the intention of the legislature that the  
20 University of Michigan shall take the necessary actions to ensure that  
21 eligible interest reimbursements from medicare and medicaid programs  
22 are made available to the state to satisfy part of the amount
