Act 49 of 2002

History: 2002, Act 49, Imd. Eff. Mar. 14, 2002.

The People of the State of Michigan enact:

484.3201 Short title.

Sec. 1. This act shall be known and may be cited as the "Michigan broadband development authority act".

History: 2002, Act 49, Imd. Eff. Mar. 14, 2002.

No. 2008-4, compiled at MCL 445.2025.

484.3202 Legislative findings.

Sec. 2. The legislature finds that certain areas of this state are not being adequately served with broadband services and that, for the benefit of the people of this state and the improvement of their health, welfare, and living conditions, the improvement of the economic and educational welfare of this state, and the improvement of its public safety and security, it is essential that broadband infrastructure be expanded to provide broadband services throughout this state and that the private sector should be encouraged to invest in the deployment of broadband services and networks and that financing by this authority will encourage broadband investment. This act shall provide a method to assure that economic, technological, and logistical integrated broadband services are provided throughout this state on a nondiscriminatory basis. The provision of affordable broadband services and networks will assure the long-term growth of and the enhancement and delivery of services by the educational, medical, commercial, and governmental entities within this state, including, but not limited to, municipalities and counties, public safety facilities, judicial and criminal facilities, telemedical facilities, schools, colleges, universities, hospitals, libraries, community centers, businesses, nonprofit organizations, and residential properties. To increase the speed and availability at which affordable broadband services become available in this state, it is declared to be a valid public purpose to assist in the financing and refinancing of the private and public sectors' development of a statewide broadband infrastructure. It is further declared to be a valid public purpose for the authority created under this act to issue bonds and notes to provide for financing or refinancing to broadband developers and broadband operators, to make loans and provide joint venture and partnership arrangements subject to section 7(2) and (3) to broadband developers and broadband operators, to enter into contracts for the lease or management of all or portions of the broadband infrastructure, and to enter into joint venture and partnership arrangements and partnerships with persons that will acquire, construct, develop, create, maintain, own, and operate all or portions of the broadband infrastructure. The legislature finds that the authority created and powers conferred by this act constitute a necessary program and serve a necessary public purpose.

(g) To provide operating assistance to make broadband services more affordable to broadband developers, broadband operators, and broadband customers, in conjunction with broadband infrastructure financed by the authority.

(h) To impose and collect charges, fees, or rentals for the services furnished by those portions of the broadband infrastructure financed by the authority under this act.

(i) To set construction, operation, and financing standards for the broadband infrastructure in connection

(m) To enforce financial, operational, warranty, security, lease, and guaranty terms and conditions established under financings by the authority. The authority may under this subsection acquire, construct, develop, lease, create, and maintain all or portions of the broadband infrastructure and acquire from any person interests in real and personal property.

(n) To make and amend bylaws.

(o) To indemnify and procure insurance indemnifying any members of the board of the authority from personal liability by reason of their service as a board member.

(p) To investigate, evaluate, and assess the current broadband infrastructure and the future broadband infrastructure needs of this state and to encourage and participate in aggregation strategies for the broadband services of all public entities and nonprofit corporations in this state to maximize the interconnectivity and efficiencies of the broadband infrastructure.

(2) Notwithstanding any other provision of this act, the authority shall not make loans to, or enter into any joint venture and partnership arrangements or participation with, any governmental entity or nonprofit organization except in connection with the financing or refinancing of development costs for that allocable portion of the broadband infrastructure used or to be used exclusively by governmental entities or nonprofit organizations, including, but not limited to, universities, colleges, hospitals, school districts, public safety agencies, judicial organizations, libraries, cities, townships, and counties. No allocable portion of the broadband infrastructure financed by a loan to a governmental entity or a nonprofit organization shall be used to serve residential, business, or other commercial customers.

(3) Notwithstanding any other provision of this act, except in connection with financing or refinancing under subsection (2) or enforcement procedures authorized under subsection (1)(m), the authority shall acquire real or personal property constituting portions of the broadband infrastructure only in connection with the participation of persons other than governmental entities or nonprofit organizations through joint ventures and partnership arrangements, or other co-ownership arrangements and only if the participation is necessary to assure availability of financing or refinancing derived from the issuance by the authority of bonds or notes, the interest on which is exempt from taxation under the United States internal revenue code, and the financing derived from the tax-exempt bonds or notes is allocated only to those development costs relating to that portion of the broadband infrastructure that is to be used by governmental bodies or nonprofit organizations.

The terms and conditions for the seed capital loans shall be established by the authority. As used in this act, "underserved areas" means geographical areas of this state identified by the authority as having the greatest need for broadband development. In identifying underserved areas, the authority shall consider the area's economic conditions, including, but not limited to, family income, affordability of access, lack of options available, low percentage of residents subscribing, and any other criteria considered important by the authority in determining whether an area is underserved.

(5) As part of an application for financing under this act, the broadband developer and broadband operator shall file with the authority a participation plan for small and minority owned businesses and a communitywide outreach plan to educate the public of the availability of broadband services. The authority shall not approve an application unless a plan is submitted under this subsection.

(6) Priority shall be given to the application of any broadband developer who applies to develop broadband capability within a recovery zone as that term is defined in section 8d of the Michigan renaissance zone act, 1996 PA 376, MCL 125.2688d.

The authority shall credit to the reserve capital account the proceeds of the sale of notes or bonds to the extent provided for in the authorizing resolution of the authority, and any other money that is made available to the authority for the purpose of the reserve capital account.

(2) In the resolution authorizing the issuance of notes or bonds, the authority may establish a capital reserve fund for the payment of the principal and interest of notes or bonds, for the purchase or redemption of the notes or bonds, or for the payment of a redemption premium required to be paid when the notes or bonds are redeemed before maturity. The authority shall not use a capital reserve fund for an optional purchase or optional redemption of notes or bonds if the use would reduce the total of the money in the capital reserve fund to less than the capital reserve fund requirement established for the fund.

(3) In addition to, or in lieu of, depositing money in the reserve capital account or in a capital reserve fund, the authority may obtain or pledge letters of credit, insurance policies, surety bonds, guarantees, or other security arrangements if the security arrangements are approved by the state treasurer. The amount available under letters of credit, insurance policies, surety bonds, guarantees, or other security arrangements pledged to the capital reserve fund shall be credited toward the capital reserve fund requirement for the fund.

(4) Income or interest earned by the reserve capital account may be transferred by the authority to other funds or accounts of the authority.

(5) Income or interest earned by a capital reserve fund may be transferred by the authority to other funds or accounts of the authority to the extent that the transfer does not reduce the total of the amount of money and security arrangements authorized under subsection (3) in the fund below the capital reserve fund requirement for that fund.

484.3209 Capital reserve fund; amount; deficiency; restoration; liability of state for notes or bonds.

Sec. 9. (1) The authority shall accumulate in a capital reserve fund an amount equal to the capital reserve fund requirement for that fund. If at any time the amount of a capital reserve fund falls below the capital reserve fund requirement for that fund, the authority shall transfer from the reserve capital account to the capital reserve fund an amount equal to the capital reserve fund requirement. If a deficiency exists in more than 1 capital reserve fund and the amount in the reserve capital account is not sufficient to fully restore the capital reserve funds, the money in the reserve capital account shall be allocated between the deficient capital reserve funds pro rata according to the amounts of the deficiencies. If at any time the reserve capital account has been exhausted and the amount of the capital reserve fund is insufficient to meet the capital reserve fund requirement, the authority on or before September 1 shall certify to the governor the amount necessary to restore the capital reserve fund to an amount equal to the capital reserve fund requirement for that fund. The governor shall include in his or her annual budget the amount certified under this subsection by the authority.

The refunding bonds shall be sold and the proceeds applied to the purchase, redemption, or payment of the bonds to be refunded. The authority may issue instruments separate from the obligations described in this subsection that establish a contractual right in the holder of the instrument to require mandatory tender for purchase of the obligations to which the instrument applies for a period of time and subject to provisions as the authority may determine.
