17 (5) A fund to be known as the local bridge fund is established
18 and is set up and maintained in the state treasury as a separate

21 bridge program. The purpose of the fund is to provide financial
22 assistance to highway authorities for the preservation,
23 improvement, or reconstruction of existing bridges or for the
24 construction of bridges to replace existing bridges in whole or
25 part. The money in the local bridge fund is not subject to section

18 chairperson of the board shall be selected from among the voting
19 members of the board. In addition to the 2 nonvoting members, the
20 department shall provide qualified administrative staff and
21 qualified technical assistance to the board.

22 (6) Beginning October 1, 2005, no less than 5% and no more
23 than 15% of the funds received in the local bridge fund may be used
24 for critical repair of large bridges and emergencies as determined
25 by the local bridge advisory board. Beginning October 1, 2005,
26 funds remaining after the funds allocated for critical large bridge
27 repair and emergencies are deducted shall be distributed by the

board to the regional bridge councils created under this section.
One regional council shall be formed for each department of
transportation region as those regions exist on October 1, 2004.

The regional councils shall consist of 2 members of the county road
association of Michigan from counties in the region, 2 members of
the Michigan municipal league from cities and villages in the
region, and 1 member of the state transportation department in each
region. The members of the state transportation department shall be
nonvoting members who shall provide qualified administrative staff
and qualified technical assistance to the regional councils.

(7) Beginning October 1, 2005, funds in the local bridge fund
after deduction of the amounts set aside for critical repair of
large bridges and emergency repairs shall be distributed among the
regional bridge councils according to all of the following ratios,
which shall be assigned a weight expressed as a percentage as
determined by the board, with each ratio receiving no greater than
a 50% weight and no less than a 25% weight:

(a) A ratio with a numerator that is the total number of local
bridges in the region and a denominator that is the total number of
local bridges in this state.

(b) A ratio with a numerator that is the total local bridge
deck area in the region and a denominator that is the total local
bridge deck area in this state.

(c) A ratio with a numerator that is the total amount of
structurally deficient local bridge deck area in the region and a
denominator that is the total amount of structurally deficient
local bridge deck area in this state.

1 (8) Beginning October 1, 2005, the regional bridge councils
2 shall allocate the funds received from the board for the
3 preservation, improvement, and reconstruction of existing bridges
4 or for the construction of bridges to replace existing bridges in
5 whole or in part in each region.

6 (9) Beginning January 1, 2007 and each January after 2007, the
7 department shall submit a report to the chair and the minority
8 vice-chair of the appropriations committees of the senate and the
9 house of representatives, and to the standing committees on
10 transportation of the senate and the house of representatives, on
11 all of the following activities for the previous state fiscal year:

12 (a) A listing of how much money was dedicated for emergency
13 and large bridge repair.

14 (b) A listing of what emergency and large bridge repair
15 projects were funded.

16 (c) The actual weights used in the calculation required under
17 subsection (7).

18 (d) A listing of the total money distributed to each region.

19 (e) A listing of what specific projects were funded pursuant
20 to subsection (8).

21 (10) The state transportation commission shall borrow money
22 and issue notes or bonds in an amount of not less than
23 \$30,000,000.00 to supplement the funding provided for the local
24 bridge program under subsection (6). The bonds or notes issued
25 pursuant to this subsection may be issued by the commission for any
26 purpose for which other local bridge funds may be used under this
27 section. The bonds or notes authorized by this subsection shall be

1 issued by resolution of the state transportation commission
2 consistent with the requirements of section 18b.

3 (11) The state transportation department shall promulgate
4 rules pursuant to the administrative procedures act of 1969, 1969
5 PA 306, MCL 24.201 to 24.328, governing the administration of the
6 local bridge program. The rules shall set forth the eligibility
7 criteria for financial assistance under the program and other
8 matters related to the program that the department considers
9 necessary and desirable. The department shall take into
10 consideration the availability of federal aid and other financial
11 resources of the highway authority responsible for the bridge, the
12 importance of the bridge to the highway, road, or street network,
13 and the condition of the existing bridge.

14 (12) Beginning October 1, 2004, the revenue appropriated to
15 the local bridge fund pursuant to subsection (1)(d) shall be
16 distributed only to the local bridge advisory board, the regional
17 bridge councils, cities, villages, and county road commissions.

18 (13) Beginning October 1, 2008, the regional bridge councils
19 shall determine what bridge projects are selected for funding from
20 the local bridge fund created in subsection (5) and shall make a
21 list of selected projects available to interested parties in the
22 region. A determination that a bridge project is selected for
23 funding in a given fiscal year is not approval to disburse the
24 funds.

25 (14) Beginning October 1, 2008, a county road commission,
26 city, or village may implement a bridge project if the bridge
27 project has been selected for funding and is included in the

1 appropriate regional bridge council's current multiyear bridge plan
2 for the local bridge program but the regional bridge council has
3 not allocated funds to the bridge project for the fiscal year that
4 the bridge project is on the current multiyear bridge plan. A
5 county road commission, city, or village may borrow funds to
6 implement a project that has been selected for funding and is
7 included in the appropriate regional bridge council's current
8 multiyear bridge plan but has not been allocated funds by the
9 regional bridge council. Based on available local bridge funds,
10 when a bridge project that was implemented with borrowed funds is
11 allocated funding in a subsequent fiscal year, the funding shall
12 only be used to repay the amount approved by the multiyear bridge
13 plan when the funds were borrowed. To be eligible for repayment of
14 the amount borrowed, a bridge project that has been implemented
15 with borrowed funds shall be administered through the department's
16 local bridge program.
