House Bill 5086 (H-1) amends Article 9 of the Public Health Code regarding Supportive Personal Health Services. The bill adds Sec. 9171 to the Code to require the Department of Community Health (DCH) to make available on its internet website information on psychotropic drugs frequently prescribed to minors, and their common side effects. This requirement should be able to be accomplished with the existing resources of the DCH that are committed to development and maintenance of the DCH website.
