Overview

The Department's key programs and priorities include ensuring food safety and security, protecting animal health and welfare, managing invasive exotic species, regulating pesticide use, certifying agricultural commodities, ensuring environmental stewardship, protecting consumers, and promoting the state's agricultural economy.

The House bill reflects the Governor's proposed budget with the following exceptions: The House bill does not recognize \$300,000 in restricted revenue from proposed grain dealer fees and instead retains \$300,000 GF/GP. The House bill does not recognize \$550,000 in restricted revenue from a proposed Intercounty Drain fee and includes \$432,300 GF/GP. The effect of these two changes is that *Gross appropriations* in the House Bill are \$117,700 less than the Governor's recommendation; GF/GP funding is \$732,300 more than the Governor.

The House generally follows the line item format of the current year budget with the exception of two current year line items, *Groundwater and freshwater protection program*, and *Agriculture pollution prevention program*, which were rolled up into a single *Environmental stewardship* line. In addition, restricted *Freshwater protection fund* revenue was added to the *Michigan agriculture environmental assurance program* line to better reflect actual program funding. The House bill also retains a number of legislative boilerplate sections.

The only difference between the FY 2011-12 and FY 2012-13 budgets is the inclusion in FY 2012-13 of a \$1,396,200 item, "*Active and retiree insurance and pension adjustment*." FY 2012-13 figures are projected or proposed budget amounts only and would not be legally-binding appropriations.
