In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 612 of part B of the individuals with disabilities education act, 20 USC 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.

All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. For the purposes of this section and section 6a, for a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, a pupil's participation in the cyber school's educational program is considered regular daily attendance. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, public school academy, university school, or intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil shall be counted in membership in the pupil's educating district or districts. An individual pupil shall not be counted for more than a total of 1.0 full-time equated membership.

(b) If a pupil is educated in a district other than the pupil's district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil's district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the approval of the pupil's district of residence to count the pupil in membership, the pupil shall not be counted in membership in any district.

(c) A special education pupil educated by the intermediate district shall be counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, shall be counted in membership in the district or intermediate district approved by the department to operate the program.

(e) A pupil enrolled in the Michigan schools for the deaf and blind shall be counted in membership in the pupil's intermediate district of residence.

(f) A pupil enrolled in a career and technical education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established pursuant to section 690 of the revised school code, MCL 380.690, shall be counted only in the pupil's district of residence.

(g) A pupil enrolled in a university school shall be counted in membership in the university school.

(h) A pupil enrolled in a public school academy shall be counted in membership in the public school academy.

(i) For a new district, university school, or public school academy beginning its operation after December 31, 1994, membership for the first 2 full or partial fiscal years of operation shall be determined as follows:

(i) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by

2.

(ii) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership shall exclude from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) In a district, public school academy, university school, or intermediate district operating an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance on a pupil membership count day, shall be counted.

(l) Pupils to be counted in membership shall be not less than 5 years of age on December 1 and less than 20 years of age on September 1 of the school year except as follows:

(i) A special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department, who does not have a high school diploma, and who is less than 26 years of age as of September 1 of the current school year shall be counted in membership.

(ii) A pupil who is determined by the department to meet all of the following may be counted in membership:

(A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating homeless pupils and that is located in a city with a population of more than 750,000.

(B) Had dropped out of school for more than 1 year and has re-entered school.

(C) Is less than 22 years of age as of September 1 of the current school year.

(m) An individual who has obtained a high school diploma shall not be counted in membership. An individual who has obtained a general educational development (G.E.D.) certificate shall not be counted in membership. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the Michigan strategic fund or the department of energy, labor, and economic growth, or participating in any successor of either of those 2 programs, shall not be counted in membership.

(n) If a pupil counted in membership in a public school academy is also educated by a district or intermediate district as part of a cooperative education program, the pupil shall be counted in membership only in the public school academy unless a written agreement signed by all parties designates the party or parties in which the pupil shall be counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district shall be included in the full-time equated membership determination under subdivision (q). However, for pupils receiving instruction in both a public school academy and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(i) If the public school academy provides instruction for at least 1/2 of the class hours specified in subdivision (q), the public school academy shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the district or intermediate district providing the remainder of the hours of instruction.

(ii) If the public school academy provides instruction for less than 1/2 of the class hours specified in subdivision (q), the district or intermediate district providing the remainder of the hours of instruction shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the public school academy.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program shall not be counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships shall be consistent with section 101(3). In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution, a pupil shall not be considered to be less than a full-time equated pupil solely because of the effect

of his or her postsecondary enrollment, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Except as otherwise provided in this subdivision, full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12.

(s) For a district, university school, or public school academy that has pupils enrolled in a grade level that was not offered by the district, university school, or public school academy in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year, as determined by the department. Membership shall be calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours specified in subdivision (q) for full-time equivalency. For the purposes of this subdivision, a district shall be considered to be providing appropriate instruction if all of the following are met:

(i) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.

(ii) The district provides instructional materials, resources, and supplies, except computers, that are comparable to those otherwise provided in the district's alternative education program.

(iii) Course content is comparable to that in the district's alternative education program.

(iv) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) A pupil enrolled in an alternative or disciplinary education program described in section 25 shall be counted in membership in the district or public school academy that is educating the pupil.

(w) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district within 45 days after the pupil membership count day, the department shall adjust the district's pupil count for the pupil membership count day to include the pupil in the count.

(x) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .75 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .25 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(y) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils and the district has 4.5 or fewer pupils per square mile, as determined by the department, and, beginning in 2007-2008, if the district does not receive funding under section 22d(2), the district's membership shall be considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. The membership figure calculated under this subdivision is the greater of the following:

(i) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.

(ii) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(z) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district in which a former pupil of the public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district receives the same amount of membership aid for the pupil as if the pupil were counted in the district on the supplemental count day of the preceding school year.

(aa) Full-time equated memberships for preprimary-aged special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan administrative code shall be determined by dividing the number of class hours scheduled and provided per year by 450. Full-time equated memberships for preprimary-aged special education pupils who are not enrolled in kindergarten but are receiving nonclassroom services under R 340.1755 of the Michigan administrative code shall be determined by dividing the number of hours of service scheduled and provided per year per pupil by 180.

(bb) A pupil of a district that begins its school year after Labor day who is enrolled in an intermediate district program that begins before Labor day shall not be considered to be less than a full-time pupil solely due to instructional time scheduled but not attended by the pupil before Labor day.

(cc) For the first year in which a pupil is counted in membership on the pupil membership count day in a middle college program described in section 64, the membership is the average of the full-time equated membership on the pupil membership count day and on the supplemental count day for the current school year, as determined by the department. If a pupil was counted by the operating district on the immediately preceding supplemental count day, the pupil shall be excluded from the district's immediately preceding supplemental count for purposes of determining the district's membership.

(dd) A district that educates a pupil who attends a United States Olympic education center may count the pupil in membership regardless of whether or not the pupil is a resident of this state.

(ee) A pupil enrolled in a district other than the pupil's district of residence pursuant to section 1148(2) of the revised school code, MCL 380.1148, shall be counted in the educating district.

(5) "Public school academy" means that term as defined in the revised school code.

(6) "Pupil" means a person in membership in a public school. A district must have the approval of the pupil's district of residence to count the pupil in membership, except approval by the pupil's district of residence is not required for any of the following:

(a) A nonpublic part-time pupil enrolled in grades 1 to 12 in accordance with section 166b.

(b) A pupil receiving 1/2 or less of his or her instruction in a district other than the pupil's district of residence.

(c) A pupil enrolled in a public school academy or university school.

(d) A pupil enrolled in a district other than the pupil's district of residence under an intermediate district schools of choice pilot program as described in section 91a or former section 91 if the intermediate district and its constituent districts have been exempted from section 105.

(e) A pupil enrolled in a district other than the pupil's district of residence if the pupil is enrolled in accordance with section 105 or 105c.

(f) A pupil who has made an official written complaint or whose parent or legal guardian has made an official written complaint to law enforcement officials and to school officials of the pupil's district of residence that the pupil has been the victim of a criminal sexual assault or other serious assault, if the official complaint either indicates that the assault occurred at school or that the assault was committed by 1 or more other pupils enrolled in the school the pupil would otherwise attend in the district of residence or by an employee of the district of residence. Money appropriated under this section from the general fund shall be expended to fund the purposes of this act before the expenditure of money appropriated under this section from the state school aid fund. If the maximum amount appropriated under this section from the state school aid fund for a fiscal year exceeds the amount necessary to fully fund allocations under this act from the state school aid fund, that excess amount shall not be expended in that state fiscal year and shall not lapse to the general fund, but instead shall be deposited into the school aid stabilization fund created in section 11a. For 2009-2010 only, if the department determines before bookclosing for the 2009-2010 state fiscal year that the maximum amount appropriated under this section from the state school aid fund for 2009-2010 exceeds the amount necessary to fully fund allocations under this act from the state school aid fund for 2009-2010 and that state support for elementary and secondary education for 2009-2010 will fall below the level of support needed to comply with the maintenance of effort provisions under title XIV of the American recovery and reinvestment act of 2009, Public Law 111-5, then there is appropriated for 2009-2010 from the school aid stabilization fund an amount equal to \$30,000,000.00 or the amount that the department determines is necessary for the state support for elementary and secondary education to meet the level of support needed to comply with the maintenance of effort provisions under title XIV of the American recovery and reinvestment act of 2009, Public Law 111-5, whichever is greater. The department shall use any funds appropriated under this subsection as follows:

(a) First, to allocate \$10,000,000.00 to provide funding to each intermediate district in an amount equal to the product of 14.75% multiplied by the amount of funding allocated to that intermediate district under section 81 for 2009-2010 under 2010 PA 110.

(b) Second, to allocate the amount necessary, estimated at \$10,000,000.00, to provide funding under this subdivision to districts for which the amount of per-pupil funding calculated and allocated under section 11p(2) is less than \$154.00. The payment to a district under this subdivision is an amount equal to the difference between \$154.00 and the per-pupil funding amount calculated and allocated under section 11p(2) for the district, multiplied by the district's 2010-2011 membership used for the October 2010 payment.

(c) Third, to allocate any remaining funds to reduce the amount of the per-pupil reduction under section 11d(1) for 2009-2010.

(3) If the maximum amount appropriated under this section from the state school aid fund and the school aid stabilization fund for a fiscal year exceeds the amount available for expenditure from the state school aid fund for that fiscal year, payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, 53a, 56, and 152a shall be made in full. In addition, for districts beginning operations after 1994-95 that qualify for payments under section 22b, payments under section 22b shall be made so that the qualifying districts receive the lesser of an amount equal to the 1994-95 foundation allowance of the district in which the district beginning operations after 1994-95 is located or \$5,500.00. The amount of the payment to be made under section 22b for these qualifying districts shall be as calculated under section 22a, with the balance of the payment under section 22b being subject to the proration otherwise provided under this subsection and subsection (4). If proration is necessary, state payments under each of the other sections of this act from all state funding sources shall be prorated in the manner prescribed in subsection (4) as necessary to reflect the amount available for expenditure from the state school aid fund for the affected fiscal year. However, if the department of treasury determines that proration will be required under this subsection, or if the department of treasury determines that further proration is required under this subsection after an initial proration has already been made for a fiscal year, the department of treasury shall notify the state budget director, and the state budget director shall notify the legislature at least 30 calendar days or 6 legislative session days, whichever is more, before the department reduces any payments under this act because of the proration. During the 30 calendar day or 6 legislative session day period after that notification by the state budget director, the department shall not reduce any payments under this act because of proration under this subsection. The legislature may prevent proration from occurring by, within the 30 calendar day or 6 legislative session day period after that notification by the state budget director, enacting legislation appropriating additional funds from the general fund, countercyclical budget and economic stabilization fund, state school aid fund balance, or another source to fund the amount of the projected shortfall.

(4) If proration is necessary under subsection (3), the department shall calculate the proration in district and intermediate district payments that is required under subsection (3) as follows:

(a) The department shall calculate the percentage of total state school aid allocated under this act for the affected fiscal year for each of the following:

(i) Districts.

(ii) Intermediate districts.

(iii) Entities other than districts or intermediate districts.

(b) The department shall recover a percentage of the proration amount required under subsection (3) that is equal to the percentage calculated under subdivision (a)(i) for districts by reducing payments to districts. This reduction shall be made by calculating an equal dollar amount per pupil as necessary to recover this percentage of the proration amount and reducing each district's total state school aid from state sources, other than payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, 53a, and 152a, by that amount.

(c) The department shall recover a percentage of the proration amount required under subsection (3) that is equal to the percentage calculated under subdivision (a)(ii) for intermediate districts by reducing payments to intermediate districts. This reduction shall be made by reducing the payments to each intermediate district, other than payments under sections 11f, 11g, 26a, 26b, 51a(2), 51a(12), 53a, 56, and 152a, on an equal percentage basis.

(d) The department shall recover a percentage of the proration amount required under subsection (3) that is equal to the percentage calculated under subdivision (a)(iii) for entities other than districts and intermediate districts by reducing payments to these entities. This reduction shall be made by reducing the payments to each of these entities, other than payments under sections 11j, 26a, and 26b, on an equal percentage basis.

(5) Any general fund allocations under this act that are not expended by the end of the state fiscal year are transferred to the school aid stabilization fund created under section 11a.

Sec. 11f. (1) From the appropriations under section 11, there is allocated for the purposes of this section an amount not to exceed \$32,000,000.00 for the fiscal year ending September 30, 2008. Payments under this section will cease after September 30, 2008. These allocations are for paying the amounts described in subsection (4) to districts and intermediate districts, other than those receiving a lump sum payment under subsection (2), that were not plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492 and that, on or before March 2, 1998, submitted to the state treasurer a board resolution waiving any right or interest the district or intermediate district has or may have in any claim or litigation based on or arising out of any claim or potential claim through September 30, 1997 that is or was similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan. The waiver resolution shall be in form and substance as required under subsection (7). The state treasurer is authorized to accept such a waiver resolution on behalf of this state. The amounts described in this subsection represent offers of settlement and compromise of any claim or claims that were or could

have been asserted by these districts and intermediate districts, as described in this subsection.

(2) In addition to any other money appropriated under this act, there was appropriated from the state school aid fund an amount not to exceed \$1,700,000.00 for the fiscal year ending September 30, 1999. This appropriation was for paying the amounts described in this subsection to districts and intermediate districts that were not plaintiffs in the consolidated cases known as Durant v State of Michigan; that, on or before March 2, 1998, submitted to the state treasurer a board resolution waiving any right or interest the district or intermediate district had or may have had in any claim or litigation based on or arising out of any claim or potential claim through September 30, 1997 that is or was similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan; and for which the total amount listed in section 11h and paid under this section was less than \$75,000.00. For a district or intermediate district qualifying for a payment under this subsection, the entire amount listed for the district or intermediate district in section 11h was paid in a lump sum on November 15, 1998 or on the next business day following that date. The amounts paid under this subsection represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this subsection.

(3) This section does not create any obligation or liability of this state to any district or intermediate district that does not submit a waiver resolution described in this section. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, are not intended to admit liability or waive any defense that is or would be available to this state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district.

(4) The amount paid each fiscal year to each district or intermediate district under subsection (1) shall be 1/20 of the total amount listed in section 11h for each listed district or intermediate district that qualifies for a payment under subsection (1). The amounts listed in section 11h and paid in part under this subsection and in a lump sum under subsection (2) are offers of settlement and compromise to each of these districts or intermediate districts to resolve, in their entirety, any claim or claims that these districts or intermediate districts may have asserted for violations of section 29 of article IX of the state constitution of 1963 through September 30, 1997, which claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, shall not be construed to constitute an admission of liability to the districts or intermediate districts listed in section 11h or a waiver of any defense that is or would have been available to the state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district.

(5) The entire amount of each payment under subsection (1) each fiscal year shall be paid on November 15 of the applicable fiscal year or on the next business day following that date.

(6) Funds paid to a district or intermediate district under this section shall be used only for textbooks, electronic instructional material, software, technology, infrastructure or infrastructure improvements, school buses, school security, training for technology, an early intervening program described in subsection (8), or to pay debt service on voter-approved bonds issued by the district or intermediate district before the effective date of this section. For intermediate districts only, funds paid under this section may also be used for other nonrecurring instructional expenditures including, but not limited to, nonrecurring instructional expenditures for vocational education, or for debt service for acquisition of technology for academic support services. Funds received by an intermediate district under this section may be used for projects conducted for the benefit of its constituent districts at the discretion of the intermediate board. To the extent payments under this section are used by a district or intermediate district to pay debt service on debt payable from millage revenues, and to the extent permitted by law, the district or intermediate district may make a corresponding reduction in the number of mills levied for that debt service.

(7) The resolution to be adopted and submitted by a district or intermediate district under this section and section 11g shall read as follows:

"Whereas, the board of \_\_\_\_\_ (name of district or intermediate district) desires to settle and compromise, in their entirety, any claim or claims that the district (or intermediate district) has or had for violations of section 29 of article IX of the state constitution of 1963, which claim or claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492.

Whereas, the district (or intermediate district) agrees to settle and compromise these claims for the consideration described in sections 11f and 11g of the state school aid act of 1979, 1979 PA 94, MCL 388.1611f and 388.1611g, and in the amount specified for the district (or intermediate district) in section 11h of the state school aid act of 1979, 1979 PA 94, MCL 388.1611h.

Whereas, the board of \_\_\_\_\_ (name of district or intermediate district) is authorized to adopt this resolution.

Now, therefore, be it resolved as follows:

1. The board of \_\_\_\_\_ (name of district or intermediate district) waives any right or interest it may have in any claim or potential claim through September 30, 1997 relating to the amount of funding the district or intermediate district is, or may have been, entitled to receive under the state school aid act of 1979, 1979 PA 94, MCL 388.1601 to 388.1772, or any other source of state funding, by reason of the application of section 29 of article IX of the state constitution of 1963, which claims or potential claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492.

2. The board of \_\_\_\_\_ (name of district or intermediate district) directs its secretary to submit a certified copy of this resolution to the state treasurer no later than 5 p.m. eastern standard time on March 2, 1998, and agrees that it will not take any action to amend or rescind this resolution.

3. The board of \_\_\_\_\_ (name of district or intermediate district) expressly agrees and understands that, if it takes any action to amend or rescind this resolution, the state, its agencies, employees, and agents shall have available to them any privilege, immunity, and/or defense that would otherwise have been available had the claims or potential claims been actually litigated in any forum.

4. This resolution is contingent on continued payments by the state each fiscal year as determined under sections 11f and 11g of the state school aid act of 1979, 1979 PA 94, MCL 388.1611f and 388.1611g. However, this resolution shall be an irrevocable waiver of any claim to amounts actually received by the school district or intermediate school district under sections 11f and 11g of the state school aid act of 1979."

(8) An early intervening program that uses funds received under this section shall meet either or both of the following:

(a) Shall monitor individual pupil learning for pupils in grades K to 3 and provide specific support or learning strategies to pupils in grades K to 3 as early as possible in order to reduce the need for special education placement. The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.

(b) Shall provide early intervening strategies for pupils in grades K to 3 using school-wide systems of academic and behavioral supports and shall be scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. A school-wide system of academic and behavioral support should be based on a support team available to the classroom teachers. The members of this team could include the principal, special education staff, reading teachers, and other appropriate personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child.

A district or intermediate district may pledge and assign to the Michigan municipal bond authority, as security for the bonds, all of the payments appropriated to it under section 11g but may not otherwise pledge or assign those payments. The purpose of this section is to create full and complete additional and alternate methods for the exercise of existing powers, and the powers conferred by this section are not affected or limited by any other statute or by any charter or incorporating document.

The lien of such a pledge is valid and binding against a party having a claim of any kind in tort, contract, or otherwise against the district or intermediate district, irrespective of whether that party has notice of the pledge. The resolution or any other instrument by which a pledge is created is not required to be filed or recorded in order to establish and perfect a lien or security interest in the property pledged.

(6) Bonds issued under this section are not in any way a debt or liability of this state; do not create or constitute any indebtedness, liability, or obligation of this state; are not and do not constitute a pledge of the faith and credit of this state; and shall contain on their face a statement to that effect.

### **388.1611p Allocations from federal funding; allocation of remaining or unused money; eligibility; compliance with reporting requirements.**

Sec. 11p. (1) In addition to the funds appropriated under section 11, for 2010-2011 only, there is appropriated the amount of the federal funding awarded to this state under section 101 of title I of Public Law 111-226, estimated at \$316,270,300.00, solely for the purposes identified in that section of federal law, to be distributed by funding those portions of the primary funding formulae that are calculated and allocated under this section.

(2) From the federal funding appropriated under subsection (1), there is allocated an amount not to exceed \$311,770,300.00 to provide to each district or public school academy for 2010-2011 only a 1-time portion of per-pupil funding to be allocated under this subsection. The department shall calculate and allocate the 1-time portion of per-pupil funding allocated to each district or public school academy under this subsection as follows:

(a) First, for each district or public school academy, calculate the amount that the district's foundation allowance or public school academy's per pupil allocation calculated under section 20 would be if the basic foundation allowance for 2010-2011 were \$8,600.00 if the maximum public school academy allocation for 2010-2011 were \$7,787.00 and if the \$20.00 amount in section 20(3)(a) and 20(26)(h) were instead \$35.00.

(b) Second, calculate the difference between the amount calculated for the district or public school academy under subdivision (a) and the amount of the district's foundation allowance or public school academy's per pupil allocation as actually calculated under section 20 for 2010-2011.

(c) Third, multiply the amount calculated under subdivision (b) times the district's or public school academy's 2010-2011 membership used for the October 2010 payment under this act.

(3) For 2010-2011 only, from the federal funding appropriated under subsection (1), there is allocated an amount not to exceed \$4,500,000.00 to provide a 1-time allocation of primary funding to each intermediate district in an amount equal to the product of 6.9% multiplied by the amount of funding allocated to that intermediate district under section 81 for 2010-2011 under 2010 PA 110.

(4) If there is money remaining under this section after the allocations under subsections (2) and (3) and after any amount that is unused under those subsections because a district or public school academy is unable to use its full allocation under subsection (2), then in addition to the amounts allocated under subsection (2) there is also allocated to each district and public school academy that received money under subsection (2) an amount equal to the district's or public school academy's relative proportion of the funding actually used

under subsection (2) applied to that remaining money, calculated and distributed in a form and manner determined by the department.

(5) To be eligible to receive funds appropriated under this section, a district, intermediate district, or public school academy must meet 1 of the following:

(a) Has previously submitted an application to receive funding under the state fiscal stabilization fund as provided for under title XIV of the American recovery and reinvestment act of 2009, Public Law 111-5.

(b) Submits an application for the funding under this section in a form and manner determined by the department.

(6) A recipient of funding under this section shall comply with all reporting requirements of section 1512 of the American recovery and reinvestment act of 2009, Public Law 111-5, and other reporting requirements established by the United States department of education for this funding.

**History:** Add. 2010, Act 205, Imd. Eff. Oct. 12, 2010;—Am. 2010, Act 217, Imd. Eff. Dec. 3, 2010.

**Compiler's note:** Subsection (2), as amended by Act 205 of 2010, was vetoed by the governor on October 11, 2010. The text of subsection (2) was removed from this section (MCL 388.1611p). In the veto message for Enrolled House Bill 5872, the governor stated, "I have exercised my item veto authority because Subsection (2) would allocate federal funds in a manner inconsistent with the requirements of Public Law 111-226. Under the federal law, funds received by a state must be distributed: (1) through a state's primary funding formula; or (2) based upon local schools' relative shares of funds under Title I of the federal Elementary and Secondary Education Act of 1965. Subsection (2) of Enrolled House Bill 5872 does neither. The United States Department of Education has indicated that this allocation is inconsistent with the requirements of Public Law 111-226 and with the application for Education Jobs Fund filed by the state of Michigan, in which the state indicated that funds would be distributed based on its primary funding formula. Failure to comply with the requirements of Public Law 111-226 likely will result in a federal audit and recoupment of funds by the federal government."

Enacting section 1 of Act 217 of 2010 provides:

"Enacting section 1. (1) In accordance with section 30 of article IX of the state constitution of 1963, total state spending in this amendatory act, in 2010 PA 204, and in 2010 PA 110 from state sources for fiscal year 2010-2011 is estimated at \$10,955,902,900.00 and state appropriations to be paid to local units of government for fiscal year 2010-2011 are estimated at \$10,824,041,900.00.

(2) In accordance with section 30 of article IX of the state constitution of 1963, total state spending in this amendatory act, in 2010 PA 110, and in 2009 PA 121 from state sources for fiscal year 2009-2010 is estimated at \$10,645,097,700.00 and state appropriations to be paid to local units of government for fiscal year 2009-2010 are estimated at \$10,562,169,000.00."

Sec. 15. (1) If a district or intermediate district fails to receive its proper apportionment, the department, upon satisfactory proof that the district or intermediate district was entitled justly, shall apportion the deficiency in the next apportionment. Subject to subsections (2) and (3), if a district or intermediate district has received more than its proper apportionment, the department, upon satisfactory proof, shall deduct the excess in the next apportionment. Notwithstanding any other provision in this act, state aid overpayments to a district, other than overpayments in payments for special education or special education transportation, may be recovered from any payment made under this act other than a special education or special education transportation payment. State aid overpayments made in special education or special education transportation payments may be recovered from subsequent special education or special education transportation payments.

(2) If the result of an audit conducted by or for the department affects the current fiscal year membership, affected payments shall be adjusted in the current fiscal year. A deduction due to an adjustment made as a result of an audit conducted by or for the department, or as a result of information obtained by the department from the district, an intermediate district, the department of treasury, or the office of auditor general, shall be deducted from the district's apportionments when the adjustment is finalized. At the request of the district and upon the district presenting evidence satisfactory to the department of the hardship, the department may grant up to an additional 4 years for the adjustment if the district would otherwise experience a significant hardship.

(3) If, because of the receipt of new or updated data, the department determines during a fiscal year that the amount paid to a district or intermediate district under this act for a prior fiscal year was incorrect under the law in effect for that year, the department may make the appropriate deduction or payment in the district's or intermediate district's allocation for the fiscal year in which the determination is made. The deduction or payment shall be calculated according to the law in effect in the fiscal year in which the improper amount was paid.

(4) Expenditures made by the department under this act that are caused by the write-off of prior year accruals may be funded by revenue from the write-off of prior year accruals.
