254.314 Mackinac bridge authority; bridge construction, bond proceeds; property acquisition and condemnation, surveys, easements.

Sec. 4. The authority is hereby authorized and empowered to construct a suitable bridge (as "construct" and "bridge" are above defined) joining and linking together the upper peninsula and the lower peninsula of Michigan and to operate, maintain, improve and repair such bridge. The cost of such construction of the bridge shall be paid from the proceeds of bonds issued hereunder and from any other funds legally available for the payment of such cost: Provided, That nothing herein contained shall be so construed as to permit the authority to incur obligations which would constitute an indebtedness of the state within the meaning of any constitutional prohibition or limitation.

In connection with the construction of the bridge the authority is hereby empowered to purchase or otherwise acquire all property and rights necessary thereto, including but not limited to roads, structures, rights-of-way, franchises, easements and other interests in lands, including lands under water, and the riparian rights of any person, natural or corporate, political entity or political subdivision, and including the right to cut off light, air and access to real property, upon such terms and at such prices as may be fair and reasonable. Whenever it shall become necessary, any such property may be condemned and the authority is hereby empowered in its discretion to condemn any property or interest therein which it may deem necessary for such purpose. In the condemnation of property or interest therein, the authority may proceed under any act applicable thereto, or it may invoke and proceed under the provisions of Act No. 149 of the Public Acts of 1911, as now or hereafter amended, and in so doing shall have all the rights, powers and privileges granted to "public corporations" as defined in that act. The authority may enter on any lands, waters and premises for the purpose of making surveys, soundings and examinations. The state of Michigan hereby expressly grants to the authority, without consideration, the right to use, and full easements and rights-of-way through, across, under and over any lands or property owned by the state or in which the state has any right, title or interest, which may be necessary or convenient to the construction and efficient operation of the bridge.

History: 1952, Act 214, Imd. Eff. Apr. 30, 1952.

254.315 Revenue bonds; purposes; sale or exchange of refunding bonds; contracts for fiscal agents' services; payment of principal, interest, and redemption premiums; serial bonds or term bonds; statement; signatures; negotiability; tax exemption; sale; approval; temporary bonds; recital.

Sec. 5. (1) The authority is hereby authorized by resolution or resolutions of the board to provide for the issuance of revenue bonds for the purpose of paying the cost of the bridge or for the purpose of refunding the bonds, including refunding bonds, or for any combination of such purposes. Such refunding bonds may be either sold at not less than par and accrued interest or may be delivered in exchange for the bonds to be refunded or may be sold in part and exchanged in part and if sold, the proceeds thereof when received, together with other properly available funds sufficient to pay the balance of the principal, interest, and redemption premiums which will be due on the bonds to be refunded, shall be deposited with the paying agent for the bonds to be so refunded and used only for the purpose of making said payments. Any such sale or exchange shall be subject to the approval of the state administrative board. The board may enter into such contracts for fiscal agents' services in connection with the financing of the bridge as may be approved by the state administrative board, or the state treasurer may be used as fiscal agent.

(2) Principal of and interest and redemption premiums on the bonds issued hereunder shall be payable solely from the revenues of the authority, except that said payments may also be made from the proceeds of refunding bonds issued hereunder and capitalized interest may be paid from the proceeds of the bonds. Such bonds may be either serial bonds, or term bonds, or any combination thereof. Any serial bonds shall have annual or semiannual maturities, the first maturity of which shall be payable not more than 10 years from their date. Any term bonds shall be redeemable on any interest payment date at such price or prices and upon such terms and conditions as prescribed by the authorizing resolution of the board, and recited upon the face of the

bonds. The bonds shall mature not more than 50 years from their date, shall be coupon bonds bearing interest at not more than 6% per annum, payable semiannually except as to the first coupon which may be for any number of months not exceeding 10, shall be payable in such medium, shall be in such form and executed in such manner, shall have such privilege of registration as to principal or principal and interest, shall be payable at such place or places within or without the state and shall otherwise have such other details as may be fixed by resolution of the board. Serial bonds may be made redeemable prior to maturity at such price or prices and under such terms and conditions as may be prescribed in the resolution of the board, and recited upon the face of the bonds.

(3) All such bonds shall contain a statement on their face that neither the bonds nor the coupons representing interest thereon constitute an indebtedness of the state of Michigan within the meaning of any constitutional limitations or prohibitions and that neither the authority nor the state is authorized to pay such bonds or interest except from the revenues pledged thereto under the provisions of this act. In case any official whose signature appears on such bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature shall nevertheless be valid and sufficient for all purposes with like effect as though such person had remained in office until delivery. All such bonds are hereby declared to be fully negotiable and to have all of the qualities incident to negotiable instruments under the uniform commercial code, subject only to the provisions for registration of the bonds which may appear therein. Such bonds shall be exempt from all taxation by the state or any of its political subdivisions and shall be sold at public sale after notice at least 5 days before the sale in a publication approved by the department of treasury for the carrying of such notice, but no such sale shall be made at a price that will result in an interest cost of more than 6% per annum. However, all or any part of such bonds may be sold to the United States government or any agency thereof, at private sale, without public offering and the authority is authorized to enter into any agreements or contracts with the United States government or any of its agencies necessary to provide for the financing of the bridge in the manner contemplated by this act. Such bonds may be authorized and may be issued from time to time as needed and subsequent series or issues thereof shall enjoy equal or subordinate status with respect to the pledge of revenues from which they are payable as may be provided in the proceedings authorizing their issuance. Any public sale, or negotiated sale of the bonds with the United States government or any of its agencies, shall be subject to the approval of the state administrative board. Prior to the preparation of definitive bonds, the board may provide for the issuance of temporary bonds with or without coupons, exchangeable for definitive bonds upon the issuance of the latter. The proceedings authorizing the bonds may provide that such bonds shall contain a recital that they are issued pursuant to this act and such recital shall be conclusive evidence of their validity and the regularity of their issuance.

254.316 Mackinac bridge authority; security, trust indenture; authority, duties; annual audit; depository; collateral security; approval.

Sec. 6. In the discretion of the board any series of bonds hereunder may be secured by a trust indenture by and between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside of the state, but no such trust indenture shall convey or mortgage the bridge or any part thereof. Either the resolution providing for the issuance of bonds or such trust indenture may contain such provisions for the security and payment of such bonds and for the protection and enforcement of the rights and remedies of the bondholders as may be deemed advisable by the board, not in violation of the constitution of this state, including specifically covenants setting forth: (a) The duties of the authority in relationship to the construction, maintenance, operation, repair and insurance of the bridge; (b) the pledge of the revenues of the bridge or any part thereof; (c) limitations on the amount of money derived from the operation of the bridge which may be expended for operating, administrative or other specified expenses of the authority; (d) the safeguarding and application of the fund from which the cost of the bridge is to be paid and of the revenues pledged to the payment of the bonds, all of which may be deposited in as received and paid out by such bank or banks as may be therein provided, and none of which need be paid into the state treasury; (e) provision for the employment of consulting engineers to supervise the construction of the bridge and to supervise its maintenance and operation, to which consulting engineers may be delegated all rights and duties with respect thereto deemed advisable by the board and the appointment of which consulting engineers shall be subject to such approval by the purchasers or holders of the bonds as may be provided in such resolution or indenture; (f) rights and remedies of the bondholders and the trustee, if any, and such restrictions thereon as may be considered advisable; and (g) any other and additional provisions ordinarily found in trust agreements securing bond issues protecting and enforcing the rights and security of the holders of the bonds and designed to make the bonds more attractive and negotiable at the best available prices. The resolution or trust indenture shall contain a provision requiring an annual audit of the books and records of the

authority, or any fiscal agent or trustees specified in such resolution or trust indenture, by the auditor general of the state of Michigan: Provided, That the auditor general may select a certified public accountant or accountants to make the audit, and in case the auditor general shall so select, the cost thereof shall be paid by the authority. No deposit shall be made under the provisions of this act in violation of the provisions of section 15 of article 10 of the Michigan constitution.

Any bank or trust company designated as trustee hereunder or designated as depository for any funds hereunder, notwithstanding any provision of law to the contrary, is hereby authorized to pledge as collateral security for moneys deposited in such bank or trust company direct obligations of or obligations the principal and interest of which are unconditionally guaranteed by the United States government or other marketable securities eligible as security for the deposit of trust funds under regulations of the federal reserve board and having a market value (exclusive of accrued interest) at least equal to the amount of such deposit, or in lieu of such collateral security as to all or any part of such deposit, there may be lodged with the trustee, or with the secretary of the authority in the case of moneys deposited or remaining on deposit with the trustee, and remain in full force and effect as security for the moneys deposited in the indemnifying bond or bonds of a surety company or companies qualified as surety for United States government deposits and qualified to transact business in the state of Michigan, in a sum at least equal to the amount of moneys deposited with such bank or trust company, if such indemnity bond or bonds be approved by the state administrative board. All expenses incurred in carrying out such provisions appearing in any trust indenture or bond resolution and the cost of any surety bond furnished as above provided may be treated as part of the cost of maintaining and operating the bridge.

Such resolution or trust indenture may contain such other provisions as the board may deem reasonable and proper for the security of the bondholders, including, but without limitation, covenants prescribing all happenings or occurrences which constitute events of default and the terms and conditions upon which bonds may become or be declared to be due before maturity and as to the rights, liabilities, powers and duties arising upon the breach by the authority of any of its duties or obligations. Any such resolution or trust indenture shall be subject to the approval of the state administrative board.

History: 1952, Act 214, Imd. Eff. Apr. 30, 1952.

254.317 Mackinac bridge authority; bridge construction, tolls, utility lines, lease; appropriation, sale or lease; revenues, priority.

Sec. 7. The authority shall properly construct, maintain, operate, repair, manage and control the bridge, except as hereinafter provided, and shall determine the rates of tolls and charges to be made for the services and facilities afforded thereby and may make and enter into all contracts or agreements deemed necessary or desirable to the performance of its duties and the execution of its powers under this act including, but not limited to, power to permit use of the bridge by public carriers and for telephone, telegraph and other utility lines and to contract for such use and determine the terms and conditions thereof, and the rates to be charged therefor. The authority may in its discretion construct as a part of the bridge telephone, telegraph or other utility lines and mechanical equipment not inconsistent with the appropriate use of the bridge and may lease the right to use the same on such terms and for such considerations as it shall determine. Tolls, fees, rents and charges shall be fixed, imposed and collected for the use of the bridge and its services and facilities so as to make the revenues to be derived from the operation of the bridge fully sufficient, until such time as the principal of and interest on the bonds herein authorized are paid in full (a) pay all expenses of operating, repairing and maintaining the bridge, except to the extent that such expenses may be in whole or in part cared for by the state highway department as hereinafter provided, (b) make possible the prompt payment of principal of and interest on all bonds herein authorized and the making of all payments required to be made for such purpose and for the creation of a reserve therefor and a reserve for contingencies as may be provided in the resolution authorizing or the trust indenture securing the bonds. Such tolls, fees, rents, rates or other charges shall not be subject to supervision or regulation by any bureau, board, commission or agency. When the cost of the bridge, including all principal of and interest on the bonds issued hereunder and all advances made therefor, shall have been fully paid from such tolls, fees, rents, rates and charges, the collection therefor for the use of such bridge shall cease and the bridge shall be maintained and operated by the state as a free bridge.

In the event that the bonds herein authorized are sold prior to December 31, 1953, there shall be appropriated from the funds of the state highway department derived from taxes imposed upon gasoline or other motor fuels and on motor vehicles registered in the state to the Mackinac bridge authority amounts sufficient to pay all expenses of operating, repairing and maintaining the bridge in each fiscal year beginning with the fiscal year in which the bridge shall be opened for traffic, and until the cost of bridge, including all principal of and interest on the bonds issued hereunder and all advances made therefor shall have been fully

paid: Provided, however, That the amount so appropriated to the authority shall not exceed in the aggregate \$417,000.00 in any one fiscal year. The amounts so paid shall be based upon requisitions of the authority subject to the audits hereinbefore described in this act. Inasmuch as the bridge will be an essential part of the public highway system of the state and the operation, repair and maintenance of the bridge will be the performance of an essential governmental function of the state, the provisions of this paragraph shall have the force of contract with the holders of the bonds issued for the bridge, subject only to prior pledges of said funds heretofore made: Provided, That the state of Michigan shall not be liable for any bonds or other obligations issued under the provisions of this act, and the faith and credit of the state shall not be pledged in carrying out any such obligations under this act.

It may be provided in the resolution authorizing or the trust indenture securing the bonds that the authority may not sell, encumber, lease or otherwise dispose of the bridge or any substantial part thereof while the bonds are outstanding, except under such provisions as may be therein provided.

At such time as the cost of the bridge, including all principal of and interest on the bonds issued hereunder and all advances made therefor, shall have been fully paid from such tolls, fees, rents, rates and charges, said bridge shall thereafter be maintained and operated by the state highway commissioner, who is hereby authorized to continue to charge such tolls, fees, rates and charges for the use of said bridge as are deemed necessary by him to reimburse the state highway department for all sums theretofore paid by said department pursuant to the provisions of this act for operation and maintenance of the bridge: Provided, however, That at such time as said reimbursement has been made, said bridge shall thereafter be maintained and operated by the state highway commissioner as a free bridge.

Such grants may consist of money, real or personal property or other things of value. The authority may also accept grants or donations from municipal corporations, counties or other political subdivisions of the state of Michigan and from any other source.
