Bonds must not be committed for any project under this act until the requirements under section 3(1) have been satisfied.

(2) After the payment of interest and principal on bonds issued under this act and the appropriation for costs of administration of the fund as provided under this act, fund revenue is annually appropriated as follows:

(a) The first \$5,000,000.00 for a forest roads program. Forest roads program funds must be distributed each fiscal year to each qualified county in a percentage amount equal to the same percentage amount that the number of acres of commercial forest, national park, and national lakeshore land in each qualified county bears to the total number of acres of commercial forest, national park, and national lakeshore land in all qualified counties in this state. Revenue distributed under this subdivision must be used for the construction or reconstruction of roads.

(b) The next \$2,500,000.00 of the fund must be distributed each fiscal year for improvements within rural counties to roads and streets that are eligible for federal aid and are located inside the boundaries of an urban area or an urbanized area as determined by the most recent federal decennial census and as adjusted by the department.

(3) Of the balance remaining after funding projects under subsection (2), projects must be funded in the categories described in section 9 based on the following percentages:

The office of economic development shall use geographic distribution as a grant selection criterion for projects described in section 9(1)(b). An eligible city or village may apply for a grant for a project described in section 9(1)(b) in consecutive fiscal years. For the fiscal years ending September 30, 2020 and September 30, 2021 only, the allocation made under this subdivision must be reduced by an additional \$13,000,000.00.

(b) 25% for projects to reduce congestion on county primary and city major streets within urban counties including advanced traffic management systems. The funds must be distributed to counties with populations

in excess of 400,000 in accordance with the following formula:

<u>Population</u>	<u>Percentage of Funds</u>
1,750,000 or more	16%
1,000,000 to 1,749,999	40%
700,000 to 999,999	20%
400,000 to 699,999	24%

When 2 or more counties occupy the same category, the funds must be divided equally.

Projects funded under this category must be used for the widening of county primary roads or city major streets or for advanced traffic management systems in eligible counties.

(c) 25% for projects within rural counties. These revenues must be distributed for the improvement of rural primary roads in rural counties and major streets in cities and villages with a population of 5,000 or less that are located outside the boundaries of an urban area or an urbanized area as determined by the most recent federal decennial census and as adjusted by the department. The commission shall allocate funds distributed under this subdivision to the regional rural task force areas described in section 12a in the same proportion that the rural primary mileage of the regional rural task force area bears to the total rural primary mileage of all counties. Each rural county must be credited with an allocation in the proportion that the county's rural primary mileage is to the total rural primary mileage of those rural counties within the same regional rural task force area. Projects funded under this subdivision must be limited to upgrading rural primary roads and major streets to create an all-season road network.

(1) The urban task force that represents the majority of the communities in the urban area of each county shall select and designate for eligibility projects for funding under section 11(3)(b) within their respective allocations. One nonvoting member of each task force shall be a designee of and represent the administrator. In the case of widening projects only, the task forces shall designate projects for eligibility as follows:

Projects may also be for the construction of new roads with 3 or more travel lanes where the projected traffic count exceeds 10,000 vehicles per day based on an engineering study approved by the department.

(2) If any task force fails to submit sufficient qualified projects to obligate its allocation by July 1 of any fiscal year, those funds shall be made available to the remaining urban task forces in the same proportion as the original allocation.

(3) The individual urban task forces shall propose project result evaluation criteria for all projects to the administrator and the commission for review and comment.

The regional rural task force areas shall coincide with the boundaries of the 14 state planning and development regions as configured on January 1, 1990. In a regional rural task force area that is composed of 5 or more counties, subtask forces of 2 or more of the counties may be formed with the approval of the task force.

(2) The regional rural task force shall be composed of a representative of each county road commission within the regional area plus an equal number of representatives from incorporated cities and villages with a population of 5,000 or less within the regional area, and a representative selected by the administrator. Projects submitted to the administrator for funding under section 11(3)(c) shall be based on the following:
