THE INSURANCE CODE OF 1956 (EXCERPT) Act 218 of 1956

500.3406q Off-label use of approved drug; coverage; conditions; compliance; use of copayment, deductible, sanction, or utilization control; limitation; definitions.

Sec. 3406q.

- (1) An insurer that delivers, issues for delivery, or renews in this state a health insurance policy that provides pharmaceutical coverage shall provide coverage for an off-label use of a United States Food and Drug Administration approved drug and the reasonable cost of supplies medically necessary to administer the drug.
 - (2) Coverage for a drug under subsection (1) applies if all of the following conditions are met:
 - (a) The drug is approved by the United States Food and Drug Administration.
 - (b) The drug is prescribed by an allopathic or osteopathic physician for the treatment of either of the following:
- (i) A life-threatening condition if the drug is medically necessary to treat the condition and the drug is on the plan formulary or accessible through the insurer's formulary procedures.
- (ii) A chronic and seriously debilitating condition if the drug is medically necessary to treat the condition and the drug is on the plan formulary or accessible through the insurer's formulary procedures.
 - (c) The drug has been recognized for treatment for the condition for which it is prescribed by 1 of the following:
 - (i) The American Medical Association drug evaluations.
 - (ii) The American Hospital Formulary Service drug information.
- (iii) The United States Pharmacopoeia Dispensing Information, Volume 1, "Drug Information for the Health Care Professional".
- (iv) Two articles from major peer-reviewed medical journals that present data supporting the proposed off-label use or uses as generally safe and effective unless there is clear and convincing contradictory evidence presented in a major peer-reviewed medical journal.
- (3) Upon request, the prescribing allopathic or osteopathic physician shall supply to the insurer documentation supporting compliance with subsection (2).
- (4) This section does not prohibit the use of a copayment, deductible, sanction, or mechanism for appropriately controlling the utilization of a drug that is prescribed for a use different from the use for which the drug has been approved by the United States Food and Drug Administration. This may include prior approval or a drug utilization review program. Any copayment, deductible, sanction, prior approval, drug utilization review program, or mechanism described in this subsection must not be more restrictive than for prescription coverage generally.
 - (5) As used in this section:
- (a) "Chronic and seriously debilitating" means a disease or condition that requires ongoing treatment to maintain remission or prevent deterioration and that causes significant long-term morbidity.
- (b) "Life-threatening" means a disease or condition as to which the likelihood of death is high unless the course of the disease is interrupted or that has a potentially fatal outcome and as to which the end point of clinical intervention is survival.
- (c) "Off-label" means the use of a drug for clinical indications other than those stated in the labeling approved by the United States Food and Drug Administration.
