In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 612 of part B of the individuals with disabilities education act, 20 USC 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.

A district's, public school academy's, or intermediate district's membership shall be adjusted as provided under section 25e for pupils who enroll in the district, public school academy, or intermediate district after the pupil membership count day. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. For the purposes of this section and section 6a, for a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL

380.553a, a pupil's participation in the cyber school's educational program is considered regular daily attendance; for the education achievement system, a pupil's participation in an online educational program of the education achievement system or of an achievement school is considered regular daily attendance; and for a district a pupil's participation in an online course as defined in section 21f is considered regular daily attendance. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, a public school academy, the education achievement system, or an intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil shall be counted in membership in the pupil's educating district or districts. An individual pupil shall not be counted for more than a total of 1.0 full-time equated membership.

(b) If a pupil is educated in a district other than the pupil's district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil's district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the approval of the pupil's district of residence to count the pupil in membership, the pupil shall not be counted in membership in any district.

(c) A special education pupil educated by the intermediate district shall be counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, shall be counted in membership in the district or intermediate district approved by the department to operate the program.

(e) A pupil enrolled in the Michigan schools for the deaf and blind shall be counted in membership in the pupil's intermediate district of residence.

(f) A pupil enrolled in a career and technical education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established pursuant to section 690 of the revised school code, MCL 380.690, shall be counted only in the pupil's district of residence.

(g) A pupil enrolled in a public school academy shall be counted in membership in the public school academy.

(h) A pupil enrolled in an achievement school shall be counted in membership in the education achievement system.

(i) For a new district or public school academy beginning its operation after December 31, 1994, or for the education achievement system or an achievement school, membership for the first 2 full or partial fiscal years of operation shall be determined as follows:

(i) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(ii) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership shall exclude from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) In a district, a public school academy, the education achievement system, or an intermediate district operating an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance on a pupil membership count day, shall be counted.

(l) To be counted in membership, a pupil shall meet the minimum age requirement to be eligible to attend school under section 1147 of the revised school code, MCL 380.1147, or shall be enrolled under subsection

(3) of that section, and shall be less than 20 years of age on September 1 of the school year except as follows:

(i) A special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department, who does not have a high school diploma, and who is less than 26 years of age as of September 1 of the current school year shall be counted in membership.

(ii) A pupil who is determined by the department to meet all of the following may be counted in membership:

(A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating homeless pupils.

(B) Had dropped out of school for more than 1 year and has re-entered school.

(C) Is less than 22 years of age as of September 1 of the current school year.

(iii) If a child does not meet the minimum age requirement to be eligible to attend school for that school year under section 1147 of the revised school code, MCL 380.1147, but will be 5 years of age not later than December 1 of that school year, the district may count the child in membership for that school year if the parent or legal guardian has notified the district in writing that he or she intends to enroll the child in kindergarten for that school year.

(m) An individual who has obtained a high school diploma shall not be counted in membership. An individual who has obtained a general educational development (G.E.D.) certificate shall not be counted in membership unless the individual is a pupil with a disability as defined in R 340.1702 of the Michigan administrative code. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the Michigan strategic fund, or participating in any successor of either of those 2 programs, shall not be counted in membership.

(n) If a pupil counted in membership in a public school academy or the education achievement system is also educated by a district or intermediate district as part of a cooperative education program, the pupil shall be counted in membership only in the public school academy or the education achievement system unless a written agreement signed by all parties designates the party or parties in which the pupil shall be counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district shall be included in the full-time equated membership determination under subdivision (q). However, for pupils receiving instruction in both a public school academy or the education achievement system and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(i) If the public school academy or the education achievement system provides instruction for at least 1/2 of the class hours specified in subdivision (q), the public school academy or the education achievement system shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy or the education achievement system provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the district or intermediate district providing the remainder of the hours of instruction.

(ii) If the public school academy or the education achievement system provides instruction for less than 1/2 of the class hours specified in subdivision (q), the district or intermediate district providing the remainder of the hours of instruction shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the public school academy or the education achievement system.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program shall not be counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships shall be consistent with section 101(3). In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution, a pupil shall not be considered to be less than a full-time equated pupil solely because of the effect of his or her postsecondary enrollment, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Beginning in 2012-2013, full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of instructional hours scheduled and provided per year per kindergarten pupil by the same number used for determining full-time equated memberships for pupils in grades 1 to 12. However, to the extent allowable under federal law, for a district or public school academy that provides evidence satisfactory to the department that it used federal title I money in the 2 immediately preceding school fiscal years to fund full-time kindergarten, full-time equated memberships for pupils in kindergarten shall be

determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12. The change in the counting of full-time equated memberships for pupils in kindergarten that took effect for 2012-2013 is not a mandate.

(s) For a district, a public school academy, or the education achievement system that has pupils enrolled in a grade level that was not offered by the district, the public school academy, or the education achievement system in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year, as determined by the department. Membership shall be calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours specified in subdivision (q) for full-time equivalency. For the purposes of this subdivision, a district shall be considered to be providing appropriate instruction if all of the following are met:

(i) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.

(ii) The district provides instructional materials, resources, and supplies that are comparable to those otherwise provided in the district's alternative education program.

(iii) Course content is comparable to that in the district's alternative education program.

(iv) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district or the education achievement system within 45 days after the pupil membership count day, the department shall adjust the district's or the education achievement system's pupil count for the pupil membership count day to include the pupil in the count.

(w) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .10 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(x) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils and the district has 4.5 or fewer pupils per square mile, as determined by the department, and if the district does not receive funding under section 22d(2), the district's membership shall be considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. The membership figure calculated under this subdivision is the greater of the following:

(i) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.

(ii) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(y) Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan administrative code shall be

Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are receiving early childhood special education services under R 340.1755 or 340.1862 of the Michigan administrative code shall be determined by dividing the number of hours of service scheduled and provided per year per pupil by 180.

(aa) For the first year in which a pupil is counted in membership on the pupil membership count day in a middle college program, the membership is the average of the full-time equated membership on the pupil membership count day and on the supplemental count day for the current school year, as determined by the department.

(bb) A district, a public school academy, or the education achievement system that educates a pupil who attends a United States Olympic education center may count the pupil in membership regardless of whether or not the pupil is a resident of this state.

However, if the special membership counting provisions under this subdivision and the operation of the other membership counting provisions under this subsection result in a pupil being counted as more than 1.0 FTE in a fiscal year, the payment made for the pupil under sections 22a and 22b shall not be based on more than 1.0 FTE for that pupil, and any portion of an FTE for that pupil that exceeds 1.0 shall instead be paid under section 25f. The district operating the program shall report to the center the number of pupils who were enrolled in the program and were in full attendance for a month not later than the tenth day of the next month. A district shall not report a pupil as being in full attendance for a month unless both of the following are met:

consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492 and that, on or before March 2, 1998, submitted to the state treasurer a waiver resolution described in section 11f. The amounts paid under this section represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this section.

(6) A district or intermediate district may pledge or assign payments under this section as security for bonds issued under section 11i, but shall not otherwise pledge or assign payments under this section.

388.1615 Apportionment of deficiency; state aid overpayments to districts; deduction due to adjustment as result of audit or incorrect payment; audits; funding expenditures caused by write-off of prior year accruals; additional appropriation.

Sec. 15. (1) If a district or intermediate district fails to receive its proper apportionment, the department, upon satisfactory proof that the district or intermediate district was entitled justly, shall apportion the deficiency in the next apportionment. Subject to subsections (2) and (3), if a district or intermediate district has received more than its proper apportionment, the department, upon satisfactory proof, shall deduct the excess in the next apportionment. Notwithstanding any other provision in this article, state aid overpayments to a district, other than overpayments in payments for special education or special education transportation, may be recovered from any payment made under this article other than a special education or special education transportation payment, from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211. A deduction due to an adjustment made as a result of an audit conducted by or for the department, or as a result of information obtained by the department from the district, an intermediate district, the department of treasury, or the office of auditor general, shall be deducted from the district's apportionments when the adjustment is finalized. At the request of the district and upon the district presenting evidence satisfactory to the department of the hardship, the department may grant up to an additional 4 years for the adjustment and may advance payments to the district otherwise authorized under this article if the district would otherwise experience a significant hardship in satisfying its financial obligations.

(3) If, based on an audit by the department or the department's designee or because of new or updated information received by the department, the department determines that the amount paid to a district or intermediate district under this article for the current fiscal year or a prior fiscal year was incorrect, the department shall make the appropriate deduction or payment in the district's or intermediate district's allocation in the next apportionment after the adjustment is finalized. The deduction or payment shall be calculated according to the law in effect in the fiscal year in which the incorrect amount was paid. If the district does not receive an allocation for the fiscal year or if the allocation is not sufficient to pay the amount of any deduction, the amount of any deduction otherwise applicable shall be satisfied from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211, as determined by the department.

(5) Expenditures made by the department under this article that are caused by the write-off of prior year accruals may be funded by revenue from the write-off of prior year accruals.

(6) In addition to funds appropriated in section 11 for all programs and services, there is appropriated for 2014-2015 for obligations in excess of applicable appropriations an amount equal to the collection of overpayments, but not to exceed amounts available from overpayments.

388.1617a Withholding payment district or intermediate district entitled to receive; extent; plan for financing outstanding obligation defaulted upon by district or intermediate district; use of amounts withheld; agreement assigning or pledging payment; effect of emergency manager or deficit elimination plan; indebtedness of state not created; "trustee of a pooled arrangement" defined; approval or disapproval of trust.

Sec. 17a. (1) The department may withhold all or part of any payment that a district or intermediate district is entitled to receive under this article to the extent the withholdings are a component part of a plan, developed and implemented pursuant to the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821, the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, the local financial stability and choice act, 2012 PA 436, MCL 141.1541 to 141.1575, or other statutory authority, for financing an outstanding obligation upon which the district or intermediate district defaulted or for other financial obligations of the district or intermediate district. Amounts withheld shall be used to pay, on behalf of the district or intermediate district, unpaid amounts or subsequently due amounts, or both, of principal and interest on the outstanding obligation upon which the district or intermediate district defaulted.

(2) The state treasurer may withhold all or part of any payment that a district or intermediate district is entitled to receive under this article to the extent authorized or required under section 15 of the school bond qualification, approval, and loan act, 2005 PA 92, MCL 388.1935, the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, the local financial stability and choice act, 2012 PA 436, MCL 141.1541 to 141.1575, or other statutory authority.

(3) Under an agreement entered into by a district or intermediate district assigning all or a portion of the payment that it is eligible to receive under this article to the Michigan finance authority or to the trustee of a pooled arrangement or pledging the amount for payment of an obligation it incurred with the Michigan finance authority or with the trustee of a pooled arrangement, the state treasurer shall transmit to the Michigan

finance authority or a trustee designated by the Michigan finance authority or to the trustee of a pooled arrangement or other designated depository the amount of the payment that is assigned or pledged under the agreement.

(4) If a district or intermediate district for which an emergency manager is in place under the local financial stability and choice act, 2012 PA 436, MCL 141.1541 to 141.1575, or that has an approved deficit elimination plan or an approved enhanced deficit elimination plan under section 102, enters into or has entered into an agreement described in subsection (3) pursuant to section 1225(2) of the revised school code, MCL 380.1225, whether the obligation was issued before or after the effective date of this subsection, the portion of state school aid paid or to be paid on behalf of the district or intermediate district directly to the Michigan finance authority, or to a trustee designated by the Michigan finance authority, for the sole purpose of paying the principal of and interest on the obligation is subject to a lien and trust that is a statutory lien and trust, paramount and superior to all other liens and interests of any kind, for the sole purpose of paying the principal of and interest on the obligation. The statutory lien and trust applies to the state school aid received or to be received by the Michigan finance authority, or trustee designated by the Michigan finance authority, on behalf of the district or intermediate district, immediately upon the later of the effective date of this subsection or the time when the state school aid is allocated to the district or intermediate district, but is subject to any subsequent reduction of the state school aid allocation by operation of law or executive order. The lien and trust imposed by this section with respect to state school aid has a priority as established in the agreement, except that the agreement shall not impair any existing lien and trust previously created pursuant to this section, including any lien and trust applicable to a multi-year repayment agreement under section 1225 of the revised school code, MCL 380.1225. Except as otherwise provided in this subsection, the lien and trust created under this subsection for the benefit of holders of the obligation issued pursuant to this section is valid and binding against a party having a claim of any kind in tort, contract, or otherwise against the district or intermediate district that has issued the obligation secured by a pledge of state school aid pursuant to this section, regardless of whether that party has notice of the pledge. A pledge made pursuant to this section for the benefit of the holders of obligations or others is perfected without delivery, recording, or notice. The state school aid paid or to be paid on behalf of a district or intermediate district to the Michigan finance authority, or trustee designated by the Michigan finance authority, shall be held in trust for the sole benefit of the holders of the obligation issued pursuant to this section or section 1225 of the revised school code, MCL 380.1225, and is exempt from being levied upon, taken, sequestered, or applied toward paying the debts or liabilities of the district or intermediate district other than for payment of the obligation to which the lien applies. However, nothing in this subsection alters the ability of the state treasurer to withhold state school aid from a district or intermediate district as provided by law.

(5) Notwithstanding the payment dates prescribed by this article for distributions under this article, the state treasurer may advance all or part of a payment that is dedicated for distribution or for which the appropriation authorizing the payment has been made if and to the extent, under the terms of an agreement entered into by a district or intermediate district and the Michigan finance authority, the payment that the district or intermediate district is eligible to receive has been assigned to or pledged for payment of an obligation it incurred with the Michigan finance authority.

(6) This section does not require the state to make an appropriation to any school district or intermediate school district and shall not be construed as creating an indebtedness of the state, and any agreement made pursuant to this section shall contain a statement to that effect.

(7) As used in this section, "trustee of a pooled arrangement" means the trustee of a trust approved by the state treasurer and, subject to the conditions and requirements of that approval, established for the purpose of offering for sale, as part of a pooled arrangement, certificates representing undivided interests in notes issued by districts or intermediate districts under section 1225 of the revised school code, MCL 380.1225.

(8) If a trustee applies to the state treasurer for approval of a trust for the purposes of this section, the state treasurer shall approve or disapprove the trust within 10 days after receipt of the application.

388.1619a-388.1619c Repealed. 1990, Act 207, Eff. Oct. 1, 1990.

Compiler's note: Section 3 of Act 207 of 1990 purported to repeal MCL 388.1619a to 388.1619d. However, MCL 388.1619d, as added by Act 197 of 1989, did not take effect pursuant to the terms of subsection (3) of that section.

The repealed sections pertained to core curriculum, school improvement, and standards for accreditation.

388.1620 Foundation allowance; calculations; allocations; pupil membership factor, revenue adjustment factor, and index; definitions.

Sec. 20. (1) For 2014-2015, both of the following apply:

(a) The basic foundation allowance is \$8,099.00.

(b) The minimum foundation allowance is \$7,126.00.

(2) The amount of each district's foundation allowance shall be calculated as provided in this section, using a basic foundation allowance in the amount specified in subsection (1).

(3) Except as otherwise provided in this section, the amount of a district's foundation allowance shall be calculated as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:

(a) Except as otherwise provided in this subdivision, for a district that had a foundation allowance for the immediately preceding state fiscal year that was equal to the minimum foundation allowance for the immediately preceding state fiscal year, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the difference between

twice the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance and [(the difference between the basic foundation allowance for the current state fiscal year and basic foundation allowance for the immediately preceding state fiscal year minus \$10.00) times (the difference between the district's foundation allowance for the immediately preceding state fiscal year and the minimum foundation allowance for the immediately preceding state fiscal year) divided by the difference between the basic foundation allowance for the current state fiscal year and the minimum foundation allowance for the immediately preceding state fiscal year]. However, the foundation allowance for a district that had less than the basic foundation allowance for the immediately preceding state fiscal year shall not exceed the basic foundation allowance for the current state fiscal year. For the purposes of this subdivision, for 2014-2015, the minimum foundation allowance for the immediately preceding state fiscal year shall be considered to be \$7,076.00. For 2014-2015, for a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the minimum foundation allowance for the immediately preceding state fiscal year but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the district's foundation allowance for 2013-2014 plus \$50.00.

(b) Except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance for 2014-2015 in an amount equal to the basic foundation allowance for 2014-2015.

(c) For a district that had a foundation allowance for the immediately preceding state fiscal year that was greater than the basic foundation allowance for the immediately preceding state fiscal year, the district's foundation allowance is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the lesser of the increase in the basic foundation allowance for the current state fiscal year, as compared to the immediately preceding state fiscal year, or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b.

(d) For a district that has a foundation allowance that is not a whole dollar amount, the district's foundation allowance shall be rounded up to the nearest whole dollar.

(e) For a district that received a payment under section 22c as that section was in effect for 2013-2014, the district's 2013-2014 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2013-2014 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2013-2014 under section 22c as that section was in effect for 2013-2014.

(4) Except as otherwise provided in this subsection, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or the basic foundation allowance for the current state fiscal year, whichever is less, minus the local portion of the district's foundation allowance divided by the district's membership excluding special education pupils. For a district described in subsection (3)(c), the state portion of the district's foundation allowance is an amount equal to \$6,962.00 plus the difference between the district's foundation allowance for the current state fiscal year and the district's foundation allowance for 1998-99, minus the local portion of the district's foundation allowance divided by the district's membership excluding special education pupils. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur. For a receiving district, if school operating taxes continue to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, the taxable value per membership pupil of property in the receiving district used for the purposes of this subsection does not include the taxable value of property within the geographic area of the dissolved district.

(5) The allocation calculated under this section for a pupil shall be based on the foundation allowance of the pupil's district of residence. For a pupil enrolled pursuant to section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section shall be based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section shall be based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence.

(6) Except as otherwise provided in this subsection, for pupils in membership, other than special education

pupils, in a public school academy, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy equal to the foundation allowance of the district in which the public school academy is located or the state maximum public school academy allocation, whichever is less. However, a public school academy that had an allocation under this subsection before 2009-2010 that was equal to the sum of the local school operating revenue per membership pupil other than special education pupils for the district in which the public school academy is located and the state portion of that district's foundation allowance shall not have that allocation reduced as a result of the 2010 amendment to this subsection. Notwithstanding section 101, for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) Except as otherwise provided in this subsection, for pupils attending an achievement school and in membership in the education achievement system, other than special education pupils, the allocation calculated under this section is an amount per membership pupil other than special education pupils equal to the foundation allowance of the district in which the achievement school is located, not to exceed the basic foundation allowance. Notwithstanding section 101, for an achievement school that begins operation after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the achievement school after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection. For the purposes of this subsection, if a public school is transferred from a district to the state school reform/redesign district or the achievement authority under section 1280c of the revised school code, MCL 380.1280c, that public school is considered to be an achievement school within the education achievement system and not a school that is part of a district, and a pupil attending that public school is considered to be in membership in the education achievement system and not in membership in the district that operated the school before the transfer.

(8) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the lesser of the sum of the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts plus \$100.00 or the highest foundation allowance among the original or affected districts. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district.

(9) Each fraction used in making calculations under this section shall be rounded to the fourth decimal place and the dollar amount of an increase in the basic foundation allowance shall be rounded to the nearest whole dollar.

(10) State payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51a.

(11) To assist the legislature in determining the basic foundation allowance for the subsequent state fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, shall calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor shall be computed by dividing the estimated membership in the school year ending in the current state fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent state fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor shall be computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent state fiscal year plus the estimated total state school aid fund revenue for the current state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and

economic stabilization fund under the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current state fiscal year plus the estimated total state school aid fund revenue for the immediately preceding state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index shall be calculated by multiplying the pupil membership factor by the revenue adjustment factor. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(12) Payments to districts, public school academies, or the education achievement system shall not be made under this section. Rather, the calculations under this section shall be used to determine the amount of state payments under section 22b.

(13) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per pupil payment calculation under this section may be reduced.

388.1621f Online courses; definitions.

Sec. 21f. (1) A pupil enrolled in a district in any of grades 6 to 12 is eligible to enroll in an online course as provided for in this section.

(2) With the consent of the pupil's parent or legal guardian, a district shall enroll an eligible pupil in up to 2 online courses as requested by the pupil during an academic term, semester, or trimester. Unless the pupil is newly enrolled in the district, the request for online course enrollment must be made in the academic term, semester, trimester, or summer preceding the enrollment. A district may not establish additional requirements that would prohibit a pupil from taking an online course. If a pupil has demonstrated previous success with online courses and the school leadership and the pupil's parent or legal guardian determine that it is in the best interest of the pupil, a pupil may be enrolled in more than 2 online courses in a specific academic term, semester, or trimester. Consent of the pupil's parent or legal guardian is not required if the pupil is at least age 18 or is an emancipated minor.

(3) An eligible pupil may enroll in an online course published in the pupil's educating district's catalog of online courses described in subsection (7)(a) or the statewide catalog of online courses maintained by the Michigan virtual university pursuant to section 98.

(4) A district shall determine whether or not it has capacity to accept applications for enrollment from nonresident applicants in online courses and may use that limit as the reason for refusal to enroll an applicant. If the number of nonresident applicants eligible for acceptance in an online course does not exceed the capacity of the district to provide the online course, the district shall accept for enrollment all of the nonresident applicants eligible for acceptance. If the number of nonresident applicants exceeds the district's

capacity to provide the online course, the district shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders.

(5) A district may deny a pupil enrollment in an online course if any of the following apply, as determined by the district:

(a) The pupil has previously gained the credits provided from the completion of the online course.

(b) The online course is not capable of generating academic credit.

(c) The online course is inconsistent with the remaining graduation requirements or career interests of the pupil.

(d) The pupil does not possess the prerequisite knowledge and skills to be successful in the online course or has demonstrated failure in previous online coursework in the same subject.

(e) The online course is of insufficient quality or rigor. A district that denies a pupil enrollment for this reason shall make a reasonable effort to assist the pupil to find an alternative course in the same or a similar subject that is of acceptable rigor and quality.

(f) The cost of the online course exceeds the amount identified in subsection (8), unless the pupil's parent or legal guardian agrees to pay the cost that exceeds this amount.

(g) The online course enrollment request does not occur within the same timelines established by the district for enrollment and schedule changes for regular courses.

(6) If a pupil is denied enrollment in an online course by a district, the pupil may appeal the denial by submitting a letter to the superintendent of the intermediate district in which the pupil's educating district is located. The letter of appeal shall include the reason provided by the district for not enrolling the pupil and the reason why the pupil is claiming that the enrollment should be approved. The intermediate district superintendent or designee shall respond to the appeal within 5 days after it is received. If the intermediate district superintendent or designee determines that the denial of enrollment does not meet 1 or more of the reasons specified in subsection (5), the district shall allow the pupil to enroll in the online course.

(7) To offer or provide an online course under this section, a district or intermediate district shall do all of the following:

(a) Provide the Michigan virtual university with the course syllabus in a form and method prescribed by the Michigan virtual university for inclusion in a statewide online course catalog. The district or intermediate district shall also provide on its publicly accessible website a link to the course syllabi for all of the online courses offered by the district or intermediate district and a link to the statewide catalog of online courses maintained by the Michigan virtual university.

(b) Offer the online course on an open entry and exit method, or aligned to a semester, trimester, or accelerated academic term format.

(c) Not later than October 1, 2014, provide the Michigan virtual university with the number of enrollments in each online course the district or intermediate district offered to pupils pursuant to this section in the immediately preceding school year, and the number of enrollments in which the pupil earned 60% or more of the total course points for each online course.

(8) For a pupil enrolled in 1 or more online courses published in the pupil's educating district's catalog of online courses under subsection (7) or in the statewide catalog of online courses maintained by the Michigan virtual university, the district shall use foundation allowance or per pupil funds calculated under section 20 to pay for the expenses associated with the online course or courses. The district shall pay 80% of the cost of the online course upon enrollment and 20% upon completion as determined by the district. A district is not required to pay toward the cost of an online course an amount that exceeds 8.33% of the minimum foundation allowance for the current fiscal year as calculated under section 20.

(9) An online learning pupil shall have the same rights and access to technology in his or her primary district's school facilities as all other pupils enrolled in the pupil's primary district.

(10) If a pupil successfully completes an online course, as determined by the pupil's primary district, the pupil's primary district shall grant appropriate academic credit for completion of the course and shall count that credit toward completion of graduation and subject area requirements. A pupil's school record and transcript shall identify the online course title as it appears in the online course syllabus.

(11) The enrollment of a pupil in 1 or more online courses shall not result in a pupil being counted as more than 1.0 full-time equivalent pupils under this article.

(12) The portion of the full-time equated pupil membership for which a pupil is enrolled in 1 or more online courses under this section shall not be transferred under the pupil transfer process under section 25e.

(13) As used in this section:

(a) "Online course" means a course of study that is capable of generating a credit or a grade, that is provided in an interactive internet-connected learning environment, in which pupils are separated from their teachers by time or location, or both, and in which a teacher who holds a valid Michigan teaching certificate is

388.1622a Allocation for 2014-2015 for school operating purposes; payment to district and qualifying public school academy; definitions.

Sec. 22a. (1) From the appropriation in section 11, there is allocated an amount not to exceed \$5,393,000,000.00 for 2014-2015 for payments to districts and qualifying public school academies to guarantee each district and qualifying public school academy an amount equal to its 1994-95 total state and local per pupil revenue for school operating purposes under section 11 of article IX of the state constitution of 1963. Pursuant to section 11 of article IX of the state constitution of 1963, this guarantee does not apply to a district in a year in which the district levies a millage rate for school district operating purposes less than it levied in 1994. However, subsection (2) applies to calculating the payments under this section. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22b and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) To ensure that a district receives an amount equal to the district's 1994-95 total state and local per pupil revenue for school operating purposes, there is allocated to each district a state portion of the district's 1994-95 foundation allowance in an amount calculated as follows:

(a) Except as otherwise provided in this subsection, the state portion of a district's 1994-95 foundation allowance is an amount equal to the district's 1994-95 foundation allowance or \$6,500.00, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, taxable value per

membership pupil of all property in the receiving district that is nonexempt property and taxable value per membership pupil of property in the receiving district that is commercial personal property do not include property within the geographic area of the dissolved district; ad valorem property tax revenue of the receiving district captured under tax increment financing acts does not include ad valorem property tax revenue captured within the geographic boundaries of the dissolved district under tax increment financing acts; and certified mills do not include the certified mills of the dissolved district.

(b) For a district that had a 1994-95 foundation allowance greater than \$6,500.00, the state payment under this subsection shall be the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision shall be equal to the difference between the district's 1994-95 foundation allowance minus \$6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount shall be an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there shall not be a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under tax increment financing acts divided by the district's membership. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, ad valorem property tax revenue captured under tax increment financing acts do not include ad valorem property tax revenue captured within the geographic boundaries of the dissolved district under tax increment financing acts.

(3) Beginning in 2003-2004, for pupils in membership in a qualifying public school academy, there is allocated under this section to the authorizing body that is the fiscal agent for the qualifying public school academy for forwarding to the qualifying public school academy an amount equal to the 1994-95 per pupil payment to the qualifying public school academy under section 20.

(4) A district or qualifying public school academy may use funds allocated under this section in conjunction with any federal funds for which the district or qualifying public school academy otherwise would be eligible.

(5) Except as otherwise provided in this subsection, for a district that is formed or reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation, the resulting district's 1994-95 foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the 1994-95 foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district in the state fiscal year in which the consolidation takes place who reside in the geographic area of each of the original districts. If an affected district's 1994-95 foundation allowance is less than the 1994-95 basic foundation allowance, the amount of that district's 1994-95 foundation allowance shall be considered for the purpose of calculations under this subsection to be equal to the amount of the 1994-95 basic foundation allowance. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district.

(6) Payments under this section are subject to section 25f.

(7) As used in this section:

(a) "1994-95 foundation allowance" means a district's 1994-95 foundation allowance calculated and certified by the department of treasury or the superintendent under former section 20a as enacted in 1993 PA 336 and as amended by 1994 PA 283.

revised school code, MCL 380.1211, and the number of mills of school operating taxes that could be levied on all property as provided in section 1211(2) of the revised school code, MCL 380.1211, as certified by the department of treasury for the 1994 tax year. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, school operating taxes do not include school operating taxes levied within the geographic area of the dissolved district.

(g) "Homestead", "qualified agricultural property", "qualified forest property", "supportive housing property", "industrial personal property", and "commercial personal property" mean those terms as defined in section 1211 of the revised school code, MCL 380.1211.

(i) For the number of mills by which the exemption from the levy of school operating taxes on a homestead, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, and commercial personal property may be reduced as provided in section 1211 of the revised school code, MCL 380.1211, the taxable value of homestead, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, and commercial personal property for the calendar year ending in the current state fiscal year. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, mills do not include mills within the geographic area of the dissolved district.

(ii) For the number of mills of school operating taxes that may be levied on all property as provided in section 1211(2) of the revised school code, MCL 380.1211, the taxable value of all property for the calendar year ending in the current state fiscal year. (1) From the appropriation in section 11, there is allocated for 2014-2015 an amount not to exceed \$75,000,000.00 to provide incentive payments to districts that meet best practices under this section. Payments received under this section may be used for any purpose for which payments under sections 22a and 22b may be used.

(2) The amount of the incentive payment under this section is an amount equal to \$50.00 per pupil. A district shall receive an incentive payment under this section if the district satisfies at least 7 of the following requirements not later than June 1, 2015:

(a) If a district provides medical, pharmacy, dental, vision, disability, long-term care, or any other type of benefit that would constitute a health care services benefit, to employees and their dependents, the district is the policyholder for each of its insurance policies that covers 1 or more of these benefits. A district that does not directly employ its staff or a district with a voluntary employee beneficiary association that pays no more than the maximum per employee contribution amount and that contributes no more than the maximum employer contribution percentage of total annual costs for the medical benefit plans as described in sections 3 and 4 of the publicly funded health insurance contribution act, 2011 PA 152, MCL 15.563 and 15.564, is considered to have satisfied this requirement.

(b) The district has obtained competitive bids on the provision of pupil transportation, food service, custodial, or 1 or more other noninstructional services for 2014-2015. In comparing competitive bids to the current costs of providing 1 or more of these services, a district shall exclude the unfunded accrued liability costs for retirement and other benefits from the district's current costs.

(c) The district accepts applications for enrollment by nonresident applicants under section 105 or 105c. A public school academy is considered to have met this requirement.

(d) The district offers online courses or blended learning opportunities to all eligible pupils. In order to satisfy this requirement, a district must make all eligible pupils and their parents or guardians aware of these opportunities and must publish an online course syllabus as described in section 21f for each online course that the district offers. For the purposes of this subdivision:

(i) "Blended learning" means a hybrid instructional delivery model where pupils are provided content, instruction, and assessment in part at a supervised educational facility away from home where the pupil and a teacher with a valid Michigan teaching certificate are in the same physical location and in part through internet-connected learning environments with some degree of pupil control over time, location, and pace of instruction.

(ii) "Online course" means a course of study that is capable of generating a credit or a grade, that is provided in an interactive internet-connected learning environment, in which pupils are separated from their teachers by time or location, or both, and in which a teacher with a valid Michigan teaching certificate is responsible for determining appropriate instructional methods for each pupil, diagnosing learning needs, assessing pupil learning, prescribing intervention strategies, reporting outcomes, and evaluating the effects of instruction and support strategies.

(e) The district provides to parents and community members a dashboard or report card demonstrating the district's efforts to manage its finances responsibly. The dashboard or report card shall include revenue and expenditure projections for the district for fiscal year 2014-2015 and fiscal year 2015-2016, a listing of all debt service obligations, detailed by project, including anticipated fiscal year 2014-2015 payment for each project, a listing of total outstanding debt, and at least all of the following for the 3 most recent school years for which the data are available:

(i) Graduation and dropout rates.

(ii) Average class size in grades kindergarten to 3.

(iii) College readiness as measured by Michigan merit examination test scores.

(iv) Elementary and middle school MEAP scores.

(v) Teacher, principal, and superintendent salary information including at least minimum, average, and maximum pay levels.

(vi) General fund balance.

(vii) The total number of days of instruction provided.

(f) The district complies with a method of compensation for teachers and school administrators that includes job performance and accomplishments as a significant factor in determining compensation, as required under section 1250 of the revised school code, MCL 380.1250.

(g) The district's collective bargaining agreements, including, but not limited to, appendices, addenda,

letters of agreement, or any other documents reflecting agreements with collective bargaining representatives, do not contain any provisions pertaining to, relating to, or that are otherwise contrary to the prohibited subjects of bargaining enumerated in section 15(3) of 1947 PA 336, MCL 423.215.

(h) The district implements a comprehensive guidance and counseling program.

(i) The district offers pupils in grades K to 8 the opportunity to complete coursework or other learning experiences that are substantially equivalent to 1 credit in a language other than English.

(3) If the department determines that a district has intentionally submitted false information in order to qualify for an incentive payment under this section, the district forfeits an amount equal to the amount it received under this section from its total state school aid for 2015-2016.

(4) If the department determines that funds allocated under this section will remain unexpended after the initial allocation of \$50.00 per pupil to eligible districts under subsection (2), the remaining unexpended amount is allocated on an equal per pupil basis to districts that meet the requirements of subsection (2) and that have a foundation allowance, as calculated under section 20, in an amount that is less than the basic foundation allowance under that section.

Sec. 22g. (1) From the funds appropriated in section 11, there is allocated for 2014-2015 only an amount not to exceed \$2,000,000.00 for competitive assistance grants to districts and intermediate districts.

(2) Funds received under this section may be used for reimbursement of transition costs associated with the consolidation of operations or services between 2 or more districts, intermediate districts, or other local units of government, the consolidation or sharing of technology and data operations or services between 50 or more districts or 5 or more intermediate districts, or the consolidation of districts or intermediate districts. Grant funding shall be available for consolidations that occur on or after June 1, 2014. The department shall develop an application process and method of grant distribution. The department shall give priority to applicants that propose including at least 1 of the following statewide activities:

(a) A comprehensive, research-based academic early warning indicator and dropout prevention solution.

(b) A data-driven system for identifying early reading challenges and establishing individual reading development plans for every student by the end of grade 3.

388.1622i Technology infrastructure grant program to districts or intermediate districts.

Sec. 22i. (1) From the funds appropriated in section 11, there is allocated for 2013-2014 an amount not to exceed \$45,000,000.00 and there is allocated for 2014-2015 an amount not to exceed \$41,500,000.00 for the technology infrastructure grant program for districts or intermediate districts on behalf of their constituent districts. Funds received under this subsection shall be used for the development or improvement of a district's technology infrastructure, the shared services consolidation of technology and data, and hardware in preparation for the planned implementation in 2014-2015 of online assessments.

(2) The department shall develop a competitive application process and method of grant distribution to eligible districts and intermediate districts that demonstrate need for grants under subsection (1). The department may consult with the department of technology, management, and budget during the grant process and grant distribution. Grants to districts shall not exceed \$2,000,000.00 per district. A grant to an intermediate district on behalf of its constituent districts shall not exceed \$2,000,000.00 per constituent district. To receive a grant under subsection (1), an intermediate district shall demonstrate that a grant awarded to the intermediate district on behalf of its constituent districts would provide savings compared to providing grants to individual districts.

(3) From the general fund money appropriated in section 11, there is allocated an amount not to exceed \$5,000,000.00 for 2013-2014 to be awarded through a competitive bid process to a single provider of whole-school technology as described in this subsection. The department shall issue a single request for proposal with application rules written and administered by the department, and with a focus on economic and geographic diversity. To be eligible to receive the grant under this section, a provider shall meet all of the

Any unexpended funds for 2013-2014 are carried forward into 2014-2015 and any unexpended funds for 2014-2015 are carried forward into 2015-2016. The purpose of the work project is to continue to implement the projects described under this section. The estimated completion date of the work project is September 30, 2016.

388.1622j Incentive payments for student academic performance.

Sec. 22j. (1) From the appropriation in section 11, there is allocated for 2014-2015 an amount not to exceed \$51,100,000.00 to provide separate incentive payments to districts that meet student academic performance funding goals under subsections (2) to (5). Payments received under this section may be used for any purpose for which payments under sections 22a and 22b may be used.

(2) The maximum amount of the incentive payment for student academic performance is an amount equal to \$100.00 per pupil. Payments calculated and awarded to qualifying districts under subsections (3) to (5) shall be calculated and awarded separately, and a district may receive a payment under any or all of subsections (3) to (5).

(3) An amount not to exceed 30% of the maximum per pupil amount allocated under subsection (2) shall be used to make performance incentive payments to qualifying districts under this subsection based on pupil performance on state assessments in mathematics in grades 3 to 8. The amount of a payment under this subsection is an amount equal to \$30.00 per pupil for all pupils in membership in a qualifying district. The department shall determine the qualifying districts under this subsection as follows:

(a) Using a model determined by the department that incorporates the most recent cut scores adopted for the Michigan educational assessment program for each pupil in grades 3 to 8 in the 2012-2013 school year, the department shall calculate a point score using a metric that assigns points to each of those pupils as follows:

(i) For each pupil who began the school year not performing proficiently in mathematics and who declines in proficiency, as determined by the department, over the school year, 0 points.

(ii) For each pupil who began the school year performing proficiently in mathematics and declines in proficiency, as determined by the department, over the school year, 0 points.

(iii) For each pupil who began the school year not performing proficiently in mathematics and who maintains his or her level of proficiency, as determined by the department, over the school year, 1 point.

(iv) For each pupil who began the school year performing proficiently in mathematics and who maintains his or her level of proficiency, as determined by the department, over the school year, 2 points.

(v) For each pupil who began the school year not performing proficiently in mathematics and who improves in proficiency, as determined by the department, over the school year, 3 points.

(vi) For each pupil who began the school year performing proficiently in mathematics and who improves in proficiency, as determined by the department, over the school year, 2 points.

(b) The department shall then calculate a district average for this metric for the 2012-2013 school year by totaling the number of points for all pupils in grades 3 to 8 under subdivision (a) and dividing that total by the number of those pupils.

(c) A district is a qualifying district for the payment under this subsection if the district average for the 2012-2013 school year under subdivision (b) is at least equal to a factor of 1.5, and the district tested at least 95% of its pupils in mathematics, and the district had at least 30 full academic year pupils in grades 3 to 8 with a performance level change designation in mathematics.

(4) An amount not to exceed 30% of the maximum per pupil amount allocated under subsection (2) shall

be used to make performance incentive payments to qualifying districts under this subsection based on pupil performance on state assessments in reading in grades 3 to 8. The amount of a payment under this subsection is an amount equal to \$30.00 per pupil for all pupils in membership in the district. The department shall determine the qualifying districts under this subsection as follows:

(a) Using a model determined by the department that incorporates the most recent cut scores adopted for the Michigan educational assessment program for each pupil in grades 3 to 8 in the 2012-2013 school year, the department shall calculate a point score using a metric that assigns points to each of those pupils as follows:

(i) For each pupil who began the school year not performing proficiently in reading and who declines in proficiency, as determined by the department, over the school year, 0 points.

(ii) For each pupil who began the school year performing proficiently in reading and declines in proficiency, as determined by the department, over the school year, 0 points.

(iii) For each pupil who began the school year not performing proficiently in reading and who maintains proficiency, as determined by the department, over the school year, 1 point.

(iv) For each pupil who began the school year performing proficiently in reading and who maintains proficiency, as determined by the department, over the school year, 2 points.

(v) For each pupil who began the school year not performing proficiently in reading and who improves in proficiency, as determined by the department, over the school year, 3 points.

(vi) For each pupil who began the school year performing proficiently in reading and who improves in proficiency, as determined by the department, over the school year, 2 points.

(b) The department shall then calculate a district average for this metric for the 2012-2013 school year by totaling the number of points for all pupils in grades 3 to 8 under subdivision (a) and dividing that total by the number of those pupils.

(c) A district is a qualifying district for the payment under this subsection if the district average for the 2012-2013 school year under subdivision (b) is at least equal to a factor of 1.5, and the district tested at least 95% of its pupils in reading, and the district had at least 30 full academic year pupils in grades 3 to 8 reading with a performance level change designation in reading.

(5) An amount not to exceed 40% of the maximum per pupil amount allocated under subsection (2) shall be used to make performance incentive payments to qualifying districts under this subsection for high school improvement using a metric based on the positive trend over a 4-year period in the percentage of high school pupils in the district testing as proficient in all tested subject areas on the state assessments of high school pupils. The amount of a payment under this subsection is an amount equal to \$40.00 per pupil for all pupils in membership in the district. The department shall determine the qualifying districts under this subsection as follows:

(a) Calculate a linear regression of the percentage of high school pupils in the district testing as proficient in all tested subject areas on state assessments of high school pupils on school year over the 4-year period ending with the 2012-2013 school year as adjusted for changes in cut scores most recently adopted for the Michigan merit examination.

(b) Calculate a statewide average for all districts operating a high school of the linear regression of the percentage of high school pupils testing as proficient in all tested subject areas on state assessments of high school pupils on school year over the 4-year period ending with the 2012-2013 school year, as adjusted for changes in cut scores most recently adopted for the Michigan merit examination as the base year for all comparisons.

(c) A district is a qualifying district for the payment under this subsection if the district's linear regression over the 4-year period ending with the 2012-2013 school year under subdivision (a) is at least equal to the statewide average linear regression over the 4-year period ending with the base year under subdivision (b), and the district's linear regression over the 4-year period ending with the 2012-2013 school year under subdivision (a) is positive, and the district tested 95% of high school pupils in each tested subject on state assessments, and the district had at least 20 full academic year pupils take all tested subjects on state assessments of high school pupils over each of the most recent 4 years.

(6) If the allocation under subsection (1) is insufficient to fully fund payments as otherwise calculated under this section, the department shall prorate payments under this section on an equal percentage basis.

388.1623a Dropout recovery program.

Sec. 23a. (1) A dropout recovery program operated by a district qualifies for the special membership counting provisions of section 6(4)(ff) and the hours and day of pupil instruction exemption under section 101(12) if the dropout recovery program meets all of the following:

- (a) Enrolls only eligible pupils.
- (b) Provides an advocate. An advocate may serve in that role for more than 1 pupil but no more than 50 pupils. An advocate may be employed by the district or may be provided by an education management organization that is partnering with the district. Before an individual is assigned to be an advocate for a pupil in the dropout recovery program, the district shall comply with sections 1230 and 1230a of the revised school code, MCL 380.1230 and 380.1230a, with respect to that individual.
- (c) Develops a written learning plan.
- (d) Monitors the pupil's progress against the written learning plan.
- (e) Requires each pupil to make satisfactory monthly progress, as defined by the district under subsection (2).
- (f) Reports the pupil's progress results to the partner district at least monthly.
- (g) The program may be operated on or off a district school campus, but may be operated using distance learning online only if the program provides a computer and internet access for each eligible pupil participating in the program.
- (h) Is operated throughout the entire calendar year.
- (i) If the district partners with an education management organization for the program, the education management organization has a dropout recovery program partnership relationship with at least 1 other district.

(2) A district operating a dropout recovery program under this section shall adopt a definition of satisfactory monthly progress that is consistent with the definition of that term under subsection (3).

(3) As used in this section:

(a) "Advocate" means an adult available to meet in person with assigned pupils, as needed, to conduct social interventions, to proctor final examinations, and to provide academic and social support to pupils enrolled in the district's dropout recovery program.

(b) "Education management organization" means a private provider that operates 1 or more other dropout recovery programs that meet the requirements of this section in partnership with 1 or more districts.

(c) "Eligible pupil" means a pupil who has been expelled from school under the mandatory expulsion provisions in section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a, a pupil who has been suspended or expelled from school under a local policy, a pupil who is referred by a court, a pupil who is pregnant or is a parent, a pupil who was previously a dropout, or a pupil who is determined by the district to be at risk of dropping out.

(d) "Satisfactory monthly progress" means an amount of progress that is measurable on a monthly basis and that, if continued for a full 12 months, would result in the same amount of academic credit being awarded to the pupil as would be awarded to a general education pupil completing a full school year. Satisfactory monthly progress may include a lesser required amount of progress for the first 2 months a pupil participates in the program.

(e) "Written learning plan" means a written plan developed in conjunction with the advocate that includes the plan start and end dates, courses to be taken, credit to be earned for each course, teacher of record for each course, and advocate name and contact information.

educational program; special education pupils funded under MCL 388.1653a.

Sec. 24. (1) From the appropriation in section 11, there is allocated for 2014-2015 an amount not to exceed \$8,000,000.00 for payments to the educating district or intermediate district for educating pupils assigned by a court or the department of human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of human services and approved by the department to provide an on-grounds education program. The amount of the payment under this section to a district or intermediate district shall be calculated as prescribed under subsection (2).

(2) The total amount allocated under this section shall be allocated by paying to the educating district or intermediate district an amount equal to the lesser of the district's or intermediate district's added cost or the department's approved per pupil allocation for the district or intermediate district. For the purposes of this subsection:

(a) "Added cost" means 100% of the added cost each fiscal year for educating all pupils assigned by a court or the department of human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of human services or the department of licensing and regulatory affairs and approved by the department to provide an on-grounds education program. Added cost shall be computed by deducting all other revenue received under this article for pupils described in this section from total costs, as approved by the department, in whole or in part, for educating those pupils in the on-grounds education program or in a program approved by the department that is located on property adjacent to a juvenile detention facility or child caring institution. Costs reimbursed by federal funds are not included.

(b) "Department's approved per pupil allocation" for a district or intermediate district shall be determined by dividing the total amount allocated under this section for a fiscal year by the full-time equated membership total for all pupils approved by the department to be funded under this section for that fiscal year for the district or intermediate district.

(3) A district or intermediate district educating pupils described in this section at a residential child caring institution may operate, and receive funding under this section for, a department-approved on-grounds educational program for those pupils that is longer than 181 days, but not longer than 233 days, if the child caring institution was licensed as a child caring institution and offered in 1991-92 an on-grounds educational program that was longer than 181 days but not longer than 233 days and that was operated by a district or intermediate district.

(4) Special education pupils funded under section 53a shall not be funded under this section.

Compiler's note: Subsection (3) of Sec. 24, as amended by Act 128 of 1987, was vetoed by the governor on July 24, 1987.

Subsection (3) of Sec. 24, as amended by Act 212 of 1986, reads as follows:

“(3) Special education pupils funded under section 53 shall not be counted under this section.”

In his veto message relative to Enrolled House Bill 4572, which became Act 118 of 1991, the governor stated that “the tradition of not re-enacting annually the unchanged appropriation sections of the school aid act is constitutionally flawed. It assumes the invalid creation of a continuing appropriation. Therefore, the following sections of the school aid act and their associated allocations must be considered inoperative: 24, 55, 74, 75, 105a, 111, and 116. These sections will be treated as excluded from the current bill...”

In subsection (2), as amended by Act 297 of 2000, the last sentence “In addition, a district or intermediate district that received funds under this subsection for 1998-99 for an on-grounds educational program that is longer than 181 days but not longer than 233 days shall continue to receive funds under this section for subsequent fiscal years for that program” was vetoed by the governor July 26, 2000.

In the first and second sentences of subsection (1), as amended by Act 121 of 2001, the phrases “and for 2002-2003” and “and \$8,900,000.00 for 2002-2003” were vetoed by the governor September 28, 2001.

Enacting section 3 of Act 521 of 2002 provides:

“Enacting section 3. The foundation allowance or per pupil payment shall be adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4).

(b) Adjust the membership calculation for the educating district or intermediate district in which the pupil is enrolled and is in attendance so that the district's or intermediate district's membership is increased to allow the district or intermediate district to receive an amount equal to the difference between the full-time equated membership claimed in the fall pupil membership count and the sum of the adjustments calculated under subdivision (a) for each district or intermediate district in which the pupil was previously enrolled and in attendance. The educating district or intermediate district shall receive a prorated foundation allowance in an amount equal to the product of the adjustment under this subdivision for the educating district or intermediate district multiplied by the foundation allowance or per pupil payment as calculated under section 20 for the educating district or intermediate district. Sec. 31a. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2014-2015 an amount not to exceed \$317,695,500.00 for payments to eligible districts, eligible public school academies, and the education achievement system for the purposes of ensuring that pupils are proficient in reading by the end of grade 3 and that high school graduates are career and college ready and for the purposes under subsections (6) and (7).

(2) For a district or public school academy, or the education achievement system, to be eligible to receive funding under this section, other than funding under subsection (6) or (7), the sum of the district's or public school academy's or the education achievement system's combined state and local revenue per membership pupil in the current state fiscal year, as calculated under section 20, must be less than or equal to the basic foundation allowance under section 20 for the current state fiscal year.

(3) Except as otherwise provided in this subsection, an eligible district or eligible public school academy or the education achievement system shall receive under this section for each membership pupil in the district or public school academy or the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769, and as reported to the department in the form and manner prescribed by the department not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year and adjusted not later than December 31 of the immediately preceding fiscal year, an amount per pupil equal to 11.5% of the sum of the district's foundation allowance or the public school academy's or the education achievement system's per pupil amount calculated under section 20, not to exceed the basic foundation allowance under section 20 for the current state fiscal year, or of the public school academy's or the education achievement system's per membership pupil amount calculated under section 20 for the current state fiscal year. amount calculated under section 20 for the current state fiscal year.

(4) Except as otherwise provided in this section, a district or public school academy, or the education achievement system, receiving funding under this section shall use that money only to provide instructional programs and direct noninstructional services, including, but not limited to, medical, mental health, or counseling services, for at-risk pupils; for school health clinics; and for the purposes of subsection (5), (6), (7), or (10). In addition, a district that is a school district of the first class or a district or public school academy in which at least 50% of the pupils in membership met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined and reported as described in subsection (3), or the education achievement system if it meets this requirement, may use not more than 20% of the funds it receives under this section for school security. (6) From the funds allocated under subsection (1), there is allocated for 2014-2015 an amount not to exceed \$3,557,300.00 to support child and adolescent health centers. These grants shall be awarded for 5 consecutive years beginning with 2003-2004 in a form and manner approved jointly by the department and the department of community health. Each grant recipient shall remain in compliance with the terms of the grant award or shall forfeit the grant award for the duration of the 5-year period after the noncompliance. To continue to receive funding for a child and adolescent health center under this section a grant recipient shall ensure that the child and adolescent health center has an advisory committee and that at least one-third of the members of the advisory committee are parents or legal guardians of school-aged children. A child and adolescent health center program shall recognize the role of a child's parents or legal guardian in the physical and emotional well-being of the child. Funding under this subsection shall be used to support child and adolescent health center services provided to children up to age 21. If any funds allocated under this subsection are not used for the purposes of this subsection for the fiscal year in which they are allocated, those unused funds shall be used that fiscal year to avoid or minimize any proration that would otherwise be required under subsection (14) for that fiscal year.

(7) From the funds allocated under subsection (1), there is allocated for 2014-2015 an amount not to exceed \$5,150,000.00 for the state portion of the hearing and vision screenings as described in section 9301 of the public health code, 1978 PA 368, MCL 333.9301. A local public health department shall pay at least 50% of the total cost of the screenings. The frequency of the screenings shall be as required under R 325.13091 to R 325.13096 and R 325.3271 to R 325.3276 of the Michigan administrative code. Funds shall be awarded in a form and manner approved jointly by the department and the department of community health. (8) Each district or public school academy receiving funds under this section and the education achievement system shall submit to the department by July 15 of each fiscal year a report, not to exceed 10 pages, on the usage by the district or public school academy or the education achievement system of funds under this section, which report shall include a brief description of each program conducted or services performed by the district or public school academy or the education achievement system using funds under this section, the amount of funds under this section allocated to each of those programs or services, the total number of at-risk pupils served by each of those programs or services, and the data necessary for the department and the department of human services to verify matching funds for the temporary assistance for needy families program. If a district or public school academy or the education achievement system does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy or the education achievement system complies with this subsection. If the district or public school academy or the education achievement system does not comply with this subsection by the end of the state fiscal year, the withheld funds shall be forfeited to the school aid fund.

(9) In order to receive funds under this section, a district or public school academy or the education achievement system shall allow access for the department or the department's designee to audit all records related to the program for which it receives those funds. The district or public school academy or the

education achievement system shall reimburse the state for all disallowances found in the audit.

(11) If necessary, and before any proration required under section 296, the department shall prorate payments under this section by reducing the amount of the per pupil payment under this section by a dollar amount calculated by determining the amount by which the amount necessary to fully fund the requirements of this section exceeds the maximum amount allocated under this section and then dividing that amount by the total statewide number of pupils who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding fiscal year, as described in subsection (3).

(12) If a district is formed by consolidation after June 1, 1995, and if 1 or more of the original districts was not eligible before the consolidation for an additional allowance under this section, the amount of the additional allowance under this section for the consolidated district shall be based on the number of pupils described in subsection (1) enrolled in the consolidated district who reside in the territory of an original district that was eligible before the consolidation for an additional allowance under this section. In addition, if a district is dissolved pursuant to section 12 of the revised school code, MCL 380.12, the intermediate district to which the dissolved school district was constituent shall determine the estimated number of pupils that meet the income eligibility criteria for free breakfast, lunch, or milk, as described under subsection (3), enrolled in each of the other districts within the intermediate district and provide that estimate to the department for the purposes of distributing funds under this section within 60 days after the school district is declared dissolved.

(1) From the state school aid fund money appropriated in section 11, there is allocated for 2014-2015 an amount not to exceed \$317,695,500.00 for payments to eligible districts, eligible public school academies, and the education achievement system for the purposes of ensuring that pupils are proficient in reading by the end of grade 3 and that high school graduates are career and college ready and for the purposes under subsections (6) and (7). In addition to the appropriations under section 11, an additional amount not to exceed \$40,000,000.00 is appropriated from the state school aid fund for 2014-2015 for the purposes of this section.

(2) For a district or public school academy, or the education achievement system, to be eligible to receive funding under this section, other than funding under subsection (6) or (7), the sum of the district's or public school academy's or the education achievement system's combined state and local revenue per membership pupil in the current state fiscal year, as calculated under section 20, must be less than or equal to the basic foundation allowance under section 20 for the current state fiscal year.

(3) Except as otherwise provided in this subsection, an eligible district or eligible public school academy or the education achievement system shall receive under this section for each membership pupil in the district or public school academy or the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769, and as reported to the department in the form and manner prescribed by the department not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year and adjusted not later than December 31 of the immediately preceding fiscal year, an amount per pupil equal to 11.5% of the sum of the district's foundation allowance or the public school academy's or the education achievement system's per pupil amount calculated under section 20, not to exceed the basic foundation allowance under section 20 for the current state fiscal year, or of the public school academy's or the education achievement system's per membership pupil amount calculated under section 20 for the current state fiscal year. However, a public school academy that began operations as a public school academy, or an achievement school that began operations as an achievement school, after the pupil membership count day of the immediately preceding school year shall receive under this section for each membership pupil in the public school academy or in the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. (4) Except as otherwise provided in this section, a district or public school academy, or the education achievement system, receiving funding under this section shall use that money only to provide instructional programs and direct noninstructional services, including, but not limited to, medical, mental health, or counseling services, for at-risk pupils; for school health clinics; and for the purposes of subsection (5), (6), (7), or (10). In addition, a district that is a school district of the first class or a district or public school

academy in which at least 50% of the pupils in membership met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined and reported as described in subsection (3), or the education achievement system if it meets this requirement, may use not more than 20% of the funds it receives under this section for school security. A district, the public school academy, or the education achievement system shall not use any of that money for administrative costs. The instruction or direct noninstructional services provided under this section may be conducted before or after regular school hours or by adding extra school days to the school year.

These grants shall be awarded for 5 consecutive years beginning with 2003-2004 in a form and manner approved jointly by the department and the department of community health. Each grant recipient shall remain in compliance with the terms of the grant award or shall forfeit the grant award for the duration of the 5-year period after the noncompliance. To continue to receive funding for a child and adolescent health center under this section a grant recipient shall ensure that the child and adolescent health center has an advisory committee and that at least one-third of the members of the advisory committee are parents or legal guardians of school-aged children. A child and adolescent health center program shall recognize the role of a child's parents or legal guardian in the physical and emotional well-being of the child. Funding under this subsection shall be used to support child and adolescent health center services provided to children up to age 21. If any funds allocated under this subsection are not used for the purposes of this subsection for the fiscal year in which they are allocated, those unused funds shall be used that fiscal year to avoid or minimize any proration that would otherwise be required under subsection (14) for that fiscal year.

(7) From the funds allocated under subsection (1), there is allocated for 2014-2015 an amount not to exceed \$5,150,000.00 for the state portion of the hearing and vision screenings as described in section 9301 of the public health code, 1978 PA 368, MCL 333.9301. A local public health department shall pay at least 50% of the total cost of the screenings. The frequency of the screenings shall be as required under R 325.13091 to R 325.13096 and R 325.3271 to R 325.3276 of the Michigan administrative code. Funds shall be awarded in a form and manner approved jointly by the department and the department of community health. Notwithstanding section 17b, payments to eligible entities under this subsection shall be paid on a schedule determined by the department.

(8) Each district or public school academy receiving funds under this section and the education achievement system shall submit to the department by July 15 of each fiscal year a report, not to exceed 10 pages, on the usage by the district or public school academy or the education achievement system of funds under this section, which report shall include a brief description of each program conducted or services performed by the district or public school academy or the education achievement system using funds under this section, the amount of funds under this section allocated to each of those programs or services, the total number of at-risk pupils served by each of those programs or services, and the data necessary for the department and the department of human services to verify matching funds for the temporary assistance for needy families program. If a district or public school academy or the education achievement system does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy or the education achievement system complies with this subsection. If the district or public school academy or the education achievement system does not comply with this subsection by the end of the state fiscal year, the withheld funds shall be forfeited to the school aid fund.

(9) In order to receive funds under this section, a district or public school academy or the education achievement system shall allow access for the department or the department's designee to audit all records related to the program for which it receives those funds. The district or public school academy or the education achievement system shall reimburse the state for all disallowances found in the audit.

(10) Subject to subsections (5), (6), and (7), a district may use up to 100% of the funds it receives under this section to implement schoolwide reform in schools with 40% or more of their pupils identified as at-risk pupils by providing supplemental instructional or noninstructional services consistent with the school improvement plan.

(11) If necessary, and before any proration required under section 296, the department shall prorate

payments under this section by reducing the amount of the per pupil payment under this section by a dollar amount calculated by determining the amount by which the amount necessary to fully fund the requirements of this section exceeds the maximum amount allocated under this section and then dividing that amount by the total statewide number of pupils who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding fiscal year, as described in subsection (3).

(12) If a district is formed by consolidation after June 1, 1995, and if 1 or more of the original districts was not eligible before the consolidation for an additional allowance under this section, the amount of the additional allowance under this section for the consolidated district shall be based on the number of pupils described in subsection (1) enrolled in the consolidated district who reside in the territory of an original district that was eligible before the consolidation for an additional allowance under this section. In addition, if a district is dissolved pursuant to section 12 of the revised school code, MCL 380.12, the intermediate district to which the dissolved school district was constituent shall determine the estimated number of pupils that meet the income eligibility criteria for free breakfast, lunch, or milk, as described under subsection (3), enrolled in each of the other districts within the intermediate district and provide that estimate to the department for the purposes of distributing funds under this section within 60 days after the school district is declared dissolved.

For middle school pupils in grades not assessed by the state, the pupil did not receive a satisfactory score on 2 or more end-of-semester or end-of-trimester examinations that are aligned with state standards in science or social studies. For pupils in the elementary grades in grades and subjects not assessed by the state, the pupil did not receive a satisfactory score or did not have a satisfactory outcome on 2 or more interim assessments in English language arts, mathematics, science, or social studies.

(a) Participation in a collaborative recruitment and enrollment process to assure that each child is enrolled in the program most appropriate to his or her needs and to maximize the use of federal, state, and local funds.

(b) An age-appropriate educational curriculum that is in compliance with the early childhood standards of quality for prekindergarten children adopted by the state board.

(c) Nutritional services for all program participants supported by federal, state, and local resources as applicable.

(d) Physical and dental health and developmental screening services for all program participants.

(e) Referral services for families of program participants to community social service agencies, including mental health services, as appropriate.

(f) Active and continuous involvement of the parents or guardians of the program participants.

(g) A plan to conduct and report annual great start readiness program evaluations and continuous improvement plans using criteria approved by the department.

(h) Participation in a school readiness advisory committee convened as a workgroup of the great start collaborative that provides for the involvement of classroom teachers, parents or guardians of program participants, and community, volunteer, and social service agencies and organizations, as appropriate. The advisory committee annually shall review and make recommendations regarding the program components listed in this subsection. The advisory committee also shall make recommendations to the great start collaborative regarding other community services designed to improve all children's school readiness.

(i) The ongoing articulation of the kindergarten and first grade programs offered by the program provider.

(j) Participation in this state's great start to quality process with a rating of at least 3 stars.

(5) An application for funding under this section shall provide for the following, in a form and manner determined by the department:

(a) Ensure compliance with all program components described in subsection (4).

(b) Except as otherwise provided in this subdivision, ensure that at least 90% of the children participating in an eligible great start readiness program for whom the intermediate district is receiving funds under this section are children who live with families with a household income that is equal to or less than 250% of the federal poverty level. If the intermediate district determines that all eligible children are being served and that there are no children on the waiting list under section 39(1)(d) who live with families with a household income that is equal to or less than 250% of the federal poverty level, the intermediate district may then enroll children who live with families with a household income that is equal to or less than 300% of the federal poverty level. The enrollment process shall consider income and risk factors, such that children determined with higher need are enrolled before children with lesser need. For purposes of this subdivision, all age-eligible children served in foster care or who are experiencing homelessness or who have individualized

education plans recommending placement in an inclusive preschool setting shall be considered to live with families with household income equal to or less than 250% of the federal poverty level regardless of actual family income.

(c) Ensure that the applicant only uses qualified personnel for this program, as follows:

(i) Teachers possessing proper training. A lead teacher must have a valid teaching certificate with an early childhood (ZA or ZS) endorsement or a bachelor's degree in child development or early child development with specialization in preschool teaching. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, teachers who have significant but incomplete training in early childhood education or child development may be used if the applicant provides to the department, and the department approves, a plan for each teacher to come into compliance with the standards in this subparagraph. A teacher's compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses per calendar year.

(ii) Paraprofessionals possessing proper training in early childhood development, including an associate's degree in early childhood education or child development or the equivalent, or a child development associate (CDA) credential. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, the applicant may use paraprofessionals who have completed at least 1 course that earns college credit in early childhood education or child development if the applicant provides to the department, and the department approves, a plan for each paraprofessional to come into compliance with the standards in this subparagraph. A paraprofessional's compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses or 60 clock hours of training per calendar year.

(d) Include a program budget that contains only those costs that are not reimbursed or reimbursable by federal funding, that are clearly and directly attributable to the great start readiness program, and that would not be incurred if the program were not being offered. Eligible costs include transportation costs. The program budget shall indicate the extent to which these funds will supplement other federal, state, local, or private funds. Funds received under this section shall not be used to supplant any federal funds received by the applicant to serve children eligible for a federally funded preschool program that has the capacity to serve those children.

(6) For a grant recipient that enrolls pupils in a school-day program funded under this section, each child enrolled in the school-day program shall be counted as 2 children served by the program for purposes of determining the number of children to be served and for determining the amount of the grant award. A grant award shall not be increased solely on the basis of providing a school-day program.

(7) For a grant recipient that enrolls pupils in a GSRP/head start blended program, the grant recipient shall ensure that all head start and GSRP policies and regulations are applied to the blended slots, with adherence to the highest standard from either program, to the extent allowable under federal law.

(8) An intermediate district or consortium of intermediate districts receiving a grant under this section shall designate an early childhood coordinator, and may provide services directly or may contract with 1 or more districts or public or private for-profit or nonprofit providers that meet all requirements of subsection (4).

(9) Funds received under this section may be retained for administrative services as follows:

(a) For the portion of the total grant amount for which services are provided directly by an intermediate district or consortium of intermediate districts, the intermediate district or consortium of intermediate districts may retain an amount equal to not more than 7% of that portion of the grant amount.

(b) For the portion of the total grant amount for which services are contracted, the intermediate district or consortium of intermediate districts receiving the grant may retain an amount equal to not more than 2% of that portion of the grant amount and the subrecipients engaged by the intermediate district to provide program services may retain for administrative services an amount equal to not more than 5% of that portion of the grant amount.

(10) An intermediate district or consortium of intermediate districts may expend not more than 2% of the total grant amount for outreach, recruiting, and public awareness of the program.

(11) Each grant recipient shall enroll children identified under subsection (5)(b) according to how far the child's household income is below 250% of the federal poverty level by ranking each applicant child's household income from lowest to highest and dividing the applicant children into quintiles based on how far the child's household income is below 250% of the federal poverty level, and then enrolling children in the quintile with the lowest household income before enrolling children in the quintile with the next lowest household income until slots are completely filled. If the grant recipient determines that all eligible children are being served and that there are no children on the waiting list under section 39(1)(d) who live with families with a household income that is equal to or less than 250% of the federal poverty level, the grant

recipient may then enroll children who live with families with a household income that is equal to or less than 300% of the federal poverty level. The enrollment process shall consider income and risk factors, such that children determined with higher need are enrolled before children with lesser need. For purposes of this subdivision, all age-eligible children served in foster care or who are experiencing homelessness or who have individualized education plans recommending placement in an inclusive preschool setting shall be considered to live with families with household income equal to or less than 250% of the federal poverty level regardless of actual family income.

(12) An intermediate district or consortium of intermediate districts receiving a grant under this section shall allow parents of eligible children who are residents of the intermediate district or within the consortium to choose a program operated by or contracted with another intermediate district or consortium of intermediate districts and shall pay to the educating intermediate district or consortium the per-child amount attributable to each child enrolled pursuant to this sentence, as determined under section 39.

(13) An intermediate district or consortium of intermediate districts receiving a grant under this section shall conduct a local process to contract with interested and eligible public and private for-profit and nonprofit community-based providers that meet all requirements of subsection (4) for at least 30% of its total slot allocation. The intermediate district or consortium shall report to the department, in a manner prescribed by the department, a detailed list of community-based providers by provider type, including private for-profit, private nonprofit, community college or university, head start grantee or delegate, and district or intermediate district, and the number and proportion of its total slot allocation allocated to each provider as subrecipient. If the intermediate district or consortium is not able to contract for at least 30% of its total slot allocation, the grant recipient shall notify the department and, if the department verifies that the intermediate district or consortium attempted to contract for at least 30% of its total slot allocation and was not able to do so, then the intermediate district or consortium may retain and use all of its allocated slots as provided under this section. To be able to use this exemption, the intermediate district or consortium shall demonstrate to the department that the intermediate district or consortium increased the percentage of its total slot allocation for which it contracts with a community-based provider and the intermediate district or consortium shall submit evidence satisfactory to the department, and the department must be able to verify this evidence, demonstrating that the intermediate district or consortium took measures to contract for at least 30% of its total slot allocation as required under this subsection, including, but not limited to, at least all of the following measures:

(a) The intermediate district or consortium notified each licensed child care center located in the service area of the intermediate district or consortium at least twice regarding the center's eligibility to participate. One of these notifications may be made electronically, but at least 1 of these notifications shall be made via hard copy through the United States mail. At least 1 of these notifications shall be made within 7 days after the intermediate district or consortium receives notice from the department of its slot allocations.

(b) The intermediate district or consortium provided to each licensed child care center located in the service area of the intermediate district or consortium information regarding great start readiness program requirements and a description of the application and selection process for community-based providers.

(c) The intermediate district or consortium provided to the public and to participating families a list of community-based great start readiness program subrecipients with a great start to quality rating of at least 3 stars.

(14) If an intermediate district or consortium of intermediate districts receiving a grant under this section fails to submit satisfactory evidence to demonstrate its effort to contract for at least 30% of its total slot allocation, as required under subsection (1), the department shall reduce the slots allocated to the intermediate district or consortium by a percentage equal to the difference between the percentage of an intermediate district's or consortium's total slot allocation awarded to community-based providers and 30% of its total slot allocation.

(15) In order to assist intermediate districts and consortia in complying with the requirement to contract with community-based providers for at least 30% of their total slot allocation, the department shall do all of the following:

(a) Ensure that a great start resource center or the department provides each intermediate district or consortium receiving a grant under this section with the contact information for each licensed child care center located in the service area of the intermediate district or consortium by March 1 of each year.

(b) Provide, or ensure that an organization with which the department contracts provides, a community-based provider with a validated great start to quality rating within 90 days of the provider's having submitted a request and self-assessment.

(c) Ensure that all intermediate district, district, community college or university, head start grantee or delegate, private for-profit, and private nonprofit providers are subject to a single great start to quality rating system. The rating system shall ensure that regulators process all prospective providers at the same pace on a

first-come, first-served basis and shall not allow 1 type of provider to receive a great start to quality rating ahead of any other type of provider.

(d) Not later than November 1 of each year, compile the results of the information reported by each intermediate district or consortium under subsection (10) and report to the legislature a list by intermediate district or consortium with the number and percentage of each intermediate district's or consortium's total slot allocation allocated to community-based providers by provider type, including private for-profit, private nonprofit, community college or university, head start grantee or delegate, and district or intermediate district.

(16) A recipient of funds under this section shall report to the department in a form and manner prescribed by the department the number of children participating in the program who meet the income eligibility criteria under subsection (5)(b) and the total number of children participating in the program. For children participating in the program who meet the income eligibility criteria specified under subsection (5)(b), a recipient shall also report whether or not a parent is available to provide care based on employment status. For the purposes of this subsection, "employment status" shall be defined by the department of human services in a manner consistent with maximizing the amount of spending that may be claimed for temporary assistance for needy families maintenance of effort purposes.

(17) As used in this section:

(a) "GSRP/head start blended program" means a part-day program funded under this section and a head start program, which are combined for a school-day program.

(b) "Part-day program" means a program that operates at least 4 days per week, 30 weeks per year, for at least 3 hours of teacher-child contact time per day but for fewer hours of teacher-child contact time per day than a school-day program.

(c) "School-day program" means a program that operates for at least the same length of day as a district's first grade program for a minimum of 4 days per week, 30 weeks per year. A classroom that offers a school-day program must enroll all children for the school day to be considered a school-day program.

(18) An intermediate district or consortium of intermediate districts receiving funds under this section shall establish a sliding scale of tuition rates based upon household income for children participating in an eligible great start readiness program who live with families with a household income that is more than 250% of the federal poverty level to be used by all of its providers, as approved by the department. A grant recipient shall charge tuition according to that sliding scale of tuition rates on a uniform basis for any child who does not meet the income eligibility requirements under this section.

(19) The great start readiness reserve fund is created as a separate account within the state school aid fund established by section 11 of article IX of the state constitution of 1963. Money available in the great start readiness reserve fund may not be expended for 2014-2015 unless transferred by the legislature not later than December 15, 2014 to the allocation under subsection (1) for great start readiness programs. Money in the great start readiness reserve fund shall be expended only for purposes for which state school aid fund money may be expended. The state treasurer shall direct the investment of the great start readiness reserve fund. The state treasurer shall credit to the great start readiness reserve fund interest and earnings from fund investments. Money in the great start readiness reserve fund at the close of a fiscal year shall remain in the great start readiness reserve fund and shall not lapse to the unreserved school aid fund balance or the general fund.

(20) From the amount appropriated in subsection (1), there is allocated an amount not to exceed \$10,000,000.00 for reimbursement of transportation costs for children attending great start readiness programs funded under this section. To receive reimbursement under this subsection, not later than November 1, 2014, a program funded under this section that provides transportation shall submit to the intermediate district that is the fiscal agent for the program a projected transportation budget. The amount of the reimbursement for transportation under this subsection shall be the lesser of the projected transportation budget or \$150.00 multiplied by the number of slots funded for the program under this section. If the amount allocated under this subsection is insufficient to fully reimburse the transportation costs for all programs that provide transportation and submit the required information, the reimbursement shall be prorated in an equal amount per slot funded. Payments shall be made to the intermediate district that is the fiscal agent for each program, and the intermediate district shall then reimburse the program provider for transportation costs as prescribed under this subsection.

388.1638 Repealed. 2009, Act 121, Imd. Eff. Oct. 19, 2009.

Compiler's note: The repealed section pertained to number of prekindergarten children in need of special readiness assistance.

388.1639 Receipt of funds under MCL 388.1632d; application; submission of implementation plan for approval; calculation of prekindergarten children construed to be in need of special readiness assistance; initial allocation; distribution in decreasing order of concentration of eligible children; allocation of remaining funds; supplementary child care; priority in funding; additional eligible children.

Sec. 39. (1) An eligible applicant receiving funds under section 32d shall submit an application, in a form and manner prescribed by the department, by a date specified by the department in the immediately preceding state fiscal year. The application shall include a comprehensive needs assessment using aggregated data from the applicant's entire service area and a community collaboration plan that is endorsed by the local great start collaborative and is part of the community's great start strategic plan that includes, but is not limited to, great start readiness program and head start providers, and shall identify all of the following:

(a) The estimated total number of children in the community who meet the criteria of section 32d and how that calculation was made.

(b) The estimated number of children in the community who meet the criteria of section 32d and are being served by other early childhood development programs operating in the community, and how that calculation was made.

(c) The number of children the applicant will be able to serve who meet the criteria of section 32d including a verification of physical facility and staff resources capacity.

(d) The estimated number of children who meet the criteria of section 32d who will remain unserved after the applicant and community early childhood programs have met their funded enrollments. The applicant shall maintain a waiting list of identified unserved eligible children who would be served when openings are available.

(2) After notification of funding allocations, an applicant receiving funds under section 32d shall also submit an implementation plan for approval, in a form and manner prescribed by the department, by a date

specified by the department, that details how the applicant complies with the program components established by the department pursuant to section 32d.

(3) The number of prekindergarten children construed to be in need of special readiness assistance under section 32d shall be calculated for each applicant in the following manner: 1/2 of the percentage of the applicant's pupils in grades 1 to 5 in all districts served by the applicant who are eligible for free lunch, as determined using the district's pupil membership count as of the pupil membership count day in the school year prior to the fiscal year for which the calculation is made, under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i, shall be multiplied by the average kindergarten enrollment of the districts served by the applicant on the pupil membership count day of the 2 immediately preceding fiscal years.

(4) The initial allocation for each fiscal year to each eligible applicant under section 32d shall be determined by multiplying the number of children determined by the formula under subsection (3) or the number of children the applicant indicates it will be able to serve under subsection (1)(c), whichever is less, by \$3,625.00 and shall be distributed among applicants in decreasing order of concentration of eligible children as determined by the formula under subsection (3). If the number of children an applicant indicates it will be able to serve under subsection (1)(c) includes children able to be served in a school-day program, then the number able to be served in a school-day program shall be doubled for the purposes of making this calculation of the lesser of the number of children determined by the formula under subsection (3) and the number of children the applicant indicates it will be able to serve under subsection (1)(c) and determining the amount of the initial allocation to the applicant under section 32d. A district may contract with a head start agency to serve children enrolled in head start with a school-day program by blending head start funds with a part-day great start readiness program allocation. All head start and great start readiness program policies and regulations apply to the blended program.

(5) If funds allocated for eligible applicants or to the great start readiness reserve fund under section 32d remain after the initial allocation under subsection (4), the allocation under this subsection shall be distributed to each eligible applicant under section 32d in decreasing order of concentration of eligible children as determined by the formula under subsection (3). The allocation shall be determined by multiplying the number of children each district within the applicant's service area served in the immediately preceding fiscal year or the number of children the applicant indicates it will be able to serve under subsection (1)(c), whichever is less, minus the number of children for which the applicant received funding in subsection (4) by \$3,625.00.

(6) If funds allocated for eligible applicants or to the great start readiness reserve fund under section 32d remain after the allocations under subsections (4) and (5), remaining funds shall be distributed to each eligible applicant under section 32d in decreasing order of concentration of eligible children as determined by the formula under subsection (3). If the number of children the applicant indicates it will be able to serve under subsection (1)(c) exceeds the number of children for which funds have been received under subsections (4) and (5), the allocation under this subsection shall be determined by multiplying the number of children the applicant indicates it will be able to serve under subsection (1)(c) less the number of children for which funds have been received under subsections (4) and (5) by \$3,625.00 until the funds allocated for eligible applicants in section 32d are distributed.

(7) An applicant that offers supplementary child care funded by funds other than those received under section 32d and therefore offers full-day programs as part of its early childhood development program shall receive priority in the allocation of funds under section 32d over other eligible applicants. As used in this subsection, "full-day program" means a program that provides supplementary child care that totals at least 10 hours of programming per day.

(8) If, taking into account the total amount to be allocated to the applicant as calculated under this section, an applicant determines that it is able to include additional eligible children in the great start readiness program without additional funds under section 32d, the applicant may include additional eligible children but shall not receive additional funding under section 32d for those children.

Sec. 51a. (1) From the appropriation in section 11, there is allocated an amount not to exceed \$938,946,100.00 for 2014-2015 from state sources and all available federal funding under sections 611 to 619 of part B of the individuals with disabilities education act, 20 USC 1411 to 1419, estimated at \$370,000,000.00 for 2014-2015, plus any carryover federal funds from previous year appropriations. The allocations under this subsection are for the purpose of reimbursing districts and intermediate districts for special education programs, services, and special education personnel as prescribed in article 3 of the revised school code, MCL 380.1701 to 380.1766; net tuition payments made by intermediate districts to the Michigan schools for the deaf and blind; and special education programs and services for pupils who are eligible for special education programs and services according to statute or rule. For meeting the costs of special education programs and services not reimbursed under this article, a district or intermediate district may use money in general funds or special education funds, not otherwise restricted, or contributions from districts to intermediate districts, tuition payments, gifts and contributions from individuals or other entities, or federal funds that may be available for this purpose, as determined by the intermediate district plan prepared pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1766. Notwithstanding section 17b, payments of federal funds to districts, intermediate districts, and other eligible entities under this section shall be paid on a schedule determined by the department.

(2) From the funds allocated under subsection (1), there is allocated the amount necessary, estimated at \$252,000,000.00 for 2014-2015, for payments toward reimbursing districts and intermediate districts for 28.6138% of total approved costs of special education, excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Allocations under this subsection shall be made as follows:

(a) The initial amount allocated to a district under this subsection toward fulfilling the specified percentages shall be calculated by multiplying the district's special education pupil membership, excluding pupils described in subsection (11), times the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, or, for a

special education pupil in membership in a district that is a public school academy, times an amount equal to the amount per membership pupil calculated under section 20(6) or, for a pupil described in this subsection who is counted in membership in the education achievement system, times an amount equal to the amount per membership pupil under section 20(7). For an intermediate district, the amount allocated under this subdivision toward fulfilling the specified percentages shall be an amount per special education membership pupil, excluding pupils described in subsection (11), and shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year.

(b) After the allocations under subdivision (a), districts and intermediate districts for which the payments calculated under subdivision (a) do not fulfill the specified percentages shall be paid the amount necessary to achieve the specified percentages for the district or intermediate district.

(3) From the funds allocated under subsection (1), there is allocated for 2014-2015 an amount not to exceed \$1,000,000.00 to make payments to districts and intermediate districts under this subsection. If the amount allocated to a district or intermediate district for a fiscal year under subsection (2)(b) is less than the sum of the amounts allocated to the district or intermediate district for 1996-97 under sections 52 and 58, there is allocated to the district or intermediate district for the fiscal year an amount equal to that difference, adjusted by applying the same proration factor that was used in the distribution of funds under section 52 in 1996-97 as adjusted to the district's or intermediate district's necessary costs of special education used in calculations for the fiscal year. This adjustment is to reflect reductions in special education program operations or services between 1996-97 and subsequent fiscal years. Adjustments for reductions in special education program operations or services shall be made in a manner determined by the department and shall include adjustments for program or service shifts.

(4) If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) is not sufficient to fulfill the specified percentages in subsection (2), then the shortfall shall be paid to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), then the department shall deduct the amount of the excess from the district's or intermediate district's payments under this article for the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. However, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there shall be no deduction under this subsection.

(5) State funds shall be allocated on a total approved cost basis. Federal funds shall be allocated under applicable federal requirements, except that an amount not to exceed \$3,500,000.00 may be allocated by the department for 2014-2015 to districts, intermediate districts, or other eligible entities on a competitive grant basis for programs, equipment, and services that the department determines to be designed to benefit or improve special education on a statewide scale.

(6) From the amount allocated in subsection (1), there is allocated an amount not to exceed \$2,200,000.00 for 2014-2015 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, "net increase in necessary costs" means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. Net increase in necessary costs shall be determined in a manner specified by the department.

(7) For purposes of sections 51a to 58, all of the following apply:

(a) "Total approved costs of special education" shall be determined in a manner specified by the department and may include indirect costs, but shall not exceed 115% of approved direct costs for section 52 and section 53a programs. The total approved costs include salary and other compensation for all approved special education personnel for the program, including payments for social security and medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to administrative personnel who are not special education personnel as defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds included in the allocation made under this article, are not included. Special education approved personnel not utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services shall be reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the

department to provide an on-grounds education program.

(b) Beginning with the 2004-2005 fiscal year, a district or intermediate district that employed special education support services staff to provide special education support services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-2004 receives the same type of support services from another district or intermediate district shall report the cost of those support services for special education reimbursement purposes under this article. This subdivision does not prohibit the transfer of special education classroom teachers and special education classroom aides if the pupils counted in membership associated with those special education classroom teachers and special education classroom aides are transferred and counted in membership in the other district or intermediate district in conjunction with the transfer of those teachers and aides.

(c) If the department determines before bookclosing for a fiscal year that the amounts allocated for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 will exceed expenditures for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56, then for a district or intermediate district whose reimbursement for that fiscal year would otherwise be affected by subdivision (b), subdivision (b) does not apply to the calculation of the reimbursement for that district or intermediate district and reimbursement for that district or intermediate district shall be calculated in the same manner as it was for 2003-2004. If the amount of the excess allocations under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 is not sufficient to fully fund the calculation of reimbursement to those districts and intermediate districts under this subdivision, then the calculations and resulting reimbursement under this subdivision shall be prorated on an equal percentage basis. This reimbursement shall not be made after 2014-2015.

(d) Reimbursement for ancillary and other related services, as defined by R 340.1701c of the Michigan administrative code, shall not be provided when those services are covered by and available through private group health insurance carriers or federal reimbursed program sources unless the department and district or intermediate district agree otherwise and that agreement is approved by the state budget director. Expenses, other than the incidental expense of filing, shall not be borne by the parent. In addition, the filing of claims shall not delay the education of a pupil. A district or intermediate district shall be responsible for payment of a deductible amount and for an advance payment required until the time a claim is paid.

(e) Beginning with calculations for 2004-2005, if an intermediate district purchases a special education pupil transportation service from a constituent district that was previously purchased from a private entity; if the purchase from the constituent district is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the intermediate district to the constituent does not result in any net change in the revenue the constituent district receives from payments under sections 22b and 51c, then upon application by the intermediate district, the department shall direct the intermediate district to continue to report the cost associated with the specific identified special education pupil transportation service and shall adjust the costs reported by the constituent district to remove the cost associated with that specific service.

(8) A pupil who is enrolled in a full-time special education program conducted or administered by an intermediate district or a pupil who is enrolled in the Michigan schools for the deaf and blind shall not be included in the membership count of a district, but shall be counted in membership in the intermediate district of residence.

(9) Special education personnel transferred from 1 district to another to implement the revised school code shall be entitled to the rights, benefits, and tenure to which the person would otherwise be entitled had that person been employed by the receiving district originally.

(10) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. Money that is refunded shall be deposited in the state treasury to the credit of the state school aid fund.

(11) From the funds allocated in subsection (1), there is allocated the amount necessary, estimated at \$3,300,000.00 for 2014-2015, to pay the foundation allowances for pupils described in this subsection. The allocation to a district under this subsection shall be calculated by multiplying the number of pupils described in this subsection who are counted in membership in the district times the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy, times an amount equal to the amount per membership pupil under section 20(6) or, for a pupil described in this subsection who is counted in membership in the education achievement system, times an amount equal to the amount per membership pupil under section 20(7). The allocation to an intermediate district under this subsection shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year. This subsection applies to all of the following pupils:

- (a) Pupils described in section 53a.
- (b) Pupils counted in membership in an intermediate district who are not special education pupils and are served by the intermediate district in a juvenile detention or child caring facility.
- (c) Pupils with an emotional impairment counted in membership by an intermediate district and provided educational services by the department of community health.

(12) If it is determined that funds allocated under subsection (2) or (11) or under section 51c will not be expended, funds up to the amount necessary and available may be used to supplement the allocations under subsection (2) or (11) or under section 51c in order to fully fund those allocations. After payments under subsections (2) and (11) and section 51c, the remaining expenditures from the allocation in subsection (1) shall be made in the following order:

- (a) 100% of the reimbursement required under section 53a.
- (b) 100% of the reimbursement required under subsection (6).
- (c) 100% of the payment required under section 54.
- (d) 100% of the payment required under subsection (3).
- (e) 100% of the payments under section 56.

(13) The allocations under subsections (2), (3), and (11) shall be allocations to intermediate districts only and shall not be allocations to districts, but instead shall be calculations used only to determine the state payments under section 22b.

(14) If a public school academy enrolls pursuant to this section a pupil who resides outside of the intermediate district in which the public school academy is located and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the provision of special education programs and services and the payment of the added costs of special education programs and services for the pupil are the responsibility of the district and intermediate district in which the pupil resides unless the enrolling district or intermediate district has a written agreement with the district or intermediate district in which the pupil resides or the public school academy for the purpose of providing the pupil with a free appropriate public education and the written agreement includes at least an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil.

development; "qualifying professional development" defined; applicability of subsections (3) and (8) to cyber school or dropout recovery program; "eligible pupil" defined; review of waiver standards.

Sec. 101. (1) To be eligible to receive state aid under this article, not later than the fifth Wednesday after the pupil membership count day and not later than the fifth Wednesday after the supplemental count day, each district superintendent shall submit to the center and the intermediate superintendent, in the form and manner prescribed by the center, the number of pupils enrolled and in regular daily attendance in the district as of the pupil membership count day and as of the supplemental count day, as applicable, for the current school year. In addition, a district maintaining school during the entire year, as provided under section 1561 of the revised school code, MCL 380.1561, shall submit to the center and the intermediate superintendent, in the form and manner prescribed by the center, the number of pupils enrolled and in regular daily attendance in the district for the current school year pursuant to rules promulgated by the superintendent. Not later than the sixth Wednesday after the pupil membership count day and not later than the sixth Wednesday after the supplemental count day, the district shall certify the data in a form and manner prescribed by the center and file the certified data with the intermediate superintendent. If a district fails to submit and certify the attendance data, as required under this subsection, the center shall notify the department and state aid due to be distributed under this article shall be withheld from the defaulting district immediately, beginning with the next payment after the failure and continuing with each payment until the district complies with this subsection. If a district does not comply with this subsection by the end of the fiscal year, the district forfeits the amount withheld. A person who willfully falsifies a figure or statement in the certified and sworn copy of enrollment shall be punished in the manner prescribed by section 161.

(2) To be eligible to receive state aid under this article, not later than the twenty-fourth Wednesday after the pupil membership count day and not later than the twenty-fourth Wednesday after the supplemental count day, an intermediate district shall submit to the center, in a form and manner prescribed by the center, the audited enrollment and attendance data for the pupils of its constituent districts and of the intermediate district. If an intermediate district fails to submit the audited data as required under this subsection, state aid due to be distributed under this article shall be withheld from the defaulting intermediate district immediately, beginning with the next payment after the failure and continuing with each payment until the intermediate district complies with this subsection. If an intermediate district does not comply with this subsection by the end of the fiscal year, the intermediate district forfeits the amount withheld.

(3) Except as otherwise provided in subsections (11) and (12), all of the following apply to the provision of pupil instruction:

(a) Except as otherwise provided in this section, each district shall provide at least 1,098 hours and, beginning in 2010-2011, the required minimum number of days of pupil instruction. Beginning in 2014-2015, the required minimum number of days of pupil instruction is 175. However, all of the following apply to these requirements:

(i) If a collective bargaining agreement that provides a complete school calendar was in effect for employees of a district as of July 1, 2013, and if that school calendar is not in compliance with this subsection, then this subsection does not apply to that district until after the expiration of that collective bargaining agreement. If a district entered into a collective bargaining agreement on or after July 1, 2013 and if that collective bargaining agreement did not provide for at least 175 days of pupil instruction beginning in 2014-2015, then the department shall withhold from the district's total state school aid an amount equal to 5% of the funding the district receives in 2014-2015 under sections 22a and 22b.

(ii) A district may apply for a waiver under subsection (9) from the requirements of this subdivision.

(b) Beginning in 2016-2017, the required minimum number of days of pupil instruction is 180. If a collective bargaining agreement that provides a complete school calendar was in effect for employees of a district as of the effective date of the amendatory act that added this subdivision, and if that school calendar is not in compliance with this subdivision, then this subdivision does not apply to that district until after the expiration of that collective bargaining agreement. A district may apply for a waiver under subsection (9) from the requirements of this subdivision.

(c) Except as otherwise provided in this article, a district failing to comply with the required minimum hours and days of pupil instruction under this subsection shall forfeit from its total state aid allocation an amount determined by applying a ratio of the number of hours or days the district was in noncompliance in relation to the required minimum number of hours and days under this subsection. Not later than August 1, the board of each district shall certify to the department the number of hours and days of pupil instruction in the previous school year. If the district did not provide at least the required minimum number of hours and days of pupil instruction under this subsection, the deduction of state aid shall be made in the following fiscal

year from the first payment of state school aid. A district is not subject to forfeiture of funds under this subsection for a fiscal year in which a forfeiture was already imposed under subsection (6).

(d) Hours or days lost because of strikes or teachers' conferences shall not be counted as hours or days of pupil instruction.

(e) If a collective bargaining agreement that provides a complete school calendar is in effect for employees of a district as of October 19, 2009, and if that school calendar is not in compliance with this subsection, then this subsection does not apply to that district until after the expiration of that collective bargaining agreement.

(f) Except as otherwise provided in subdivisions (g) and (h), a district not having at least 75% of the district's membership in attendance on any day of pupil instruction shall receive state aid in that proportion of 1/180 that the actual percent of attendance bears to the specified percentage.

(g) If a district adds 1 or more days of pupil instruction to the end of its instructional calendar for a school year to comply with subdivision (a) because the district otherwise would fail to provide the required minimum number of days of pupil instruction even after the operation of subsection (4) due to conditions not within the control of school authorities, then subdivision (f) does not apply for any day of pupil instruction that is added to the end of the instructional calendar. Instead, for any of those days, if the district does not have at least 60% of the district's membership in attendance on that day, the district shall receive state aid in that proportion of 1/180 that the actual percentage of attendance bears to the specified percentage. For any day of pupil instruction added to the instructional calendar as described in this subdivision, the district shall report to the department the percentage of the district's membership that is in attendance, in the form and manner prescribed by the department.

(h) At the request of a district that operates a department-approved alternative education program and that does not provide instruction for pupils in all of grades K to 12, the superintendent may grant a waiver from the requirements of subdivision (f). The waiver shall indicate that an eligible district is subject to the proration provisions of subdivision (f) only if the district does not have at least 50% of the district's membership in attendance on any day of pupil instruction. In order to be eligible for this waiver, a district must maintain records to substantiate its compliance with the following requirements:

(i) The district offers the minimum hours of pupil instruction as required under this section.

(ii) For each enrolled pupil, the district uses appropriate academic assessments to develop an individual education plan that leads to a high school diploma.

(iii) The district tests each pupil to determine academic progress at regular intervals and records the results of those tests in that pupil's individual education plan.

(i) All of the following apply to a waiver granted under subdivision (h):

(i) If the waiver is for a blended model of delivery, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(ii) If the waiver is for a 100% online model of delivery and the educational program for which the waiver is granted makes educational services available to pupils for a minimum of at least 1,098 hours during a school year and ensures that each pupil participates in the educational program for at least 1,098 hours during a school year, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(iii) A waiver that is not a waiver described in subparagraph (i) or (ii) is valid for 1 fiscal year and must be renewed annually to remain in effect.

(j) The superintendent shall promulgate rules for the implementation of this subsection.

(4) Except as otherwise provided in this subsection, the first 6 days or the equivalent number of hours for which pupil instruction is not provided because of conditions not within the control of school authorities, such as severe storms, fires, epidemics, utility power unavailability, water or sewer failure, or health conditions as defined by the city, county, or state health authorities, shall be counted as hours and days of pupil instruction. With the approval of the superintendent of public instruction, the department shall count as hours and days of pupil instruction for a fiscal year not more than 6 additional days or the equivalent number of additional hours for which pupil instruction is not provided in a district after April 1 of the applicable school year due to unusual and extenuating occurrences resulting from conditions not within the control of school authorities such as those conditions described in this subsection. Subsequent such hours or days shall not be counted as hours or days of pupil instruction.

(5) A district shall not forfeit part of its state aid appropriation because it adopts or has in existence an alternative scheduling program for pupils in kindergarten if the program provides at least the number of hours required under subsection (3) for a full-time equated membership for a pupil in kindergarten as provided under section 6(4).

(6) In addition to any other penalty or forfeiture under this section, if at any time the department determines that 1 or more of the following have occurred in a district, the district shall forfeit in the current

fiscal year beginning in the next payment to be calculated by the department a proportion of the funds due to the district under this article that is equal to the proportion below the required minimum number of hours and days of pupil instruction under subsection (3), as specified in the following:

(a) The district fails to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(b) The board of the district takes formal action not to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(7) In providing the minimum number of hours and days of pupil instruction required under subsection (3), a district shall use the following guidelines, and a district shall maintain records to substantiate its compliance with the following guidelines:

(a) Except as otherwise provided in this subsection, a pupil must be scheduled for at least the required minimum number of hours of instruction, excluding study halls, or at least the sum of 90 hours plus the required minimum number of hours of instruction, including up to 2 study halls.

(b) The time a pupil is assigned to any tutorial activity in a block schedule may be considered instructional time, unless that time is determined in an audit to be a study hall period.

(c) Except as otherwise provided in this subdivision, a pupil in grades 9 to 12 for whom a reduced schedule is determined to be in the individual pupil's best educational interest must be scheduled for a number of hours equal to at least 80% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil. A pupil in grades 9 to 12 who is scheduled in a 4-block schedule may receive a reduced schedule under this subsection if the pupil is scheduled for a number of hours equal to at least 75% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil.

(d) If a pupil in grades 9 to 12 who is enrolled in a cooperative education program or a special education pupil cannot receive the required minimum number of hours of pupil instruction solely because of travel time between instructional sites during the school day, that travel time, up to a maximum of 3 hours per school week, shall be considered to be pupil instruction time for the purpose of determining whether the pupil is receiving the required minimum number of hours of pupil instruction. However, if a district demonstrates to the satisfaction of the department that the travel time limitation under this subdivision would create undue costs or hardship to the district, the department may consider more travel time to be pupil instruction time for this purpose.

(e) In grades 7 through 12, instructional time that is part of a junior reserve officer training corps (JROTC) program shall be considered to be pupil instruction time regardless of whether the instructor is a certificated teacher if all of the following are met:

(i) The instructor has met all of the requirements established by the United States department of defense and the applicable branch of the armed services for serving as an instructor in the junior reserve officer training corps program.

(ii) The board of the district or intermediate district employing or assigning the instructor complies with the requirements of sections 1230 and 1230a of the revised school code, MCL 380.1230 and 380.1230a, with respect to the instructor to the same extent as if employing the instructor as a regular classroom teacher.

(8) Except as otherwise provided in subsections (11) and (12), the department shall apply the guidelines under subsection (7) in calculating the full-time equivalency of pupils.

(9) Upon application by the district for a particular fiscal year, the superintendent may waive for a district the minimum number of hours and days of pupil instruction requirement of subsection (3) for a department-approved alternative education program or another innovative program approved by the department, including a 4-day school week. If a district applies for and receives a waiver under this subsection and complies with the terms of the waiver, the district is not subject to forfeiture under this section for the specific program covered by the waiver. If the district does not comply with the terms of the waiver, the amount of the forfeiture shall be calculated based upon a comparison of the number of hours and days of pupil instruction actually provided to the minimum number of hours and days of pupil instruction required under subsection (3). Pupils enrolled in a department-approved alternative education program under this subsection shall be reported to the center in a form and manner determined by the center. All of the following apply to a waiver granted under this subsection:

(a) If the waiver is for a blended model of delivery, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(b) If the waiver is for a 100% online model of delivery and the educational program for which the waiver is granted makes educational services available to pupils for a minimum of at least 1,098 hours during a school year and ensures that each pupil participates in the educational program for at least 1,098 hours during a school year, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in

effect unless it is revoked by the superintendent.

(c) A waiver that is not a waiver described in subdivision (a) or (b) is valid for 1 fiscal year and must be renewed annually to remain in effect.

(10) Until 2014-2015, a district may count up to 38 hours of qualifying professional development for teachers as hours of pupil instruction. However, if a collective bargaining agreement that provides for the counting of up to 38 hours of qualifying professional development for teachers as pupil instruction is in effect for employees of a district as of July 1, 2013, then until the school year that begins after the expiration of that collective bargaining agreement a district may count up to the contractually specified number of hours of qualifying professional development for teachers as hours of pupil instruction. Professional development provided online is allowable and encouraged, as long as the instruction has been approved by the district. The department shall issue a list of approved online professional development providers, which shall include the Michigan virtual school. As used in this subsection, "qualifying professional development" means professional development that is focused on 1 or more of the following:

(a) Achieving or improving adequate yearly progress as defined under the no child left behind act of 2001, Public Law 107-110.

(b) Achieving accreditation or improving a school's accreditation status under section 1280 of the revised school code, MCL 380.1280.

(c) Achieving highly qualified teacher status as defined under the no child left behind act of 2001, Public Law 107-110.

(d) Integrating technology into classroom instruction.

(e) Maintaining teacher certification.

(11) Subsections (3) and (8) do not apply to a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a.

(12) Subsections (3) and (8) do not apply to eligible pupils enrolled in a dropout recovery program that meets the requirements of section 23a. As used in this subsection, "eligible pupil" means that term as defined in section 23a.

(13) Beginning in 2013, at least every 2 years the superintendent shall review the waiver standards set forth in the pupil accounting and auditing manuals to ensure that the waiver standards and waiver process continue to be appropriate and responsive to changing trends in online learning. The superintendent shall solicit and consider input from stakeholders as part of this review.

388.1704b Michigan merit examination.

Sec. 104b. (1) In order to receive state aid under this article, a district shall comply with this section and shall administer the Michigan merit examination to pupils in grade 11, and to pupils in grade 12 who did not take the complete Michigan merit examination in grade 11, as provided in this section.

(2) For the purposes of this section, the department of technology, management, and budget shall contract with 1 or more providers to develop, supply, and score the Michigan merit examination. The Michigan merit examination shall consist of all of the following:

(a) Assessment instruments that measure English language arts, mathematics, reading, and science and are used by colleges and universities in this state for entrance or placement purposes. This shall include 1 or more writing components.

(b) One or more tests from 1 or more test developers that assess a pupil's ability to apply at least reading and mathematics skills in a manner that is intended to allow employers to use the results in making employment decisions. The department of technology, management, and budget and the superintendent shall ensure that any test or tests selected under this subdivision have all the components necessary to allow a pupil to be eligible to receive the results of a nationally recognized evaluation of workforce readiness if the pupil's test performance is adequate.

(c) A social studies component.

(d) Any other component that is necessary to obtain the approval of the United States department of education to use the Michigan merit examination for the purposes of the no child left behind act of 2001, Public Law 107-110.

(3) In addition to all other requirements of this section, all of the following apply to the Michigan merit examination:

(a) The department of technology, management, and budget and the superintendent shall ensure that any contractor used for scoring the Michigan merit examination supplies an individual report for each pupil that will identify for the pupil's parents and teachers whether the pupil met expectations or failed to meet expectations for each standard, to allow the pupil's parents and teachers to assess and remedy problems before the pupil moves to the next grade.

(b) The department of technology, management, and budget and the superintendent shall ensure that any contractor used for scoring, developing, or processing the Michigan merit examination meets quality management standards commonly used in the assessment industry, including at least meeting level 2 of the capability maturity model developed by the software engineering institute of Carnegie Mellon university for the first year the Michigan merit examination is offered to all grade 11 pupils and at least meeting level 3 of the capability maturity model for subsequent years.

(c) The department of technology, management, and budget and the superintendent shall ensure that any contract for scoring, administering, or developing the Michigan merit examination includes specific deadlines for all steps of the assessment process, including, but not limited to, deadlines for the correct testing materials to be supplied to schools and for the correct results to be returned to schools, and includes penalties for noncompliance with these deadlines.

- (d) The superintendent shall ensure that the Michigan merit examination meets all of the following:
- (i) Is designed to test pupils on grade level content expectations or course content expectations, as appropriate, in all subjects tested.
 - (ii) Complies with requirements of the no child left behind act of 2001, Public Law 107-110.
 - (iii) Is consistent with the code of fair testing practices in education prepared by the joint committee on testing practices of the American psychological association.
 - (iv) Is factually accurate. If the superintendent determines that a question is not factually accurate and should be excluded from scoring, the state board and the superintendent shall ensure that the question is excluded from scoring.
- (4) A district shall include on each pupil's high school transcript all of the following:
- (a) For each high school graduate who has completed the Michigan merit examination under this section, the pupil's scaled score on each subject area component of the Michigan merit examination.
 - (b) The number of school days the pupil was in attendance at school each school year during high school and the total number of school days in session for each of those school years.
- (5) The superintendent shall work with the provider or providers of the Michigan merit examination to produce Michigan merit examination subject area scores for each pupil participating in the Michigan merit examination, including scaling and merging of test items for the different subject area components. The superintendent shall design and distribute to districts, intermediate districts, and nonpublic schools a simple and concise document that describes the scoring for each subject area and indicates the scaled score ranges for each subject area.
- (6) The Michigan merit examination shall be administered in each district during the last 12 weeks of the district's school year. The superintendent shall ensure that the Michigan merit examination is scored and the scores are returned to pupils, their parents or legal guardians, and districts not later than the beginning of the pupil's first semester of grade 12. The returned scores shall indicate at least the pupil's scaled score for each subject area component and the range of scaled scores for each subject area. In reporting the scores to pupils, parents, and schools, the superintendent shall provide standards-specific, meaningful, and timely feedback on the pupil's performance on the Michigan merit examination.
- (7) A district shall administer the complete Michigan merit examination to a pupil only once and shall not administer the complete Michigan merit examination to the same pupil more than once. If a pupil does not take the complete Michigan merit examination in grade 11, the district shall administer the complete Michigan merit examination to the pupil in grade 12. If a pupil chooses to retake the college entrance examination component of the Michigan merit examination, as described in subsection (2)(a), the pupil may do so through the provider of the college entrance examination component and the cost of the retake is the responsibility of the pupil unless all of the following are met:
- (a) The pupil has taken the complete Michigan merit examination.
 - (b) The pupil did not qualify for a Michigan promise grant under section 6 of the Michigan promise grant act, 2006 PA 479, MCL 390.1626, based on the pupil's performance on the complete Michigan merit examination.
 - (c) The pupil meets the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i.
 - (d) The pupil has applied to the provider of the college entrance examination component for a scholarship or fee waiver to cover the cost of the retake and that application has been denied.
 - (e) After taking the complete Michigan merit examination, the pupil has not already received a free retake of the college entrance examination component paid for either by this state or through a scholarship or fee waiver by the provider.
- (8) The superintendent shall ensure that the length of the Michigan merit examination and the combined total time necessary to administer all of the components of the Michigan merit examination are the shortest possible that will still maintain the degree of reliability and validity of the Michigan merit examination results determined necessary by the superintendent. The superintendent shall ensure that the maximum total combined length of time that schools are required to set aside for pupils to answer all test questions on the Michigan merit examination does not exceed 8 hours if the superintendent determines that sufficient alignment to applicable Michigan merit curriculum content standards can be achieved within that time limit.
- (9) A district shall provide accommodations to a pupil with disabilities for the Michigan merit examination, as provided under section 504 of title V of the rehabilitation act of 1973, 29 USC 794; subtitle A of title II of the Americans with disabilities act of 1990, 42 USC 12131 to 12134; the individuals with disabilities education act amendments of 1997, Public Law 105-17; and the implementing regulations for those statutes. The provider or providers of the Michigan merit examination and the superintendent shall mutually agree upon the accommodations to be provided under this subsection.

(10) To the greatest extent possible, the Michigan merit examination shall be based on grade level content expectations or course content expectations, as appropriate. Not later than July 1, 2008, the department shall identify specific grade level content expectations to be taught before and after the middle of grade 11, so that teachers will know what content will be covered within the Michigan merit examination.

(11) A child who is a student in a nonpublic school or home school may take the Michigan merit examination under this section. To take the Michigan merit examination, a child who is a student in a home school shall contact the district in which the child resides, and that district shall administer the Michigan merit examination, or the child may take the Michigan merit examination at a nonpublic school if allowed by the nonpublic school. Upon request from a nonpublic school, the superintendent shall direct the provider or providers to supply the Michigan merit examination to the nonpublic school and the nonpublic school may administer the Michigan merit examination. If a district administers the Michigan merit examination under this subsection to a child who is not enrolled in the district, the scores for that child are not considered for any purpose to be scores of a pupil of the district.

(12) In contracting under subsection (2), the department of management and budget shall consider a contractor that provides electronically-scored essays with the ability to score constructed response feedback in multiple languages and provide ongoing instruction and feedback.

(13) The purpose of the Michigan merit examination is to assess pupil performance in mathematics, science, social studies, and English language arts for the purpose of improving academic achievement and establishing a statewide standard of competency. The assessment under this section provides a common measure of data that will contribute to the improvement of Michigan schools' curriculum and instruction by encouraging alignment with Michigan's curriculum framework standards and promotes pupil participation in higher level mathematics, science, social studies, and English language arts courses. These standards are based upon the expectations of what pupils should learn through high school and are aligned with national standards.

(14) For a pupil enrolled in a middle college program, other than a middle college operated as a shared educational entity or a specialized shared educational entity, if the pupil receives at least 50% of his or her instruction at the high school while in grade 11, the Michigan merit examination shall be administered to the pupil at the high school at which the pupil receives high school instruction, and the department shall include the pupil's scores on the Michigan merit examination in the scores for that high school for all purposes for which a school's or district's results are reported. The department shall allow the middle college program to use a 5-year graduation rate for determining adequate yearly progress. As used in this subsection, "middle college" means a program consisting of a series of courses and other requirements and conditions, including an early college or other program created under a memorandum of understanding, that allows a pupil to graduate from high school with both a high school diploma and a certificate or degree from a community college or state public university.

(15) As used in this section:

(a) "English language arts" means reading and writing.

(b) "Social studies" means United States history, world history, world geography, economics, and American government.

Sec. 104c. (1) In order to receive state aid under this article, a district shall administer the state assessments described in this section.

(2) For the purposes of this section, the department shall develop for use in the spring of 2014-2015 new Michigan education assessment program (MEAP) assessments in English language arts and mathematics. These assessments shall be aligned to state standards.

(3) For the purposes of this section, the department shall implement beginning in the 2015-2016 school

year a summative assessment system that is proven to be valid and reliable for administration to pupils as provided under this subsection. The summative assessment system shall meet all of the following requirements:

(a) The summative assessment system shall measure student proficiency on the current state standards, shall measure student growth for consecutive grade levels in which students are assessed in the same subject area in both grade levels, and shall be capable of measuring individual student performance.

(b) The summative assessments for English language arts and mathematics shall be administered to all public school pupils in grades 3 to 10, including those pupils as required by the federal individuals with disabilities education act, Public Law 108-446, and by title I of the federal elementary and secondary education act.

(c) The summative assessments for science shall be administered to all public school pupils in at least grades 4 and 7, including those pupils as required by the federal individuals with disabilities education act, Public Law 108-446, and by title I of the federal elementary and secondary education act.

(d) The summative assessments for social studies shall be administered to all public school pupils in at least grades 5 and 8, including those pupils as required by the federal individuals with disabilities education act, Public Law 108-446, and by title I of the federal elementary and secondary education act.

(e) The content of the summative assessments shall be aligned to state standards.

(f) The pool of questions for the summative assessments shall be subject to a transparent review process for quality, bias, and sensitive issues involving educator review and comment. The department shall post samples from tests or retired tests featuring questions from this pool for review by the public.

(g) The summative assessment system shall ensure that students, parents, and teachers are provided with reports that convey individual student proficiency and growth on the assessment and that convey individual student domain-level performance in each subject area, including representative questions, and individual student performance in meeting state standards.

(h) The summative assessment system shall be capable of providing, and the department shall ensure that students, parents, teachers, administrators, and community members are provided with, reports that convey aggregate student proficiency and growth data by teacher, grade, school, and district.

(i) The summative assessment system shall ensure the capability of reporting the available data to support educator evaluations.

(j) The summative assessment system shall ensure that the reports provided to districts containing individual student data are available within 60 days after completion of the assessments.

(k) The assessments shall be capable of being implemented statewide in a fully operational manner no later than the 2015-2016 school year.

(m) The summative assessment system shall ensure that the assessments are pilot tested before statewide implementation.

(n) The summative assessment system shall ensure that assessments are designed so that the maximum total combined length of time that schools are required to set aside for a pupil to answer all test questions on all assessments that are part of the system for the pupil's grade level does not exceed that maximum total combined length of time for the previous statewide assessment system or 9 hours, whichever is less. This subdivision does not limit the amount of time a district may allow a pupil to complete a test.

(o) The total cost of executing the summative assessment system statewide each year, including, but not limited to, the cost of contracts for administration, scoring, and reporting, shall not exceed an amount equal to 2 times the cost of executing the previous statewide assessment after adjustment for inflation.

(4) To begin the process required under subsection (3), not later than September 1, 2014, the department shall issue a request for proposals for the summative assessment system described in that subsection.

388.1705 Counting nonresident pupils in membership; application for enrollment; procedures.

Sec. 105. (1) In order to avoid a penalty under this section, and in order to count a nonresident pupil residing within the same intermediate district in membership without the approval of the pupil's district of residence, a district shall comply with this section.

(2) Except as otherwise provided in this section, a district shall determine whether or not it will accept applications for enrollment by nonresident applicants residing within the same intermediate district for the next school year. If the district determines to accept applications for enrollment of a number of nonresidents, beyond those entitled to preference under this section, the district shall use the following procedures for accepting applications from and enrolling nonresidents:

(a) The district shall publish the grades, schools, and special programs, if any, for which enrollment may be available to, and for which applications will be accepted from, nonresident applicants residing within the same intermediate district.

(b) If the district has a limited number of positions available for nonresidents residing within the same intermediate district in a grade, school, or program, all of the following apply to accepting applications for and enrollment of nonresidents in that grade, school, or program:

(i) The district shall do all of the following not later than the second Friday in August:

(A) Provide notice to the general public that applications will be taken for a period of at least 15 calendar days but not more than 30 calendar days from nonresidents residing within the same intermediate district for enrollment in that grade, school, or program. The notice shall identify the dates of the application period and the place and manner for submitting applications.

(B) During the application period under sub-subparagraph (A), accept applications from nonresidents residing within the same intermediate district for enrollment in that grade, school, or program.

(C) Within 15 calendar days after the end of the application period under sub-subparagraph (A), using the procedures and preferences required under this section, determine which nonresident applicants will be allowed to enroll in that grade, school, or program, using the random draw system required under subsection (14) as necessary, and notify the parent or legal guardian of each nonresident applicant of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(ii) Beginning on the third Monday in August and not later than the end of the first week of school, if any positions become available in a grade, school, or program due to accepted applicants failing to enroll or to more positions being added, the district may enroll nonresident applicants from the waiting list maintained under subsection (14), offering enrollment in the order that applicants appear on the waiting list. If there are still positions available after enrolling all applicants from the waiting list who desire to enroll, the district may not fill those positions until the second semester or trimester enrollment under subsection (3), as provided under that subsection, or until the next school year.

(c) For a grade, school, or program that has an unlimited number of positions available for nonresidents residing within the same intermediate district, all of the following apply to enrollment of nonresidents in that grade, school, or program:

(i) The district may accept applications for enrollment in that grade, school, or program, and may enroll nonresidents residing within the same intermediate district in that grade, school, or program, until the end of the first week of school. The district shall provide notice to the general public of the place and manner for submitting applications and, if the district has a limited application period, the notice shall include the dates of the application period. The application period shall be at least a 15-calendar-day period.

(ii) Not later than the end of the first week of school, the district shall notify the parent or legal guardian of each nonresident applicant who is accepted for enrollment that the applicant has been accepted for enrollment in the grade, school, or program and of the procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(3) If a district determines during the first semester or trimester of a school year that it has positions available for enrollment of a number of nonresidents residing within the same intermediate district, beyond those entitled to preference under this section, for the second semester or trimester of the school year, the district may accept applications from and enroll nonresidents residing within the same intermediate district for the second semester or trimester using the following procedures:

(a) Not later than 2 weeks before the end of the first semester or trimester, the district shall publish the grades, schools, and special programs, if any, for which enrollment for the second semester or trimester may be available to, and for which applications will be accepted from, nonresident applicants residing within the same intermediate district.

(b) During the last 2 weeks of the first semester or trimester, the district shall accept applications from nonresidents residing within the same intermediate district for enrollment for the second semester or trimester in the available grades, schools, and programs.

(c) By the beginning of the second semester or trimester, using the procedures and preferences required under this section, the district shall determine which nonresident applicants will be allowed to enroll in the district for the second semester or trimester and notify the parent or legal guardian of each nonresident applicant residing within the same intermediate district of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(4) If deadlines similar to those described in subsection (2) or (3) have been established in an intermediate district, and if those deadlines are not later than the deadlines under subsection (2) or (3), the districts within the intermediate district may use those deadlines.

(5) A district offering to enroll nonresident applicants residing within the same intermediate district may limit the number of nonresident pupils it accepts in a grade, school, or program, at its discretion, and may use that limit as the reason for refusal to enroll an applicant.

(6) A nonresident applicant residing within the same intermediate district shall not be granted or refused enrollment based on intellectual, academic, artistic, or other ability, talent, or accomplishment, or lack thereof, or based on a mental or physical disability, except that a district may refuse to admit a nonresident applicant if the applicant does not meet the same criteria, other than residence, that an applicant who is a resident of the district must meet to be accepted for enrollment in a grade or a specialized, magnet, or intra-district choice school or program to which the applicant applies.

(7) A nonresident applicant residing within the same intermediate district shall not be granted or refused enrollment based on age, except that a district may refuse to admit a nonresident applicant applying for a program that is not appropriate for the age of the applicant.

(8) A nonresident applicant residing within the same intermediate district shall not be granted or refused enrollment based upon religion, race, color, national origin, sex, height, weight, marital status, or athletic ability, or, generally, in violation of any state or federal law prohibiting discrimination.

(9) Subject to subsection (10), a district may refuse to enroll a nonresident applicant if any of the following are met:

(a) The applicant is, or has been within the preceding 2 years, suspended from another school.

(b) The applicant, at any time before enrolling under this section, has been expelled from another school.

(c) The applicant, at any time before enrolling under this section, has been convicted of a felony.

(10) If a district has counted a pupil in membership on either the pupil membership count day or the supplemental count day, the district shall not refuse to enroll or refuse to continue to enroll that pupil for a reason specified in subsection (9). This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(11) A district shall continue to allow a pupil who was enrolled in and attended the district under this section in the school year or semester or trimester immediately preceding the school year or semester or trimester in question to enroll in the district until the pupil graduates from high school. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(12) A district shall give preference for enrollment under this section over all other nonresident applicants residing within the same intermediate district to other school-age children who reside in the same household as a pupil described in subsection (11).

(13) If a nonresident pupil was enrolled in and attending school in a district as a nonresident pupil in the 1995-96 school year and continues to be enrolled continuously each school year in that district, the district shall allow that nonresident pupil to continue to enroll in and attend school in the district until high school graduation, without requiring the nonresident pupil to apply for enrollment under this section. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(14) If the number of qualified nonresident applicants eligible for acceptance in a school, grade, or program does not exceed the positions available for nonresident pupils in the school, grade, or program, the school district shall accept for enrollment all of the qualified nonresident applicants eligible for acceptance. If the number of qualified nonresident applicants residing within the same intermediate district eligible for acceptance exceeds the positions available in a grade, school, or program in a district for nonresident pupils,

the district shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders and subject to preferences allowed by this section. The district shall develop and maintain a waiting list based on the order in which nonresident applicants were drawn under this random draw system.

(15) If a district, or the nonresident applicant, requests the district in which a nonresident applicant resides to supply information needed by the district for evaluating the applicant's application for enrollment or for enrolling the applicant, the district of residence shall provide that information on a timely basis.

(16) If a district is subject to a court-ordered desegregation plan, and if the court issues an order prohibiting pupils residing in that district from enrolling in another district or prohibiting pupils residing in another district from enrolling in that district, this section is subject to the court order.

(17) This section does not require a district to provide transportation for a nonresident pupil enrolled in the district under this section or for a resident pupil enrolled in another district under this section. However, at the time a nonresident pupil enrolls in the district, a district shall provide to the pupil's parent or legal guardian information on available transportation to and from the school in which the pupil enrolls.

(18) A district may participate in a cooperative education program with 1 or more other districts or intermediate districts whether or not the district enrolls any nonresidents pursuant to this section.

(19) A district that, pursuant to this section, enrolls a nonresident pupil who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, shall be considered to be the resident district of the pupil for the purpose of providing the pupil with a free appropriate public education. Consistent with state and federal law, that district is responsible for developing and implementing an individualized education plan annually for a nonresident pupil described in this subsection.

(20) If a district does not comply with this section, the district forfeits 5% of the total state school aid allocation to the district under this act.

(21) Upon application by a district, the superintendent may grant a waiver from a specific requirement under this section for not more than 1 year.

388.1705c Enrollment by nonresident applicants residing in district located in a contiguous intermediate district.

Sec. 105c. (1) In order to avoid a penalty under this section, and in order to count a nonresident pupil residing in a district located in a contiguous intermediate district in membership without the approval of the pupil's district of residence, a district shall comply with this section.

(2) Except as otherwise provided in this section, a district shall determine whether or not it will accept applications for enrollment by nonresident applicants residing in a district located in a contiguous intermediate district for the next school year. If the district determines to accept applications for enrollment of a number of nonresidents under this section, beyond those entitled to preference under this section, the district shall use the following procedures for accepting applications from and enrolling nonresidents under this section:

(a) The district shall publish the grades, schools, and special programs, if any, for which enrollment may be available to, and for which applications will be accepted from, nonresident applicants residing in a district located in a contiguous intermediate district.

(b) If the district has a limited number of positions available for nonresidents residing in a district located in a contiguous intermediate district in a grade, school, or program, all of the following apply to accepting applications for and enrollment of nonresidents under this section in that grade, school, or program:

(i) The district shall do all of the following not later than the second Friday in August:

(A) Provide notice to the general public that applications will be taken for a period of at least 15 calendar days but not more than 30 calendar days from nonresidents residing in a district located in a contiguous intermediate district for enrollment in that grade, school, or program. The notice shall identify the dates of the application period and the place and manner for submitting applications.

(B) During the application period under sub-subparagraph (A), accept applications from nonresidents residing in a district located in a contiguous intermediate district for enrollment in that grade, school, or program.

(C) Within 15 calendar days after the end of the application period under sub-subparagraph (A), using the procedures and preferences required under this section, determine which nonresident applicants will be allowed to enroll under this section in that grade, school, or program, using the random draw system required under subsection (14) as necessary, and notify the parent or legal guardian of each nonresident applicant of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment under this section shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(ii) Beginning on the third Monday in August and not later than the end of the first week of school, if any positions become available in a grade, school, or program due to accepted applicants failing to enroll or to more positions being added, the district may enroll nonresident applicants from the waiting list maintained under subsection (14), offering enrollment in the order that applicants appear on the waiting list. If there are still positions available after enrolling all applicants from the waiting list who desire to enroll, the district may not fill those positions until the second semester or trimester enrollment under subsection (3), as provided under that subsection, or until the next school year.

(c) For a grade, school, or program that has an unlimited number of positions available for nonresidents residing in a district located in a contiguous intermediate district, all of the following apply to enrollment of nonresidents in that grade, school, or program under this section:

(i) The district may accept applications for enrollment in that grade, school, or program, and may enroll nonresidents residing in a district located in a contiguous intermediate district in that grade, school, or program, until the end of the first week of school. The district shall provide notice to the general public of the place and manner for submitting applications and, if the district has a limited application period, the notice shall include the dates of the application period. The application period shall be at least a 15-calendar-day period.

(ii) Not later than the end of the first week of school, the district shall notify the parent or legal guardian of each nonresident applicant who is accepted for enrollment under this section that the applicant has been accepted for enrollment in the grade, school, or program and of the date by which the applicant must enroll in the district and the procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(3) If a district determines during the first semester or trimester of a school year that it has positions available for enrollment of a number of nonresidents residing in a district located in a contiguous intermediate district, beyond those entitled to preference under this section, for the second semester or trimester of the school year, the district may accept applications from and enroll nonresidents residing in a district located in a contiguous intermediate district for the second semester or trimester using the following procedures:

(a) Not later than 2 weeks before the end of the first semester or trimester, the district shall publish the grades, schools, and special programs, if any, for which enrollment for the second semester or trimester may be available to, and for which applications will be accepted from, nonresident applicants residing in a district located in a contiguous intermediate district.

(b) During the last 2 weeks of the first semester or trimester, the district shall accept applications from nonresidents residing in a district located in a contiguous intermediate district for enrollment for the second semester or trimester in the available grades, schools, and programs.

(c) By the beginning of the second semester or trimester, using the procedures and preferences required under this section, the district shall determine which nonresident applicants will be allowed to enroll under this section in the district for the second semester or trimester and notify the parent or legal guardian of each nonresident applicant residing in a district located in a contiguous intermediate district of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(4) If deadlines similar to those described in subsection (2) or (3) have been established in an intermediate district, and if those deadlines are not later than the deadlines under subsection (2) or (3), the districts within the intermediate district may use those deadlines.

(5) A district offering to enroll nonresident applicants residing in a district located in a contiguous intermediate district may limit the number of those nonresident pupils it accepts in a grade, school, or program, at its discretion, and may use that limit as the reason for refusal to enroll an applicant under this section.

(6) A nonresident applicant residing in a district located in a contiguous intermediate district shall not be granted or refused enrollment based on intellectual, academic, artistic, or other ability, talent, or accomplishment, or lack thereof, or based on a mental or physical disability, except that a district may refuse to admit a nonresident applicant under this section if the applicant does not meet the same criteria, other than residence, that an applicant who is a resident of the district must meet to be accepted for enrollment in a grade or a specialized, magnet, or intra-district choice school or program to which the applicant applies.

(7) A nonresident applicant residing in a district located in a contiguous intermediate district shall not be granted or refused enrollment under this section based on age, except that a district may refuse to admit a nonresident applicant applying for a program that is not appropriate for the age of the applicant.

(8) A nonresident applicant residing in a district located in a contiguous intermediate district shall not be granted or refused enrollment under this section based upon religion, race, color, national origin, sex, height, weight, marital status, or athletic ability, or, generally, in violation of any state or federal law prohibiting discrimination.

(9) Subject to subsection (10), a district may refuse to enroll a nonresident applicant under this section if any of the following are met:

(a) The applicant is, or has been within the preceding 2 years, suspended from another school.

(b) The applicant, at any time before enrolling under this section, has been expelled from another school.

(c) The applicant, at any time before enrolling under this section, has been convicted of a felony.

(10) If a district has counted a pupil in membership on either the pupil membership count day or the supplemental count day, the district shall not refuse to enroll or refuse to continue to enroll that pupil for a reason specified in subsection (9). This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(11) A district shall continue to allow a pupil who was enrolled in and attended the district under this section in the school year or semester or trimester immediately preceding the school year or semester or trimester in question to enroll in the district until the pupil graduates from high school. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(12) A district shall give preference for enrollment under this section over all other nonresident applicants residing in a district located in a contiguous intermediate district to other school-age children who reside in the same household as a pupil described in subsection (11).

(13) If a nonresident pupil was enrolled in and attending school in a district as a nonresident pupil in the 1995-96 school year and continues to be enrolled continuously each school year in that district, the district shall allow that nonresident pupil to continue to enroll in and attend school in the district until high school graduation, without requiring the nonresident pupil to apply for enrollment under this section. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(14) If the number of qualified nonresident applicants eligible for acceptance under this section in a school, grade, or program does not exceed the positions available for nonresident pupils under this section in the school, grade, or program, the school district shall accept for enrollment all of the qualified nonresident applicants eligible for acceptance. If the number of qualified nonresident applicants residing in a district located in a contiguous intermediate district eligible for acceptance under this section exceeds the positions available in a grade, school, or program in a district for nonresident pupils, the district shall use a random

draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders and subject to preferences allowed by this section. The district shall develop and maintain a waiting list based on the order in which nonresident applicants were drawn under this random draw system.

(15) If a district, or the nonresident applicant, requests the district in which a nonresident applicant resides to supply information needed by the district for evaluating the applicant's application for enrollment or for enrolling the applicant under this section, the district of residence shall provide that information on a timely basis.

(16) If a district is subject to a court-ordered desegregation plan, and if the court issues an order prohibiting pupils residing in that district from enrolling in another district or prohibiting pupils residing in another district from enrolling in that district, this section is subject to the court order.

(17) This section does not require a district to provide transportation for a nonresident pupil enrolled in the district under this section or for a resident pupil enrolled in another district under this section. However, at the time a nonresident pupil enrolls in the district, a district shall provide to the pupil's parent or legal guardian information on available transportation to and from the school in which the pupil enrolls.

(18) A district may participate in a cooperative education program with 1 or more other districts or intermediate districts whether or not the district enrolls any nonresidents pursuant to this section.

(19) In order for a district or intermediate district to enroll pursuant to this section a nonresident pupil who resides in a district located in a contiguous intermediate district and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the enrolling district shall have a written agreement with the resident district of the pupil for the purpose of providing the pupil with a free appropriate public education. The written agreement shall include, but is not limited to, an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil. The written agreement shall address how the agreement shall be amended in the event of significant changes in the costs or level of special education programs or services required by the pupil.

(20) If a district does not comply with this section, the district forfeits 5% of the total state school aid allocation to the district under this act.

(21) Upon application by a district, the superintendent may grant a waiver for the district from a specific requirement under this section for not more than 1 year.

(22) This section is repealed if the final decision of a court of competent jurisdiction holds that any portion of this section is unconstitutional, ineffective, invalid, or in violation of federal law.

(23) As used in this section, "district located in a contiguous intermediate district" means a district located in an intermediate district that is contiguous to the intermediate district in which a pupil's district of residence is located.

(b) In addition to withholding the percentage of state school aid forfeited by the district or intermediate district under subsection (5), the department may assess a fee to the district or intermediate district that committed the violation in an amount not to exceed the actual cost to the department of conducting the investigation and making the reports required under this subsection.

Sec. 166b. (1) This act does not prohibit a parent or legal guardian of a minor who is enrolled in any of grades 1 to 12 in a nonpublic school or who is being home-schooled from also enrolling the minor in a district, public school academy, or intermediate district in any curricular offering that is provided by the district, public school academy, or intermediate district at a public school site and is available to pupils in the minor's grade level or age group, subject to compliance with the same requirements that apply to a full-time pupil's participation in the offering. However, state school aid shall be provided under this act for a minor enrolled as described in this subsection only for curricular offerings that are offered to full-time pupils in the minor's grade level or age group during regularly scheduled school hours.

(2) This act does not prohibit a parent or legal guardian of a minor who is enrolled in any of grades 1 to 12 in a nonpublic school or who resides within the district and is being home-schooled from also enrolling the minor in the district in a curricular offering being provided by the district at the nonpublic school site. However, state school aid shall be provided under this act for a minor enrolled as described in this subsection only if all of the following apply:

(a) Either of the following:

(i) The nonpublic school site is located, or the nonpublic students are educated, within the geographic boundaries of the district.

(ii) If the nonpublic school has submitted a written request to the district in which the nonpublic school is located for the district to provide certain instruction under this subsection for a school year and the district does not agree to provide some or all of that instruction by May 1 immediately preceding that school year or, if the request is submitted after March 1 immediately preceding that school year, within 60 days after the nonpublic school submits the request, the instruction is instead provided by an eligible other district. This subparagraph does not require a nonpublic school to submit more than 1 request to the district in which the nonpublic school is located for that district to provide instruction under this subsection, and does not require a nonpublic school to submit an additional request to the district in which the nonpublic school is located for

that district to provide additional instruction under this subsection beyond the instruction requested in the original request, before having the instruction provided by an eligible other district. A public school academy that is located in the district in which the nonpublic school is located or in an other eligible district also may provide instruction under this subparagraph under the same conditions as an eligible other district. As used in this subparagraph, "eligible other district" means a district that is located in the same intermediate district as the district in which the nonpublic school is located or is located in an intermediate district that is contiguous to that intermediate district.

(b) The nonpublic school is registered with the department as a nonpublic school and meets all state reporting requirements for nonpublic schools.

(c) The instruction is scheduled to occur during the regular school day.

(d) The instruction is provided directly by a certified teacher at the district or public school academy or at an intermediate district.

(e) The curricular offering is also available to full-time pupils in the minor's grade level or age group in the district or public school academy during the regular school day at a public school site.

(f) The curricular offering is restricted to nonessential elective courses for pupils in grades 1 to 12.

(3) A minor enrolled as described in this section is a part-time pupil for purposes of state school aid under this act.

(4) A district that receives a written request to provide instruction under subsection (2) shall reply to the request in writing by May 1 immediately preceding the applicable school year or, if the request is made after March 1 immediately preceding that school year, within 60 days after the nonpublic school submits the request. The written reply shall specify whether the district agrees to provide or does not agree to provide the instruction for each portion of instruction included in the request.

Sec. 265. (1) Payments under section 265a for performance funding shall only be made to a public university that certifies to the state budget director by August 31, 2014 that its board did not adopt an increase in tuition and fee rates for resident undergraduate students after September 1, 2013 for the 2013-2014

academic year and that its board will not adopt an increase in tuition and fee rates for resident undergraduate students for the 2014-2015 academic year that is greater than 3.2%. As used in this subsection:

(a) Subject to subdivision (c), "fee" means any board-authorized fee that will be paid by more than 1/2 of all resident undergraduate students at least once during their enrollment at a public university. A university increasing a fee that applies to a specific subset of students or courses shall provide sufficient information to prove that the increase applied to that subset will not cause the increase in the average amount of board-authorized total tuition and fees paid by resident undergraduate students in the 2014-2015 academic year to exceed the limit established in this subsection.

(b) "Tuition and fee rate" means the average of full-time rates for all undergraduate classes, based on an average of the rates authorized by the university board and actually charged to students, deducting any uniformly-rebated or refunded amounts, for the 2 semesters with the highest levels of full-time equated resident undergraduate enrollment during the academic year.

(c) For purposes of subdivision (a), for a public university that compels resident undergraduate students to be covered by health insurance as a condition to enroll at the university, "fee" includes the annual amount a student is charged for coverage by the university-affiliated group health insurance policy if he or she does not provide proof that he or she is otherwise covered by health insurance. This subdivision does not apply to limited subsets of resident undergraduate students to be covered by health insurance for specific reasons other than general enrollment at the university.

(2) The state budget director shall implement uniform reporting requirements to ensure that a public university receiving a payment under section 265a for performance funding has satisfied the tuition restraint requirements of this section. The state budget director shall have the sole authority to determine if a public university has met the requirements of this section. Information reported by a public university to the state budget director under this subsection shall also be reported to the house and senate appropriations subcommittees on higher education and the house and senate fiscal agencies.

(a) The university participates in reverse transfer agreements described in section 286 with at least 3 Michigan community colleges or has made a good-faith effort to enter into reverse transfer agreements.

(c) The university participates in the Michigan transfer network created as part of the Michigan association of collegiate registrars and admissions officers transfer agreement.

(2) Any performance funding amounts under section 236 that are not paid to a public university because it did not comply with 1 or more requirements under subsection (1) are unappropriated and reappropriated for performance funding to those public universities that meet the requirements under subsection (1), distributed in proportion to their performance funding appropriation amounts under section 236.

(3) The state budget director shall report to the house and senate appropriations subcommittees on higher education and the house and senate fiscal agencies by September 17, 2014, regarding any performance funding amounts that are not paid to a public university because it did not comply with 1 or more requirements under subsection (1) and any reappropriation of funds under subsection (2).

(4) Performance funding amounts described in section 236 are distributed based on the following formula:

(a) Proportional to each university's share of total operations funding appropriated in fiscal year 2010-2011, 50.0%.

(b) Based on weighted undergraduate completions in critical skills areas, 11.1%.

(c) Based on research and development expenditures, for universities classified in Carnegie classifications as doctoral/research universities, research universities (high research activity), or research universities (very high research activity) only, 5.6%.

(d) Based on 6-year graduation rate, total degree completions, and institutional support as a percentage of core expenditures, and students receiving Pell grants, scored against national Carnegie classification peers and

weighted by total undergraduate fiscal year equated students, 33.3%.

(5) For purposes of determining the score of a university under subsection (4)(d), each university is assigned 1 of the following scores:

(a) A university classified as in the top 20%, a score of 3.

(b) A university classified as above national median, a score of 2.

(c) A university classified as improving, a score of 2. It is the intent of the legislature that, beginning in the 2015-2016 state fiscal year, a university classified as improving is assigned a score of 1.

(d) A university that is not included in subdivision (a), (b), or (c), a score of 0.

(6) For purposes of this section, "Carnegie classification" shall mean the basic classification of the university according to the most recent version of the Carnegie classification of institutions of higher education, published by the Carnegie foundation for the advancement of teaching.

ARTICLE IV GENERAL PROVISIONS

388.1896 Excess funds; proration.

Sec. 296. (1) If the maximum amount appropriated under this act from the state school aid fund for a fiscal year exceeds the amount necessary to fully fund allocations under this act from the state school aid fund, that excess amount shall not be expended in that state fiscal year and shall not lapse to the general fund, but instead shall be deposited into the school aid stabilization fund created in section 11a.

(2) If the total maximum amount appropriated under all articles of this act from the state school aid fund and the school aid stabilization fund exceeds the amount available for expenditure from the state school aid fund for that fiscal year, payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, 53a, 56, and 152a shall be made in full. In addition, for districts beginning operations after 1994-95 that qualify for payments under section 22b, payments under section 22b shall be made so that the qualifying districts receive the lesser of an amount equal to the 1994-95 foundation allowance of the district in which the district beginning operations after 1994-95 is located or \$5,500.00. The amount of the payment to be made under section 22b for these qualifying districts shall be as calculated under section 22a, with the balance of the payment under section 22b being subject to the proration otherwise provided under this subsection and subsection (3). If proration is necessary, state payments under each of the other sections of article I from all state funding sources, and state appropriations to community colleges and public universities under articles II and III from the state school aid fund, shall be prorated in the manner prescribed in subsection (3) as necessary to reflect the amount available for expenditure from the state school aid fund for the affected fiscal year. However, if the department of treasury determines that proration will be required under this subsection, or if the department of treasury determines that further proration is required under this subsection after an initial proration has already been made for a fiscal year, the department of treasury shall notify the state budget director, and the state budget director shall notify the legislature at least 30 calendar days or 6 legislative session days, whichever is more, before the department reduces any payments under this act because of the proration. During the 30-calendar-day or 6-legislative-session-day period after that notification by the state budget director, the department shall not reduce any payments under this act because of proration under this subsection. The legislature may prevent proration from occurring by, within the 30-calendar-day or 6-legislative-session-day period after that notification by the state budget director, enacting legislation appropriating additional funds from the general fund, countercyclical budget and economic stabilization fund, state school aid fund balance, or another source to fund the amount of the projected shortfall.

(3) If proration is necessary under subsection (2), the department shall calculate the proration in district and intermediate district payments under article I that is required under subsection (2), and the department of treasury shall calculate the proration in community college and public university payments under articles II and III that is required under subsection (2), as follows:

(a) The department and the department of treasury shall calculate the percentage of total state school aid fund money that is appropriated and allocated under this act for the affected fiscal year for each of the following:

(i) Districts.

(ii) Intermediate districts.

(iii) Entities receiving funding from the state school aid fund under article I other than districts or intermediate districts.

(iv) Community colleges and public universities that receive funding from the state school aid fund.

(b) The department shall recover a percentage of the proration amount required under subsection (2) that is

equal to the percentage calculated under subdivision (a)(i) for districts by reducing payments to districts. This reduction shall be made by calculating an equal dollar amount per pupil as necessary to recover this percentage of the proration amount and reducing each district's total state school aid from state sources, other than payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, 53a, and 152a, by that amount.

(c) The department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(ii) for intermediate districts by reducing payments to intermediate districts. This reduction shall be made by reducing the payments to each intermediate district, other than payments under sections 11f, 11g, 26a, 26b, 51a(2), 51a(12), 53a, 56, and 152a, on an equal percentage basis.

(d) The department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(iii) for entities receiving funding from the state school aid fund under article I other than districts and intermediate districts by reducing payments to these entities. This reduction shall be made by reducing the payments to each of these entities, other than payments under sections 11j, 26a, and 26b, on an equal percentage basis.

(e) The department of treasury shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(iv) for community colleges and public universities that receive funding from the state school aid fund by reducing that portion of the payments under articles II and III to these community colleges and public universities that is from the state school aid fund on an equal percentage basis.
