

ANIMAL INDUSTRY ACT (EXCERPT)
Act 466 of 1988

***** 287.730b THIS SECTION IS REPEALED BY ACT 132 OF 2019 EFFECTIVE FEBRUARY 19, 2020

287.730b Privately owned cervidae; intrastate movement.

Sec. 30b. (1) All live privately owned cervids moving from 1 premises to another premises within this state shall be officially identified with an identification approved by the director.

(2) All live privately owned cervids 6 months of age or older moving from 1 premises to another premises within this state, except those consigned directly to a state or federally inspected slaughter facility premises, shall comply with 1 of the following:

(a) Originate directly from an official tuberculosis accredited, qualified, or monitored herd as outlined in bovine tuberculosis eradication: uniform methods and rules, effective January 22, 1999, approved by veterinary services of the animal and plant health inspection service of the United States department of agriculture, and all amendments to those publications thereafter adopted pursuant to rules that the director may promulgate, and be accompanied by a copy of the current official letter from the Michigan department of agriculture verifying herd status.

(b) Originate directly from a herd that has received an official negative tuberculosis test of all privately owned cervids 12 months of age or older and all cattle and goats 6 months of age and older in contact with the herd within 24 months before movement.

(c) Originate directly from a herd that has received an official negative tuberculosis test of all privately owned cervids 12 months of age or older and all cattle and goats 6 months of age or older in contact with the herd more than 24 months before movement, receive an individual negative official test for tuberculosis within 90 days before movement, and be accompanied by a copy of the official tests for tuberculosis verifying that testing.

(d) Be isolated from all other animals until it receives 2 official negative tuberculosis tests conducted not less than 90 days apart, with the first test conducted not more than 120 days before movement.

(3) All live privately owned cervids less than 6 months of age moving from 1 premises to another premises within this state, except those consigned directly to a state or federally inspected slaughter facility premises, must comply with 1 of the following:

(a) Originate directly from an official tuberculosis accredited, qualified, or monitored herd as outlined in bovine tuberculosis eradication: uniform methods and rules, effective January 22, 1999, approved by veterinary services of the animal and plant health inspection service of the United States department of agriculture, and all amendments to those publications thereafter adopted pursuant to rules that the director may promulgate, be identified by an official identification, and be accompanied by a copy of the current official letter from the Michigan department of agriculture verifying the herd status.

(b) Originate directly from a herd that has received an official negative tuberculosis test of all privately owned cervids 12 months of age or older and all cattle and goats 6 months of age and older in contact with the herd within 24 months before movement.

(c) Originate directly from a herd that has received an official negative tuberculosis test of all privately owned cervids 12 months of age or older and all cattle and goats 6 months of age or older in contact with the herd more than 24 months before movement and be accompanied by an official permit for movement of privately owned cervids less than 6 months of age within Michigan or an official interstate health certificate issued by an accredited veterinarian, and remain at the destination stated on the permit or official interstate health certificate until it receives an official negative tuberculosis test when it reaches 6 months of age, but not more than 8 months of age. For purposes of this section, the age of the privately owned cervids shall be determined by the age placed on the official permit for movement of privately owned cervids less than 6 months of age in Michigan or the official interstate health certificate issued by the accredited veterinarian. A copy of the official test for tuberculosis and a copy of the official permit for movement of privately owned cervids less than 6 months of age within Michigan or the official interstate health certificate shall be forwarded to the department within 10 days following completion of the testing.

(4) Privately owned cervids with a response other than negative to any tuberculosis test are not eligible for intrastate movement without permission from the director.

(5) Privately owned cervids known to be affected with or exposed to tuberculosis shall not be moved intrastate without permission from the director.

(6) The department shall keep a current database on privately owned cervids premises in this state. The database shall include the owner's name, the owner's current address, location of privately owned cervids,

species of privately owned cervids at the premises, and the approximate number of privately owned cervids at the premises.
