Act 94 of 1979

## ARTICLE 5

### **388.1651 Repealed. 1996, Act 300, Eff. Oct. 1, 1996.**

**Compiler's note:** The repealed section pertained to reimbursement to districts and intermediate districts for special education programs, services, and personnel, certain net tuition payments, and programs for pupils with handicaps.

### **388.1651a Allocations for reimbursement to districts and intermediate districts for special education programs, services, and personnel, certain net tuition payments, and programs for pupils eligible for special education programs; allocation of state and federal funds; reimbursement; total payment; adjustments; rights, benefits, and tenure of transferred personnel; refund; foundation allowance; order of expenditures; responsibility for added costs for pupil enrolled in public school academy which is outside intermediate school district where pupil resides.**

Sec. 51a. (1) From the appropriation in section 11, there is allocated for 2009-2010 an amount not to exceed \$1,016,342,000.00 and there is allocated for 2010-2011 an amount not to exceed \$1,057,883,000.00 from state sources and all available federal funding under sections 611 to 619 of part B of the individuals with disabilities education act, 20 USC 1411 to 1419, estimated at \$350,700,000.00 for 2009-2010 and estimated at \$385,700,000.00 for 2010-2011, plus any carryover federal funds from previous year appropriations. The allocations under this subsection are for the purpose of reimbursing districts and intermediate districts for special education programs, services, and special education personnel as prescribed in article 3 of the revised school code, MCL 380.1701 to 380.1766; net tuition payments made by intermediate districts to the Michigan schools for the deaf and blind; and special education programs and services for pupils who are eligible for special education programs and services according to statute or rule. For meeting the costs of special education programs and services not reimbursed under this article, a district or intermediate district may use money in general funds or special education funds, not otherwise restricted, or contributions from districts to intermediate districts, tuition payments, gifts and contributions from individuals, or federal funds that may be available for this purpose, as determined by the intermediate district plan prepared pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1766. All federal funds allocated under this section in excess of those allocated under this section for 2002-2003 may be distributed in accordance with the flexible funding provisions of the individuals with disabilities education act, Public Law 108-446, including, but not limited to, 34 CFR 300.206 and 300.208. Notwithstanding section 17b, payments of federal funds to districts, intermediate districts, and other eligible entities under this section shall be paid on a schedule determined by the department.

(2) From the funds allocated under subsection (1), there is allocated each fiscal year the amount necessary, estimated at \$234,780,000.00 for 2009-2010 and estimated at \$248,200,000.00 for 2010-2011, for payments toward reimbursing districts and intermediate districts for 28.6138% of total approved costs of special education, excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Allocations under this subsection shall be made as follows:

(a) The initial amount allocated to a district under this subsection toward fulfilling the specified percentages shall be calculated by multiplying the district's special education pupil membership, excluding pupils described in subsection (12), times the sum of the foundation allowance under section 20 of the pupil's district of residence plus the amount of the district's per pupil allocation under section 20j(2), not to exceed the basic foundation allowance under section 20 for the current fiscal year, or, for a special education pupil in membership in a district that is a public school academy or university school, times an amount equal to the amount per membership pupil calculated under section 20(6). For an intermediate district, the amount allocated under this subdivision toward fulfilling the specified percentages shall be an amount per special education membership pupil, excluding pupils described in subsection (12), and shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, and that district's per pupil allocation under section 20j(2).

(b) After the allocations under subdivision (a), districts and intermediate districts for which the payments calculated under subdivision (a) do not fulfill the specified percentages shall be paid the amount necessary to achieve the specified percentages for the district or intermediate district.

(3) From the funds allocated under subsection (1), there is allocated each fiscal year for 2009-2010 and for 2010-2011 the amount necessary, estimated at \$1,329,000.00 for 2009-2010 and estimated at \$1,400,000.00

for 2010-2011, to make payments to districts and intermediate districts under this subsection. If the amount allocated to a district or intermediate district for a fiscal year under subsection (2)(b) is less than the sum of the amounts allocated to the district or intermediate district for 1996-97 under sections 52 and 58, there is allocated to the district or intermediate district for the fiscal year an amount equal to that difference, adjusted by applying the same proration factor that was used in the distribution of funds under section 52 in 1996-97 as adjusted to the district's or intermediate district's necessary costs of special education used in calculations for the fiscal year. This adjustment is to reflect reductions in special education program operations or services between 1996-97 and subsequent fiscal years. Adjustments for reductions in special education program operations or services shall be made in a manner determined by the department and shall include adjustments for program or service shifts.

(4) If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) is not sufficient to fulfill the specified percentages in subsection (2), then the shortfall shall be paid to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), then the department shall deduct the amount of the excess from the district's or intermediate district's payments under this act for the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. However, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there shall be no deduction under this subsection.

(5) State funds shall be allocated on a total approved cost basis. Federal funds shall be allocated under applicable federal requirements, except that an amount not to exceed \$3,500,000.00 may be allocated by the department each fiscal year for 2009-2010 and for 2010-2011 to districts, intermediate districts, or other eligible entities on a competitive grant basis for programs, equipment, and services that the department determines to be designed to benefit or improve special education on a statewide scale.

(6) From the amount allocated in subsection (1), there is allocated an amount not to exceed \$1,750,000.00 for 2009-2010 and an amount not to exceed \$2,200,000.00 for 2010-2011 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, "net increase in necessary costs" means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. Net increase in necessary costs shall be determined in a manner specified by the department.

(7) For purposes of this article, all of the following apply:

(a) "Total approved costs of special education" shall be determined in a manner specified by the department and may include indirect costs, but shall not exceed 115% of approved direct costs for section 52 and section 53a programs. The total approved costs include salary and other compensation for all approved special education personnel for the program, including payments for social security and medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to administrative personnel who are not special education personnel as defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds included in the allocation made under this article, are not included. Special education approved personnel not utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services shall be reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the department to provide an on-grounds education program.

(b) Beginning with the 2004-2005 fiscal year, a district or intermediate district that employed special education support services staff to provide special education support services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-2004 receives the same type of support services from another district or intermediate district shall report the cost of those support services for special education reimbursement purposes under this act. This subdivision does not prohibit the transfer of special education classroom teachers and special education classroom aides if the pupils counted in membership associated with those special education classroom teachers and special education classroom aides are transferred and counted in membership in the other district or intermediate district in conjunction with the transfer of those teachers and aides.

(c) If the department determines before bookclosing for a fiscal year that the amounts allocated for that fiscal year under subsections (2), (3), (6), (8), and (12) and sections 53a, 54, and 56 will exceed expenditures

for that fiscal year under subsections (2), (3), (6), (8), and (12) and sections 53a, 54, and 56, then for a district or intermediate district whose reimbursement for that fiscal year would otherwise be affected by subdivision (b), subdivision (b) does not apply to the calculation of the reimbursement for that district or intermediate district and reimbursement for that district or intermediate district shall be calculated in the same manner as it was for 2003-2004. If the amount of the excess allocations under subsections (2), (3), (6), (8), and (12) and sections 53a, 54, and 56 is not sufficient to fully fund the calculation of reimbursement to those districts and intermediate districts under this subdivision, then the calculations and resulting reimbursement under this subdivision shall be prorated on an equal percentage basis.

(d) Reimbursement for ancillary and other related services, as defined by R 340.1701c of the Michigan administrative code, shall not be provided when those services are covered by and available through private group health insurance carriers or federal reimbursed program sources unless the department and district or intermediate district agree otherwise and that agreement is approved by the state budget director. Expenses, other than the incidental expense of filing, shall not be borne by the parent. In addition, the filing of claims shall not delay the education of a pupil. A district or intermediate district shall be responsible for payment of a deductible amount and for an advance payment required until the time a claim is paid.

(e) Beginning with calculations for 2004-2005, if an intermediate district purchases a special education pupil transportation service from a constituent district that was previously purchased from a private entity; if the purchase from the constituent district is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the intermediate district to the constituent does not result in any net change in the revenue the constituent district receives from payments under sections 22b and 51c, then upon application by the intermediate district, the department shall direct the intermediate district to continue to report the cost associated with the specific identified special education pupil transportation service and shall adjust the costs reported by the constituent district to remove the cost associated with that specific service.

(8) From the allocation in subsection (1), there is allocated each fiscal year for 2009-2010 and for 2010-2011 an amount not to exceed \$15,313,900.00 to intermediate districts. The payment under this subsection to each intermediate district shall be equal to the amount of the 1996-97 allocation to the intermediate district under subsection (6) of this section as in effect for 1996-97.

(9) A pupil who is enrolled in a full-time special education program conducted or administered by an intermediate district or a pupil who is enrolled in the Michigan schools for the deaf and blind shall not be included in the membership count of a district, but shall be counted in membership in the intermediate district of residence.

(10) Special education personnel transferred from 1 district to another to implement the revised school code shall be entitled to the rights, benefits, and tenure to which the person would otherwise be entitled had that person been employed by the receiving district originally.

(11) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. Money that is refunded shall be deposited in the state treasury to the credit of the state school aid fund.

(12) From the funds allocated in subsection (1), there is allocated each fiscal year the amount necessary, estimated at \$6,200,000.00 for 2009-2010 and estimated at \$6,600,000.00 for 2010-2011, to pay the foundation allowances for pupils described in this subsection. The allocation to a district under this subsection shall be calculated by multiplying the number of pupils described in this subsection who are counted in membership in the district times the sum of the foundation allowance under section 20 of the pupil's district of residence plus the amount of the district's per pupil allocation under section 20j(2), not to exceed the basic foundation allowance under section 20 for the current fiscal year, or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy or university school, times an amount equal to the amount per membership pupil under section 20(6). The allocation to an intermediate district under this subsection shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, and that district's per pupil allocation under section 20j(2). This subsection applies to all of the following pupils:

(a) Pupils described in section 53a.

(b) Pupils counted in membership in an intermediate district who are not special education pupils and are served by the intermediate district in a juvenile detention or child caring facility.

(c) Emotionally impaired pupils counted in membership by an intermediate district and provided educational services by the department of community health.

(13) If it is determined that funds allocated under subsection (2) or (12) or under section 51c will not be expended, funds up to the amount necessary and available may be used to supplement the allocations under

subsection (2) or (12) or under section 51c in order to fully fund those allocations. After payments under subsections (2) and (12) and section 51c, the remaining expenditures from the allocation in subsection (1) shall be made in the following order:

- (a) 100% of the reimbursement required under section 53a.
- (b) 100% of the reimbursement required under subsection (6).
- (c) 100% of the payment required under section 54.
- (d) 100% of the payment required under subsection (3).
- (e) 100% of the payment required under subsection (8).
- (f) 100% of the payments under section 56.

(14) The allocations under subsections (2), (3), and (12) shall be allocations to intermediate districts only and shall not be allocations to districts, but instead shall be calculations used only to determine the state payments under section 22b.

(15) If a public school academy enrolls pursuant to this section a pupil who resides outside of the intermediate district in which the public school academy is located and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the provision of special education programs and services and the payment of the added costs of special education programs and services for the pupil are the responsibility of the district and intermediate district in which the pupil resides unless the enrolling district or intermediate district has a written agreement with the district or intermediate district in which the pupil resides or the public school academy for the purpose of providing the pupil with a free appropriate public education and the written agreement includes at least an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil.
