House Bill 4493 (Substitute S-2 as passed the Senate)

Sponsor: Representative George Cushingberry

House Committee: Appropriations Senate Committee: Appropriations

Date Completed: 6-27-07

CONTENT

House Bill 4493 (S-2) provides for supplemental appropriations for FY 2006-07. The bill contains positive General Fund/General Purpose (GF/GP) supplemental appropriations to address projected funding shortfalls in the Departments of Community Health, Corrections, and Human Services. The bill provides for the appropriation of numerous Federal, State Restricted, and local and private funding sources that have become available since the beginning of the fiscal year. The final major component of the bill is the appropriation of a variety of Federal and State Restricted funding sources for Capital Outlay projects across the State. Gross appropriations in the bill total \$529.1 million and GF/GP appropriations total \$73.9 million. Following is a brief summary of the major appropriations contained in House Bill 4493 (S-2). Table 1 provides a department-by-department summary of the lineitem appropriations contained in the bill. Table 2 provides a summary of the boilerplate language contained in the bill.

Capital Outlay: The bill includes the initial fiscal year funding for numerous State Restricted and Federal fund appropriations for Capital Outlay projects across the State. Most of these appropriations have been pending since the Governor vetoed the FY 2006-07 Capital Outlay appropriation bill approved by the Legislature in December 2006. These Capital Outlay projects total \$90.2 million funded with \$13.8 million of Federal funds and \$76.3 million of State Restricted funds. The bill includes Department of Agriculture funding for the purchase of farmland and open space development rights; special maintenance funding for State buildings in the Department of Management and Budget; special maintenance funding in the Department of Military and Veterans Affairs; airport improvement and special maintenance projects in the Department of Transportation (2007 PA 3 included a majority of the FY 2006-07 airport funding); and State park and forest road improvement funding, wildlife habitat funding, waterways boating access projects and access improvements, and Natural Resources Trust Fund projects in the Department of Natural Resources.

Community Health: The bill includes \$142.7 million of GF/GP funding to close projected funding shortfalls in the budget. These funding shortfalls include caseload adjustments and adjustments related to the overappropriation of Federal and State Restricted funds. The bill also includes \$3.8 million of GF/GP funding to provide for the salary increases for mental health direct care workers. Increased GF/GP funding of \$7.7 million is included for the home and community-based waiver program designed for in-home services to people at risk for nursing home placement. This \$7.7 million GF/GP funding increase is offset by an identical reduction in nursing home funding. The bill adjusts GF/GP funding in Community Health as a restoration of the reductions in funding for nursing homes and hospitals included in Public Act 17 of 2007. This item results in a \$6.5 million GF/GP funding increase.

Page 1 of 9 hb4493/0708

The final funding item in the bill is a \$25,000 restoration of a \$100,000 reduction contained in Public Act 17 of 2007 to the Morris Hood Diabetes Research Center at Wayne State University. This funding increase is offset by a \$25,000 reduction in Pregnancy Prevention programs funded by the Healthy Michigan Fund.

Corrections: The bill includes \$42.4 million of GF/GP funding to address projected funding shortfalls in the operations of the State's prisons and the health care costs for inmates.

Higher Education: The bill includes a \$90.0 million GF/GP fund source shift in financial aid programs. This fund source shift replaces GF/GP funding with Merit Award Trust Fund revenue. The additional Merit Award Trust Fund revenue is a result of a transfer of \$90.0 million of surplus revenue in the Higher Education Student Loan Authority.

Human Services: The bill includes \$33.5 million of GF/GP funding to close projected funding shortfalls in the budget. These funding shortfalls include caseload adjustments and other adjustments related to fund source issues.

Management and Budget: The bill includes a \$15.2 million GF/GP funding increase for debt service payments on State Building Authority bonds. This GF/GP funding increase is used to offset \$15.2 million of debt service payments that were made to reimburse the Federal government for funds owed by the State as a result of a transfer of funds from the health advance funding account in the State Employees Retirement System. This transfer was a component of Executive Order 2007-3.

State Police: The bill includes the appropriation of \$4.0 million of State Restricted funding for the Auto Theft Prevention Program. This funding restores a reduction included in Executive Order 2007-3.

Treasury: The bill includes a \$70.0 million GF/GP fund source shift in debt service payments on General Obligation bonds supporting environmental cleanup programs. The fund source shift replaces GF/GP funding with Environmental Protection Fund revenue. The additional Environmental Protection Fund revenue is a result of a transfer of \$70.0 million of surplus revenue in the Refined Petroleum Fund.

FISCAL IMPACT

House Bill 4493 (S-2) provides for supplemental appropriations for FY 2006-07. Gross appropriations in the bill total \$529.1 million and GF/GP appropriations total \$73.9 million.
