---

## SUMMARY

House Bill 5804 would amend the Michigan Vehicle Code to include the definition of a "flood vehicle" and provides that a flood certificate of title will be issued by the Department of State for a vehicle meeting the definition.

There would be set-up costs to the Department of State to modify computer coding to include "flood vehicle" information for the generation of a flood certificate of title. It is projected that costs could come to \$35,000, of which \$27,000 would be required for computer reprogramming, and \$8,000 for branch staff training, revision of branch reports and IT manuals. There is no fiscal impact on local units of government.
