The annual loan activity application shall be submitted in a format prescribed by the state treasurer and shall provide the taxable value, debt service, and any other information necessary to determine the proper required millage levy required under this act. The application shall contain a resolution passed by the local school board authorizing a designated school district official to complete all necessary documents to obtain a loan from the revolving loan fund or for making repayment to the revolving loan fund for the year.

(2) If a school district is eligible to borrow for debt service on qualified bonds, the school district shall file a draw request with the state treasurer not less than 30 days before each date on which the school district owes the debt service. The draw request shall include all of the following:

(a) A statement of the debt service owed in the next 6 months.

(5) When a school district's current computed millage levy is sufficient to pay principal and interest on its qualified bonds, a school district shall notify the state treasurer in writing of no need to borrow no later than 30 days before the date set for payment of the qualified bonds.

(6) Within 30 days after receipt of the annual activity application under subsection (1), the state treasurer shall send an invoice to the school district for the amount of repayment the school district owes on its outstanding qualified loans, which shall be the difference between the debt service payable or paid to bondholders and the funds on hand at the school district, less a reasonable amount of funds on hand, as determined by the state treasurer, to cover minimum balance requirements or potential tax disputes. The school district shall remit the amount specified in the invoice within 30 days after the dated date of the invoice.
